DEDICATION

To that vast corps of *Torontonensis* staff members of the past forty years, in whose anonymous service, symbolic of the true University spirit, may be found that sacrifice of self which is, and will ever be, the world's greatest need.

". . . . The temper in which knowledge is used is often more important than the knowledge itself. No one is going to do his life-work in a void . . . ."

—Dr. Bruce Taylor of Queen's
in message to *Torontonensis*, 1922.

Those Forty Years

It may be that the fiftieth or one hundredth anniversary is more properly the time for such a dedication, such a preface. We are not, however, entirely free agents in this matter: long hours spent over the volumes of other years resting in quiet repose — uncomfortably near oblivion — on the fifth floor of the Library stacks have conditioned our action to a point approaching necessity. Yield recognition, pay tribute we must.

This is not the place to discuss or attempt a judicious estimation of the value of *Torontonensis,* or to conduct a searching inquiry into the rightness or wrongness of the very bases of its existence. The first, the only court of trial is with each year's graduating classes: that each year the book has met with approval sufficient to render its continued publication highly desirable — a matter of importance, if not of vital necessity — relegates, perhaps, any contemplated probing of its *raison d'être* to the limbo of academic exercises.

What we would do here is focus attention on the inception and evolution of *Torontonensis. "Torontonensis,"* remarked *The Varsity* recently, "brings you the world in *pictures.*" The basis for this somewhat exaggerated statement, residing in what appears today to be the distinguishing characteristic of *Torontonensis,* could not, however, be found to an equal extent in the initial volume of 1898. For Volume I, containing one-half as large and one-half as many pages as this present volume, boasted only some two dozen group photographs — of clubs and class executives. There were no corresponding portraits for the biographies of the ninety-eight men graduating and of the fifty-two women — whose biographies, incidentally, were divided into four groups of thirteen, the pages of

each group being bordered with the insignia of one or other of the four playing-card suits! Novel, too, when compared with more recent editions, was the first year-book's featuring of two or three short stories — one of them the work of one B. K. Sandwell, '97. It is impossible for us, perhaps, at this distance, to appreciate fully what this first volume cost the editorial staff in time and toil. Burriss Gahan, the Editor, who was also one of the two Editors of *The Varsity* for 1898, and the members of his staff, among whom were to be found such stalwart members of the Class of '98 as J. G. Inkster and E. W. Beatty, must certainly have been confronted with the almost insurmountable obstacles of passive resistance and scarcity of funds—obstacles ever attendant on new ventures. The wonder is not that today their production should appear perhaps small, perhaps amusingly quaint, but that they should have succeeded so signally as they did.

Subsequent volumes of *Torontonensis* mirror the development of the University: the admission of new colleges and faculties into the Federation, their entrance into *Torontonensis,* itself increasing in size to meet new demands; the effect of the war-years' impingement on University life; the creation of Hart House; the celebration of the University's centennial, 1927. Yet all these reflections of matters of contemporary importance are as the playing of light and shadow on the course of a swift-moving stream. Beneath the sombre darkness of war, the brilliant aurora of peace, the mellow glow of a century's achievements, there flows through all *Torontonenses,* deep, central, strong, the main current of University life. It is the story of groping, growth, self-realization. It is the heart of Volume I: it is the life-blood of Volume XL. That is why, despite surface variations, the numerous editions of *Torontonensis* remain essentially the same. In the light of after-years it would appear the pioneers of '98 builded better than they knew.

SENIORS

THE HONOURABLE AND REVEREND H. J. CODY, M.A., D.D., LL.D.

A Message from the President

To the Members of the Graduating Classes:

GREETING and good wishes! All too rapidly the years fly past and the freshman has become a grave and reverend senior, ending one chapter of his education and looking forward to the stern chapters of life's active experience. A university degree should mean that the graduate is interested in general ideas; that he will not accept or reject an idea until he has sought to understand it; that he is made "capable of philosophy"; that he desires to get down to the roots of matters; that he has come to learn the significance of things in their universal relationships. I hope that the University has stimulated, and trained you to think, not necessarily to think alike, but at least to think strenuously about the great issues of right and wrong, of liberty and government, on which thinking for the individual and the community depends that balanced judgment which is vital to all noble and reasonable living. We cannot have today in our land too many citizens possessed of that combination of knowledge and sound judgment which it is one of the University's chief aims to provide.

The aim, indeed, of all education is to enable you to do three things: (a) to make a living; (b) to live a life; and (c) to mould a world.

It is a worthy ambition to fit one's self to earn a living. This the University has tried to help you to do. I hope that you will soon find a field for your trained abilities in this Dominion of Canada. The State has helped largely to give you this training and has therefore a right to expect your best service. This country while dowered with great material riches demands hard work, if this wealth is to be discovered, developed and conserved; but it is a country worth working for, a country which cannot stand still unless our own folly, disunion or stupidity retards its growth.

It is of still greater importance to make a life, to enrich a personality. To do this is to attain real success. Such an enlargement of life is a good in itself. You carry away from college halls a disciplined mind, a quickened imagination, a widened sympathy.

You are called and trained also to mould a world. Your culture must issue in service. It is a perplexed and perplexing world in which we live and which we must influence. A great British pro-consul, the Earl of Cromer, once gave this advice to a group of English youths: "Tell the truth, love your country, don't dawdle." In these three ways you can help to mould your age.

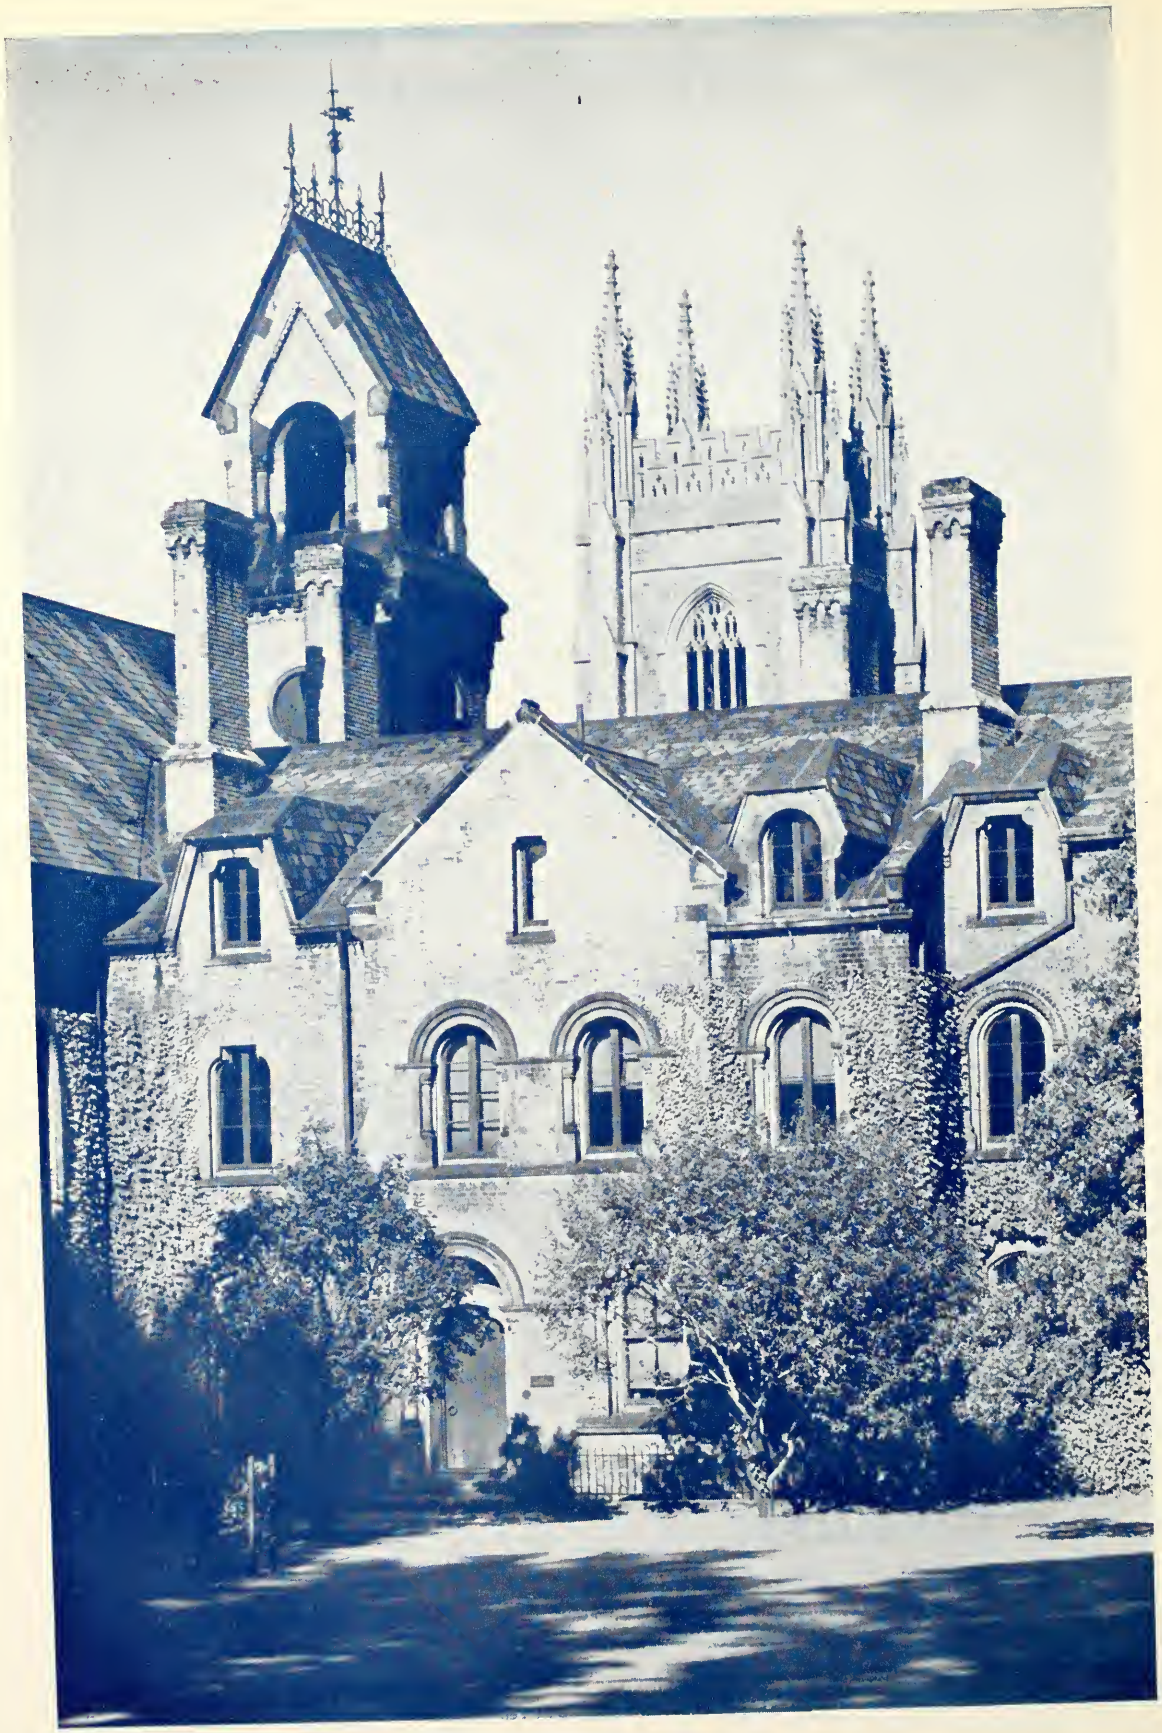
The Universities of Canada are bonds of national unity, training-places for national service, and windows which afford an international outlook. No nation today can live in isolation, much less can a member of the British Empire. The famous English historian, Professor G. M. Trevelyan, in the latest edition of his history of England, aptly and truly says: "In spite of all our country's errors, the world's best hopes still rest on her." To safeguard all that is best in our heritage and traditions will be your sacred duty. You are called on to defend our democracy from dangers within and dangers without. Earl Baldwin well expressed your privilege and your responsibility: "You are in charge of all our honour and all our hopes." Both university and country make this same appeal to you.

Don't stand apart from age and maturity. Age needs you and you need age. Let us strive together for the common good, for peace among men of good-will, for building the Kingdom of God on earth.

In the name of this University, your *alma mater*, I wish you Godspeed and good success. "Love the brotherhood, fear God, honour the King."

H. J. Cody

15th March, 1938. President.



UNIVERSITY COLLEGE

To the Graduating Class of University College

By Professor Malcolm W. Wallace, B.A., Ph.D.

FEW events in your lives are likely to mark the end of one period and the beginning of another more definitely than graduation from college. It is an event that suggests the desirability of mental and moral stocktaking—a fresh surveying and estimating of your programme of life. For four years you have been able to devote yourselves almost exclusively to study. Your instructors and your fellow-students have made their contribution to your education. What value do you set on the process to which you have been subjected?

Perhaps a more important question is, What programme have you laid down for your own immediate future? You should know definitely what you propose to seek from life, and you should bend all your energies to its attainment. Whether your goal be riches or eminence in a profession, or success in politics or some more altruistic achievement, you cannot afford any longer to be indefinite about it. Success is almost always dependent on hard work consistently directed toward a definitely conceived end.

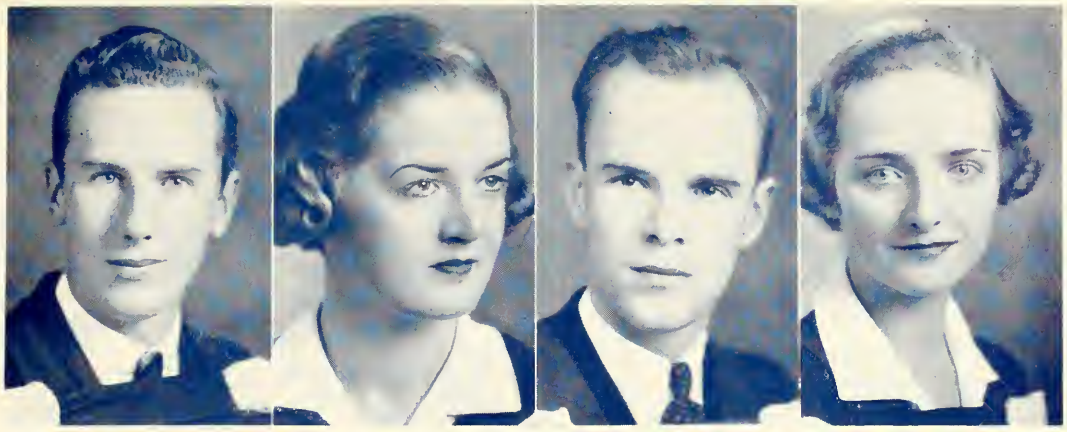
It is said that many university graduates cease to be students from the time of their graduation. They represent the failure of the arts college. They have wasted four years of their lives, and the state has made a bad investment in them. Unless college has stung you wide awake, unless it has implanted tastes and interests which clamour for satisfaction, all your accumulated information will avail you little. Information is of value only as the raw material which will enable you continually to add to and to modify your stock of ideas and of convictions. The very existence of the University can be justified only to the extent that you prove to be more alive, more intelligent, more devoted to social good than those whose opportunities have been less. Your education must continue as long as your lives. You can continue to grow only if you regard your books, your friends and your work as sources on which you are dependent for greater understanding and for becoming more efficient members of your community.

This is a difficult world in which to find your way, for there is no easy solution to the perennial human enigma of the juxtaposition of good and evil in life. I would warn you against adopting easily the attitude of the cynics or of the disillusioned. They will assure you that

> In headaches and in worry
> Vaguely Life leaks away.

That is a perfectly just description—of them and of all superficial weaklings, who cannot endure the pains of thinking or of strenuous moral striving. I suggest to you that you hold fast to your belief in the reality of goodness, truth and beauty no matter how intimately you find them associated with wickedness and error and ugliness. Angels are bright still though the brightest fell, and your deepest instincts will tell you that human experience is saturated with meaning; to discover it is the only serious occupation of man.

I confess that I have but little faith in sermonizing of this kind. Your tastes and inclinations are already pretty well determined, and they will bid you seek for satisfaction either in trivialities or in more substantial ways. Very many of you, I believe, will aim at making a contribution toward untangling the irrationalities and injustices of the puzzling world in which you must play your part. I can only assure you that your efforts to live the good life will be watched with the deepest satisfaction and pride by those who for a time have had the great privilege of being your instructors.



TOM COLE, *President*; BETTY CAUDWELL, *Vice-President*; BEV. GAYNOR, *Secretary*; PEGGY CARSON, *Treasurer*.

Message from Class of 3T8

THE record of 3T8 U.C. academically has been high. Possibly the most notable honours have come in our last year with the winning of a Rhodes Scholarship by Alan Jarvis—who is the fifth successive Rhodes scholar to come out of University College—and of a Massey Scholarship by Wilf Smith. Here the augury for the future is fair.

In the field of athletics, our men and women have played a prominent part in the sports of the University as a whole, and we have watched our College intramurally in its ups and downs till now we are no longer the "intellectual college" that always loses.

In campus life—in the many clubs, organizations, and conferences—for the last four years, we have occupied prominent places. Again this augurs well.

In a literary way, we have made an excellent showing. We have nursed *The Undergraduate* into a publication with a reputation of which we may with justice be proud. We have had men and women on nearly every debating team sent out by the University; and within the College, we have won the Robinette Debates Trophy. At the University Drama Festival, we have won the Cody Award both years so far. Perhaps we are fitted for heavy rôles later on.

Varsity life has been grand. We used to smile when Alumni sighed and said the four years at college were the most wonderful experience they'd ever had. Now we know. We've enjoyed them. We're sorry it's through. But let's never be pessimistic—let's enjoy life always.

VICTORIA COLLEGE

1836 VICTORIA UNIVERSITY 1938

Academy, College and University in Cobourg

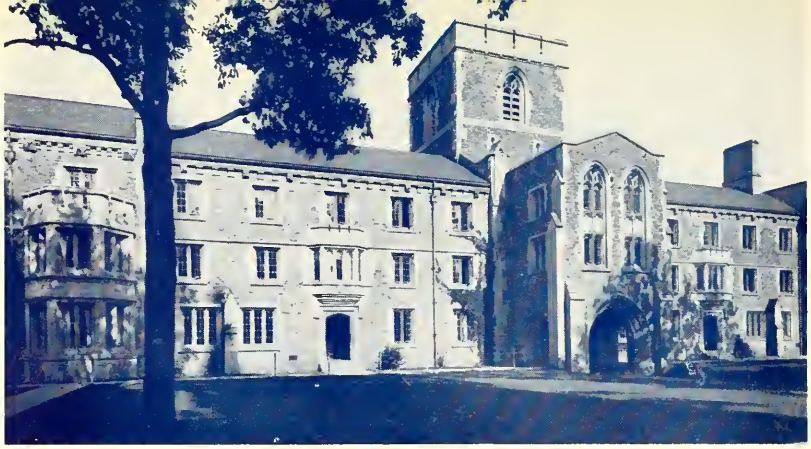
IN 1936 Victoria University celebrated the one hundredth anniversary of the granting of the Royal Charter by King William IV on October 12th, 1836. The same year marked the centenary of actual teaching which was commenced in the Upper Canada Academy in Cobourg in June, 1936. The corner-stone of the Upper Canada Academy was laid on June 7th, 1832, and exactly one hundred years later this event was marked by a pilgrimage to Cobourg of graduates and friends of Victoria University.

In 1841 the Charter was extended to include degree-conferring powers and the name was changed to Victoria College. The first degree in Arts in Ontario was conferred by Victoria College in 1845 on Oliver Springer. In 1854 a Faculty of Medicine was added; in 1860 a Faculty of Law, and a Faculty of Theology in 1871. In 1884 the name was changed to Victoria University.

During the first half century of Victoria's existence the names of two leaders stand out. Egerton Ryerson was responsible for securing the Royal Charter and he was the first Principal of Victoria College in 1841. When Samuel S. Nelles took charge of the College in 1850 its fortunes were at a low ebb. Under his wise and far-sighted guidance the work of Victoria grew and expanded as additional faculties were added.

Federation with the University of Toronto

VICTORIA UNIVERSITY was admitted to federation with the University of Toronto in 1890. By that act Victoria was a pioneer in setting up the system of education by which the provincial university and three independent denominational universities and colleges have in the course of time through their federation agreements established the Faculty of Arts of the University of Toronto as it exists today. No man played a greater part in the development and consummation of the federation idea than the Vice-Chancellor of the University of Toronto, now the honoured Chancellor of the same institution, the Right Honourable Sir William Mulock. Federation became an actual fact when Victoria moved to Toronto in 1892, and at the same time discontinued the Faculties of Medicine and Law, retaining the right to grant degrees only in Divinity. The organization of Victoria University then consisted of two faculties, Arts and Divinity. The Arts Faculty, known as Victoria College, with University College, then constituted the Arts Faculty of the University of Toronto, to which federation Trinity College and St. Michael's College were admitted later.



Expansion in Toronto

DURING the first decade of its existence in Toronto the number of students in Victoria College was small. With the opening of Annesley Hall in 1903 there was a marked increase in the number of women students. With larger numbers came the demand for additional buildings. The Birge Carnegie Library, provided through the munificence of Mr. C. A. Birge of Hamilton and Mr. Andrew Carnegie, was opened in 1910. Burwash Hall and the Men's Residences, the gift of Mr. Chester D. Massey, were completed in 1913. During the Great War the number of students in attendance was depleted by half and the Men's Residences were used almost exclusively for military purposes. After the Armistice the number in attendance reached approximately the same figure as it had been before the War. In 1926 another splendid addition was made to the buildings of Victoria University with the opening of the Wymilwood Women Students' Union and Residence, the gift of Mrs. E. R. Wood and Lady Flavelle.

The task of translating the federation agreement into practice was accomplished by Chancellor Nathanael Burwash who had succeeded Dr. Nelles in 1887 and held office until 1913. During the difficult war years and during the period of greater expansion in 1920-1930 Chancellor R. P. Bowles guided the destinies of the institution.

Victoria College and Emmanuel College

THE consummation of Church Union in 1925 affected both the work and organization of Victoria University. There was a marked increase in the number of students enrolled in Victoria College. An amendment to the Charter was contained in the Victoria University Act of 1928 which provided for two colleges, Victoria College in Arts and Emmanuel College in Divinity. When the charter and buildings of Knox College were given to the non-concurring congregations of the former Presbyterian Church, the college body consisting of Board, Senate, Staff and the majority of students was re-incorporated as Union Theological College. The Victoria University Act of 1928 provided that Union Theological College and the Faculty of Theology of Victoria University should be united to form Emmanuel College of Victoria University. In 1929 and 1930 an appeal was made for funds to provide land and buildings for Emmanuel College. Construction was begun in 1930 and at the opening of the session in the fall of 1931 the new Emmanuel College Building and Emmanuel College Residences were formally opened. In January, 1930, Dr. Edward W. Wallace was installed as Chancellor and President of Victoria University, succeeding Dr. R. P. Bowles, who had resigned and was appointed Chancellor Emeritus.

To the Graduating Class of Victoria College

By Principal W. T. Brown, M.A., Ph.D.

THERE never was a time in the history of the world when young men and women were not faced with serious difficulties and challenged by great opportunities. For many years the realistic tendency to dwell upon the immediate obstacles that face youth has eclipsed the idealistic spirit which thrills at the prospect of adventure. I trust, however, that as the Class of nineteen hundred and thirty-eight leaves our college halls the spirit of sanity will go with them, and that without failing to recognize the difficulties of life they may have the vision to behold its alluring prospects.

I have no doubt that for some years the immediate task of establishing yourself in your home, and in your professional or business career, will demand a large portion of your energies, and you may be sure that there is no sphere or activity where intelligent, high-minded and persistent labour will not finally achieve significant results.

As you are busily engaged in your own specific tasks great changes will take place in the world around you, changes in the social, political and religious world, changes that may profoundly affect your own lives and the lives of future generations. I trust that even at the beginning of your careers you will not be so pre-occupied with your own concerns as to be unable to help shape the thought and life around you. You are the heirs of a great tradition of freedom which has worked its way down through the Anglo-Saxon race; you are debtors to the spirit of democracy which has given to you opportunities of development never excelled in the history of mankind; you are the custodians of a spiritual tradition which has ennobled the life of man and shaped the course of civilization. Your Alma Mater will watch your respective careers with interest, and trusts that you will so guide the thought of your age that the rich heritage of the past will be preserved and that the changes which take place in the world will give increased opportunities to all intelligent, high-minded citizens who are willing to labour for the common good.

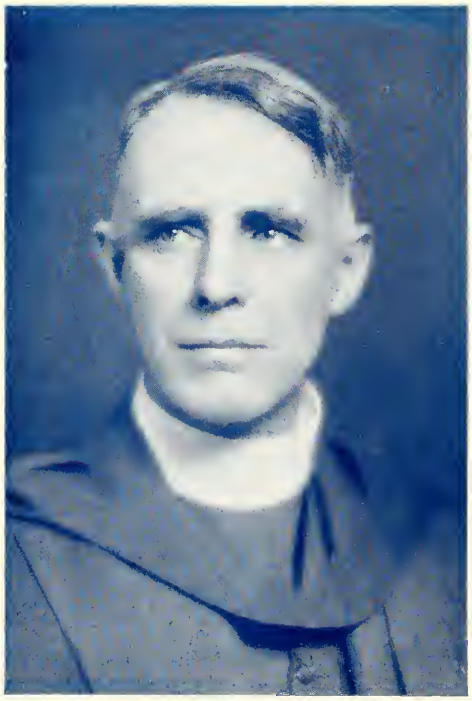
TRINITY COLLEGE

To the Graduating Class of Trinity College

By the Reverend F. H. Cosgrave, M.A., B.D., D.C.L., LL.D.

IT is my privilege to address a few words to the members of the graduating class of 1938. I hope I can express my good wishes for them in some appropriate way.

Their life and work in the University have, I am sure, been profitable. Their eyes have been opened to the vast store of interesting things waiting to be known and enjoyed. They have been awakened intellectually and spiritually and are conscious of the beauty and glory of human life. They are aware of the manifold problems which face them and their generation in the world around them. They have learned to think quickly and accurately and to express themselves in such a way that their meaning is clear beyond all hazard. In short they are educated men and women.



What more do they need for the conduct of life? I would suggest to them that valuable as such an education is the most important thing is lacking unless they carry with them worthy ideals and standards of conduct to which they are determined to adhere, such principles as will keep them steady under all circumstances.

We hope that some of the men and women who have had the advantage of a University education will take an active part in public life and that they will avoid the attitude which did so much harm in my own generation when so many of the men best equipped for such service came to regard politics as a game which no man could play with credit to himself. The future of our country depends upon an adequate supply of persons of intelligence and integrity willing to assume the burden of office and to disregard the abuse which it is the fashion to hurl at public men. The politician is a public servant without whose aid we cannot continue. If we are to escape from our present perplexities the standards of political life must be raised. We should return to a true aristocracy, the Government of all of the people by the best of the people in the interests of all sections of the people.

That is one of the great tasks which lies before the men and women graduating from our Universities at this time. May we hope that they have already resolved to shun private-mindedness, preoccupation with questions of their own profit and pleasure and determined with themselves that they will find and pursue to the end some path of service to their fellows now more than ever desperately in need of their aid?

ST. MICHAEL'S COLLEGE

To the Graduating Class of St. Michael's College

By Rev. E. J. McCorkell, B.A., M.A.

ONE word more. The Catholic University education which we have endeavored to give you at St. Michael's includes two things. The first of these is a love for speculative truth, that is to say, truth for its own sake, whether in empirical science or philosophy a love which the Christian tradition took from the Greek and carried into the modern world, where the time-spirit is entirely against it. It was this spirit of the modern world Maritain referred to when he diagnosed the weakness of modern culture as a disease of the intelligence, the cure for which no social or political reform can effect, nor any reform other than an intellectual one. Herein lies the importance of the study of Thomism, so much emphasized in your college, where professors trained at Louvain or in our own Institute of Mediaeval Studies have interpreted for you the teaching of the great Mediaeval doctor, and even though the particular courses of studies you have followed may not have included formal lectures in philosophy, you have lived in an atmosphere of philosophical speculation and debate, through which the ideas of Thomism have tended to become the common property of all. Through this contact with the vital and sound philosophy of St. Thomas Aquinas, you have, I hope, acquired a fresh love for speculative truth.

The second of the two legacies which your training ought to have given you is an insight into the relation between reason and faith. The modern world of thought began with a denial of any real relation between them, effecting thereby a cleavage with the Christian tradition. The science of God (Theology) is not knowledge in the same sense as empirical science. So says the modern. But the mediaeval man had a different view. Theology is a knowledge of the same kind as biology, and differs only in that it is a higher degree of knowledge. Theology then is a true science and the queen of all the sciences. Having seized upon this old principle, the more true for being old, your study of empirical science, devoted to it as you have happily been, has not inflated you with the idea that your subject is the whole of knowledge, or even the highest part of it, but rather the lowest part, and in this thought, whilst treasuring your mastery of empirical science or philosophy you have remained humble at the sight of its insufficiency, and superlatively aware of a higher degree of knowledge to which faith leads you. Religious Knowledge has not therefore been a mere addition to your course, but an integral, indispensable part of it, your reverence for the truths which faith proposes being in no degree diminished by your increasing mastery of the other sciences. If this were not the case I should say that St. Michael's has labored in vain.

Pass Arts. Loretto College. Was a member of the Basketball Team I, II, III, and of the Athletic Directorate III.

MARY GERTRUDE DOYLE
St. Catharines, Ont.

Hailing from St. Catharines as a Rotary Medalist, our Irish colleen's sunny smile and equable disposition have continued to win her countless friends at Varsity. Varied interests at St. Joseph's have found her on executives of French and Dramatic Clubs, House and Dance Committees. A prodigious memory bore her effortlessly to a B.A.

EDNA GRAY
Toronto, Ont.

Her birth, she claims, was eclipsed only by the sinking of the Lusitania, but she made up for this early handicap by coming from St. Joseph's on the Fortbonne for Latin and French and Alumnae Scholarships, and winning St. Mike's Scholarship for English and History II. Works for a living *all* the time, and, as a consequence, has been sleepy ever since she can remember.

KATHLEEN M. G. KILLORAN
Toronto, Ont.

Pass Arts. Can't remember which scholarship she came to Varsity on. Was on *Varsity* staff III, Newman *Torch* II. Was a member of Newman Club I, II, III. Dislikes the Big Apple, also biographies. Interested in hockey and skating. Intends to set the business world on fire.

MARGARET MacDONALD
Orillia, Ont.

Pass Arts. It took our "Margy" with her engaging smile and vivacity, *via* Pass Arts at St. Joseph's, to put Orillia on the map; here she has achieved an all-time high in good-nature, generosity and wit! Truly to know her is to love her!

M. I. SUNNY McLAUGHLIN
Toronto, Ont.

Pass Arts. Rebels at "*just* Pass Arts" and "B++'s" in essays. Enthuses about basketball, badminton and swimming (Interfaculty Teams I, II, III and I, II). Was on Athletic Directorate III, Dance Committee I, II. Events—St. Joseph's Alumnae Scholarship, Appendectomy and Aegrotat I, St. Michael's Proficiency Scholarship II, plaster cast from ankle up III. Maintains that her name refers to her red hair, not to her disposition, and that McLaughlin is Irish.

MARION K. MITCHELL
Toronto, Ont.

Moderns. All the facts she could be prevailed upon to give as worthy of mention were: that she was born in New York and matriculated from St. Joseph's Convent to enter Moderns Course, the latter fact being the only one she really regrets.

HELEN M. NEWTON
Toronto, Ont.

Pass Arts. "Good things come in small packages"—and so did Helen all the way from Timmins to glide easily through the Pass Course. Very interested in what the future holds in store for her, and so are we, hoping against hope she gets the break she thinks she deserves.

CATHERINE A. O'NEILL
Baltimore, Md.

Catherine Agnes O'Neill came from Baltimore, Md., to grace Loretto College and this year heads her College's S.A.C. Her proficiency covers: Interfaculty Basketball and Tennis I, II, III; Vice-President S.A.C. II; President S.A.C. III; *Torontonensis* Rep. III. Her greatest assets are—"Gift o'Gab" and "laughing Irish eyes." Hopes someday to be a producer of minstrel shows.

EILEEN G. ZEAGMAN
Toronto, Ont.

Pass Arts. Takes everything in her stride—including Varsity. As teacher of Dramatic Art, she presided over Dramatic Society II, III. Was S.A.C. Representative II, III. Engaged actively in Newman Club I, II, III, and Catholic Junior League. Was convener of College At-Home III. Pet hates—Spanish classes and sewing meetings. Lacks redhead's proverbial temper but insists she is an Irish-German—but!!

COMMERCE AND FINANCE

To the Graduating Class of Commerce and Finance

By Professor C. A. Ashley, B. Com., C.A.

THE celebration of the fiftieth anniversary of the foundation of the department of Political Economy has caused us to review the history of the department and to enquire into the records of our graduates. Many of the early graduates have distinguished themselves in public life in Canada, and many of the graduates of Commerce and Finance have already shown that they will carry on this tradition.

We hope that, fifty years from now, you will all actively participate in the centenary celebrations, and that each of you will command the respect and emulation of the students of that day. In the meantime, we hope that you will lead happy and useful lives; that you will look back with pleasure on your undergraduate days; and that you will keep in touch with the department.

TEACHERS' COURSE

To the Graduating Classes in the Department of University Extension

By W. J. Dunlop, B.A., B.Paed.,
Director, University Extension and Publicity

TO the graduates in the Pass Course for Teachers and to those who are to receive their diplomas in Occupational Therapy and in Physiotherapy I tender my cordial and sincere congratulations on the completion of courses that have meant hard study and much application and concentration.

The teachers and others on whom is being conferred the degree in Arts, on their completion of the Pass Course for Teachers, have been ambitious to improve their qualifications and have used a great deal of their leisure time in fitting themselves for better service. Some have studied in Teachers' Classes in the evenings and on Saturdays and some have been students in several Summer Sessions. They have now reached their objective and they may well experience the satisfaction which comes to those who have achieved something really worth-while.

Those who are being awarded diplomas in Occupational Therapy and in Physiotherapy and whose photographs (in uniform) appear in another section of *Torontonensis* are entering upon careers which are relatively new and certainly are uncrowded. I am told that no therapist of either type is out of employment at present and that there are likely to be positions for all these graduates when they complete the six-months' interneships which they must now commence.

I am confident that all these graduates, teachers and therapists, will always be loyal alumnae and alumni of the University of Toronto which has given them opportunity for education and training which will fit them to occupy positions of responsibility in the life of this Dominion. It is my earnest hope that they may all enjoy many years in which they may put into practice what they have learned from their courses. The Department of University Extension is proud of them and will watch their careers with interest.

MEDICINE

To the Graduating Class in Medicine

By Dean W. E. Gallie, M.D., F.R.C.S. Eng., F.R.C.S. (C.)

IT IS the pleasant duty of the Dean at this time of year to congratulate the graduating class upon successfully bringing to a close their six years of undergraduate study. It is the hope of the Faculty that all the graduates may find among the various branches of Medicine the work for which they are best suited and which will give them the greatest happiness.

In saying goodbye, may I remind you that success in Medicine depends on many things and that it will be well to consider what these things are while it is yet possible to control them. Most of them are in some way connected with character and personality and can be influenced but little by any but oneself. Sometimes, however, the School can be of assistance and I would remind the graduates that the opportunity to help old students never fails to give pleasure to the teacher.

On behalf of the Faculty let me wish you every success.

ENGINEERING
APPLIED SCIENCE
AND ENGINEERING

To the Graduating Class of the Faculty of Applied Science and Engineering

By Dean C. H. Mitchell, C.B., C.M.G., D.S.O., C.E., LL.D., D. Eng.

TO you gentlemen of the Class of 1938 who now go out into the cold world from the warm halls of your university home, I give my best congratulations and wishes.

You will never say that your university environment was ever cold because you yourselves kept it warm, indeed sometimes endeavoured to warm it up without the aid of thermodynamics. You are going out, however, into a world that is not as cold as it was a few years ago—it is warmer in more senses than one.

We cannot tell at this writing what is in store for the world these next few years, but it has all indications of being warmish. To you young engineers, however, the outside world hereabouts will give a warm welcome because all of you are needed, some of you needed badly, to help in Canadian business and industry. So good fortune to you.

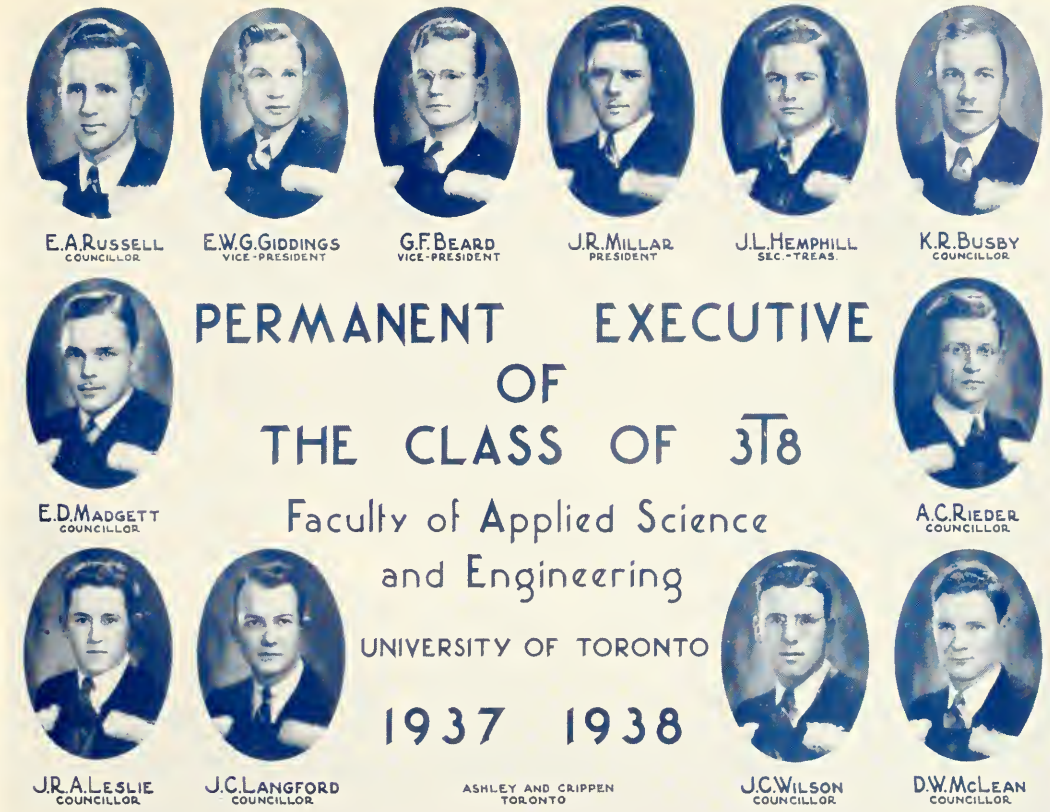
While you have been here at the University you have learned many things, all of them good, let us hope, and all useful. The most important thing perhaps that you have learned, is the ability to think for yourselves and to know your own minds in both the technical and common-sense ways. That is what this university education is for.

Has it ever occurred to you how many of us are indecisive in our actions because we frequently are incapable of making up our minds? So many young men in their desire to progress, are vague nowadays in their ambitions. Remember that the road to mediocrity is paved with indecisions. Make up your minds.

You go out into a world of adventure, both cold and hot adventure. Let me again entreat you that, in your adventuring, you keep cool. A cool head always has the edge on the one which gets hot and excited.

The spirit of adventure for young engineers provides an enormous enthusiasm and interest in one's work. By adventure in this sense I do not mean recklessness or dare-deviltry; those words are not at all in the vocabulary of the engineer or architect. Rather is it that part of an active life which combines energy with useful performance in which there is a joy of working, interest and excitement if you like. Men seek adventure in this sense because sometimes life which is unsalted by strenuous joyous enterprise "has lost its savour".

I extend best wishes for your success in your new adventure.



Class History of 3T8

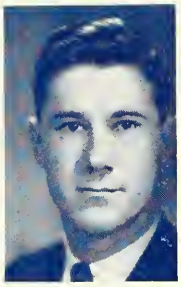
ANOTHER year passes into retrospect, and with it the Class of 3T8 ceases to be an undergraduate body of the University. But the Class of 3T8 has by no means ceased to exist; rather is it born for the first time, for it now goes forward to make its mark on the world, not expecting the world to fall at its feet but determined to go forward to carry its share of the burden.

3T8 leaves "School" one hundred and fifty strong. One hundred and fifty Schoolmen that have passed the obstacles, exams—or rather crossed the stepping stones to a fuller life, together. One hundred and fifty Schoolmen that have worked and played together during four short, happy years. Will the one hundred and fifty part and have no knowledge or interest of each other in the future? No! For the Permanent Executive exists to keep alive that knowledge and interest.

In first year, Art Kingsmill, ably assisted by Al Hewson and Bill Disher gave the Class a good start, although the two hundred and twenty-four Freshmen were decidedly green and excellent prey for the confident Sophomores. Jack Millar, George Richards and Jack Langford led the class in 1935-6. 3T8 received the Freshmen in time-honoured custom and added to its prestige and confidence by winning the push ball game. Already the class had thought of Graduation Ball and about one hundred dollars were set aside to help balance the budget of that very important event of fourth year.

Dunc Ross, Frank Wooldridge and Ron Jackson led 3T8 through that dreaded third year, when lab reports, exams and lectures lurked around every corner.

At last fourth year, and Jack Langford took over the helm with Laird Hemphill and Bill McPherson as mates. That all important function, the Grad Ball arrived and passed, iron rings appeared and the chapter closes. The class accepted its responsibilities of leading the Engineering Society to the satisfaction of all School.



WILLIAM P. ARCHER

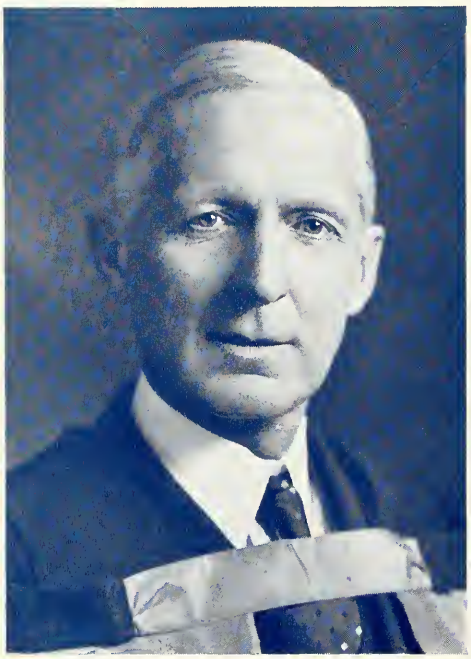
DENTISTRY

To the Graduating Class of the Faculty of Dentistry

By Dean Arnold D. Mason, D.D.S.



IT IS the pleasure of the Faculty of Dentistry to extend hearty congratulations and to wish God-speed to the graduating class. I know that you will make your presence felt wherever you locate, in the various parts of Ontario, in other provinces of Canada, and even elsewhere in the Empire. I desire the members of the class who came from Australia to realize that you are one with the Canadian students and trust that your sojourn with us has been profitable to you. Your presence has added strength to the class and given the local students an opportunity of broadening their viewpoint so that they may be a greater influence in the profession of Dentistry.

Graduation is one of the very important days in the lives of each of you. It is, therefore, a time for you to hesitate, pause, reflect and think. It is not only a passing from student life but a commencement of graduate activities. A challenge is given to you to keep abreast of the advances in Dentistry and to develop your personalities so that you may become leaders in your communities in the various duties of citizenship. My sincere hope is that your training has not only made you competent dentists but also has developed your powers of reasoning and judgment that your opinion on any problem will be appreciated by those with whom you come in contact.

In these history-making days of social change, may your outlook on life be broad and one of optimism for the future so that your reward will be happiness and contentment. May your faith in yourselves be such as to create within you a modest self-confidence. May you ever realize the sincere interest with which your Alma Mater follows your careers and may this interest be reciprocal so that your thoughts will often turn toward the University of Toronto.

WYCLIFFE COLLEGE
WYCLIFFE COLLEGE

To the Graduating Class of Wycliffe College

By the Rev. Canon R. B. McElheran, M.A., D.D.

WHATEVER else may be said about the year in which the members of this Class have graduated, no one will claim that it is a time when the world has no place for educated leaders. The fact is that if the world does not receive leadership from men and women of trained minds, the break-up of civilization will not long be deferred. The members of the Class of 1938 are, therefore, to be congratulated upon the fact that they enter upon their career at a time when every phase of life is calling insistently for the very thing that they are equipped to give. The agitation that has been going on for some years has revealed great needs. The professions have come to realize quite definitely the nature of their unfinished tasks. The criticism that has been voiced on every hand regarding national and political affairs has merely emphasized the fact that whatever progress has been achieved is only partial. Trade and industry have arrived at the point where clear thinking is necessary, and where strong leadership is required. The partial break-down of democracy, a much more serious matter than it has been understood by the casual observer to be, challenges the present generation to think and to act quickly and with decisiveness. The weakening of conviction on the part of multitudes with regard to ethical and moral standards invites, on the part of the University man, serious and faithful consideration, witness and service.

To these tremendous tasks may the Class of 1938 give diligent heed, and may they be instrumental in leading the world from chaos to Christ.

KNOX COLLEGE

To the Graduating Class of Knox College

By the Rev. Principal Thomas Eakin, M.A., Ph.D., D.D.

MOST of you have been with us six or seven years—years of preparation for the work to which you go. That preparation consisted not only in studying but in those fraternal contacts which are invaluable in moulding character as well as thought. I hope and believe that you are leaving this College thoroughly convinced that the work you undertake is one of the most fundamental and directive in which you can engage. In these confused and bewildering days when insensate selfishness seems to be the prevailing spirit, we sorely need a supreme loyalty, lives lived in the light of moral values and eternal issues. We believe and are sure that the Gospel of Christ and His Ethic can do for the world what it needs, and so in bidding you God-speed I would ask you to begin your arduous tasks in confidence and hope and faith in your mission.

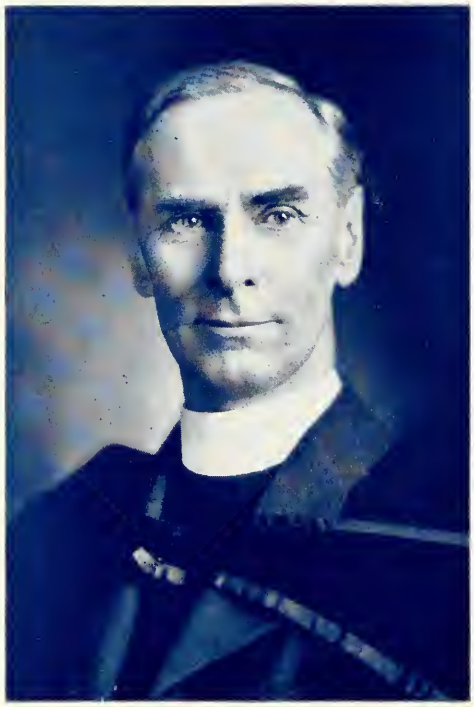
EMMANUEL COLLEGE

To the Graduating Class of Emmanuel College

By Reverend Principal R. Davidson, M.A., Ph.D., D.D.



WE let you go with a bit of testimony and a piece of advice.

First the testimony. The Christian has two pictures before him every day of his life. When he is aware of the tensions and antipathies and miseries about him he sees a Cross set in the midst. That Cross is the focal point of man's conflict and defeat; he sees all sin and sorrow gathered up there. But as he looks the picture is replaced by another; and he sees a living Christ, Victor over sin and death, Master and Lord of life, making glad with his gifts of faith and hope and love the face of the whole world.

That is our Gospel—the good news we bear to stricken men—of a God who has revealed himself in Christ Jesus, revealed a concern for us his children that will not draw back from that awful Friday, revealed a purpose so strong as to make that Easter Day a perpetual festival, the festival *par excellence* of the whole of redeemed humanity. The Church has always been and will continue to be, the Community of the Resurrection.

The prayer of your tutors in Emmanuel College is that, as we are sure you will share the fellowship of his sufferings, you may also know the power of his Resurrection.

Now the advice. Hold yourselves sternly to your books. Let your mind have a proper quantity of solid food. Read the *best* books; and be sure you get the meat out of them. Take the first hours of the day, and read five, six, or seven days a week, fifty-two weeks in the year. If you read the right books (including the Bible every day), you will learn to be happy at home with yourself, you will learn the way into other people's minds and hearts, what you say will be worth saying, and what you do will carry a conviction of integrity and purpose.

FORESTRY

To the Graduating Class of Forestry

By Dean C. D. Howe, B.A., M.S., Ph.D.

WHEN you registered last autumn for your final year the Faculty of Forestry had completed three decades of training and was entering upon its fourth decade. You constitute the thirtieth graduating class in this Faculty.

You entered when the economic situation following the depression which began in 1929 had begun to improve, and thus had opportunity for summer experience in forestry which the classes then graduating did not have. You are also fortunate in that you are graduating when the demand for foresters is satisfactory.

You join a body of alumni of which it is significant that nearly eighty-five per cent. is still in forestry or related fields. The work of earlier graduates has paved the way for you; it is hoped future graduates will owe you the same type of debt.

You leave with the best wishes of the Faculty for your success, and one trusts you leave with kindly feelings toward the University of Toronto.

JAMES BARRON

ONTARIO
VETERINARY COLLEGE

To the Graduating Class of Ontario Veterinary College

By Principal C. D. McGilvray, M.D.V., D.V.Sc.

THE time of graduation is significant in that it marks the completion of your undergraduate studies and the entrance into your professional career. In the years to come new opportunities and added responsibilities will confront you from time to time.

This is as it should be, and one must be prepared to meet these as they arise with renewed hope and perseverance. Success in all fields of professional usefulness is becoming more largely dependent on the zeal and earnestness of the individual or group seeking to serve the public interests to the fullest extent. A high standard of education and citizenship is and will continue to be required as a primary essential of those seeking public confidence. Education should not be judged by the mere technical skill of the moment, but rather by ultimate aims and achievements. In addition to technical skill a measure of liberal education is also required so that a balanced view of things may be taken and one may be enabled to give considered judgment and thoughtful pronouncements instead of unripe statements and snap verdicts. Your professional education should at least enable you to weigh facts carefully and to give them a scientific basis.

PHARMACY

To the Graduating Class of Pharmacy

By R. O. Hurst, Dean

THE time has come when you must leave our corridors. I assure you that my experience with you has been a pleasant one and I regret that our intimate association must come to an end.

During your final year of 1937 and 1938 this College reaches an important milestone. The milestone marks the termination of the active duties of Dean Emeritus C. F. Heebner and the beginning of a new incumbent in his stead. Professor Heebner has given forty-six years of faithful service to this College and the promotion of Pharmacy in Ontario. It is a term of service much longer than that which is the experience of few. It was through his effort and ability that the laboratories were designed and the general scheme of our present course was instituted. To him the pharmacists of this Province owe a great deal and you have the proud experience of receiving his last words of advice as a teacher, and a splendid teacher he was.

As one who has tried to take his place, I feel that you have given me a fine spirit of co-operation. I have instituted some changes and new duties and I feel that you reasoned that they were for our mutual good and gave you best assistance.

I very often have the desire to have a long chat with each and everyone of you, that I may know you more intimately and learn of your individual ideals and ambitions, and unless some unusual event interferes with such a plan I hope to do this, this year.

I trust you will find your future work compatible. I will look forward to meeting you in the years to come to learn that you are a success, that you have established yourself as being reliable and honourable and that you will be instrumental in promoting the best side of your profession. There is ample opportunity for studious and industrious graduates.

Class History of 3T8 Pharmacy

WE, the members of the Pharmacy Class of Thirty-Eight, feel deeply the great distinction of being the only Pharmacy class for more than fifty years which has served under two Deans.

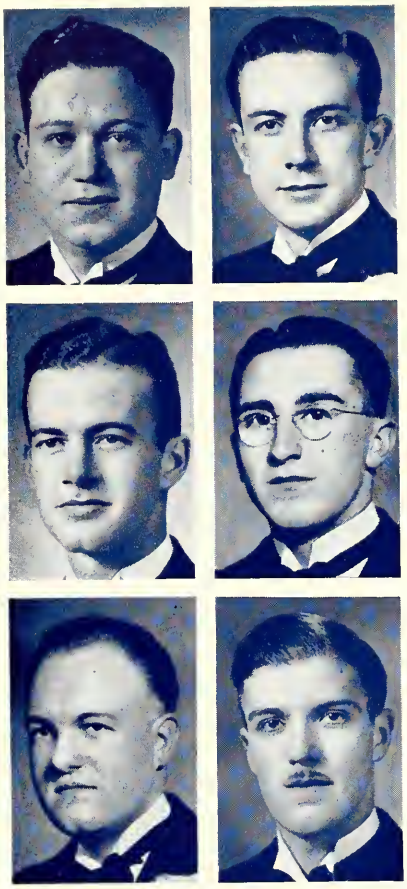
The man who guided our faltering footsteps during our first year in Toronto, and for whom we all felt such genuine affection, has retired. Dean Emeritus Charles F. Heebner who, for over forty years, guided the destiny of the Ontario College of Pharmacy, retired last June due to failing health. In his place the Council appointed that dynamo of energy, Dean R. O. Hurst.

To Dean Emeritus Heebner, our initial Dean, we owe a debt of gratitude too great for expression, gratitude inspired by the hallowed memory of his magnificent sincerity. To Dean Hurst, our graduating Dean, our gratitude is no less great. Faced with the problem of assuming gigantic responsibility in his new rôle, we feel that he has admirably fulfilled his obligations both to the Council and to the class of Thirty-Eght.

The Executives, whose pictures appear on the page, have guided our social activities not only wisely, but at times, too well! In our Junior Year we frolicked at the Royal York Hotel. This dance, provided one's memory is sufficiently clear, was a howling success. In a mid-winter bowling tournament with the Seniors we emerged victorious and expect this year to repeat our Junior Year triumphs.

We initiated the Frosh in a manner most fitting to the occasion. This initiation was terminated by our banquet tendered to them early in the Fall of our Senior Year. In October we held a Year Party at which our own school orchestra furnished the "swing". Our Graduation Dance was, as usual, our "coup de grâce" and we feel that we should be quite proud of it.

We instituted the Pharmacul Club, the main function of which is to introduce among the undergraduates new topics of discussion apart from the field of Pharmacy. Dean Hurst contributed the "Dean's senior stick", an annual award to be presented to the undergraduate adjudged by his class-mates as the most outstanding personality in sports, studies and general gentlemanly behaviour.



REUBEN ABEL

SOCIAL SCIENCE

To the Graduating Class of Social Science

By Professor A. E. Grauer, B.A., Ph.D.

YOU are graduating at a time when problems of welfare are of crucial importance. You will go into a world where masses of people have had their standards of living shattered and their morale broken. You have, therefore, a great responsibility and a great privilege. You will need qualities of judgment, sympathy and imagination. You will need courage,—courage not only to sustain yourself throughout an arduous life-work, but also to keep your spirit up when progress seems slow. In the face of what seems to you glaring need, you will run into the inertia of comfortable ignorance and short-sighted economy. To become embittered or acquiescent will be to betray your high calling. As pioneers in the field of welfare you must expect that the road will be hard and progress slow; but always remember that the standards for the future are in your hands. See that they are set high!

You will want me to record our deep appreciation of the many years of far-sighted leadership given this Department by Professor Urwick. The feeling of loss occasioned by his retirement has been softened by his happy decision to continue his teaching connection with the Department. You who have experienced his broad humanity and unique personality will join with me in hoping that many more graduating classes will have the benefit of Professor Urwick's irreplaceable qualities.

NURSING

To the Graduating Class of the School of Nursing

By Miss E. K. Russell, B.A., B.Paed.

AS the Class of 1938, you have worked through three years in which you have seen your school open up a new system of professional training. It has been possible to organize the new school and to get its courses started, but this has not been easy because, as always when new educational methods are in question, the path to progress has had to be cut, step by step, through a barrier raised by tradition and inertia and selfishness. In these early days, and under such conditions, much depends upon the students and the spirit with which they face their difficulties of every kind, big and little, reasonable and unreasonable. You—the members of this Class of 1938—have needed faith and courage and you have provided these abundantly enough to carry you along happily and successfully. In doing this, you have built strength and grace into the structure of your school; and quite certainly the period of particular difficulty will be shorter because you have turned away wrath with a "soft answer".

There is much turmoil in the professional group that you are to join, for both the hospital and the public health field are increasing their demands for service very rapidly and there is not a little confusion concerning all of this service and the preparation for it. Nevertheless, for you there is the satisfaction of knowing that your professional training has been built upon a sound foundation; in addition you have faced difficulty and discouragement with equanimity, so you are ready for the immediate future and we shall send you forth with confidence. You take with you the deepest good wishes that we can offer. May all your future days give you as much as you deserve of happiness in service.

HART HOUSE

Hart House

THE FOUNDERS' PRAYER

"The Prayer of the Founders is that Hart House, under the guidance of its Warden, may serve in the generations to come the highest interests of this University by drawing into a common fellowship the members of the several Colleges and Faculties, and by gathering into a true society the teacher and the student, the graduate and the undergraduate; further, that the members of Hart House may discover within its walls the true education that is to be found in good fellowship, in friendly disputation and debate, in the conversation of wise and earnest men, in music, pictures and the play, in the casual book, in sports and games and the mastery of the body; and lastly that just as in the days of war this House was devoted to the training in arms of the young soldier, so in the time of peace its halls may be dedicated to the task of arming youth with strength and suppleness of limb, with clarity of mind and depth of understanding, and with a spirit of true religion and high endeavour."

Hart House is so called in memory of the late Hart Massey. Begun in 1911, it was completed in 1919 and presented, fully equipped, to the University of Toronto by the Trustees of the Massey Foundation. To the Hon. Vincent Massey, Vice-Chairman of the Massey Foundation, is due the idea of Hart House, as well as the form it assumed under his personal supervision. From the autumn of 1914 until November 1918, it was used for military purposes and within its walls thousands of men were trained for service overseas. On the first anniversary of the Armistice (11th November 1919) Hart House was formally opened by His Excellency the Duke of Devonshire, who was at that time the Governor-General of Canada. Mr. Henry Sproatt and Mr. Ernest Rolph were the architects of the building which comes as near to meeting the requirements of the ideal house for student activities as any on this continent or perhaps in the world.

In its widest interpretation Hart House, which is for the use of men only and is non-residential, seeks to provide for all the activities of the undergraduate's life which lie outside the actual lecture rooms. Architecturally of great beauty and built round a quadrangle, Hart House is unique in that it houses under one roof a finely proportioned hall, common-rooms of every description, a library, debates room, music room, a small chapel together with rooms for the use of the Student Christian Movement, an art gallery, a print room and an arts and crafts room, photographic rooms, a billiard room, squash racquets courts, an indoor rifle range, senior common-rooms for both faculty and graduate members, a few bedrooms for guests, offices of the Comptroller's department, the office and private rooms of the Warden and in the athletic wing an upper and lower gymnasium both admirably equipped, separate rooms for boxing, wrestling and fencing, an indoor running track, a room for rowing practice, a large swimming pool and the offices of the Financial Secretary of the Athletic Association, the Director of Athletics and the Director of Medical Services for men students. Below the quadrangle is a fully equipped theatre with foyer, green room, dressing rooms, wardrobe and the office of the Director of the Theatre. Every male undergraduate of the University is required to be a member of Hart House towards the upkeep of which he pays an annual fee of twelve dollars. The House has no endowment and these fees are its chief source of revenue.

The gymnasia, swimming pool and locker rooms are under the control and direction of the Athletic Directorate through Mr. T. A. Reed, Financial Secretary of the Athletic Association.

The care of Hart House and its welfare have to a large extent been entrusted to the undergraduates themselves. There are a number of Standing and Special Committees, the personnel and duties of which, subject to the authority of the Board of Stewards, are as follows:

HOUSE COMMITTEE

The House Committee is the senior of the standing committees with supervision over the activities of the House and general control of the Great Hall, the kitchens and the tuck shop. The billiard room and barber shop are under its care and it is also responsible to the Board of Stewards for seeing that the structure and equipment of the House are kept in good repair. The annual elections of the committees of Hart House are also under the management of this committee.

The members of the House Committee for 1937-1938 are: Professor T. F. McIlwraith, Chairman, the Warden, Professor W. J. T. Wright, Professor T. M. C. Taylor, Mr. W. H. Bilbrough, graduate representative, the Comptroller, the Assistant Comptroller, C. K. Carrington, Ontario College of Education representative, L. G. O'Connor, Athletic Association representative, W. A. Ball, L. C. Foster, R. G. Gray, G. R. Gardiner, R. W. Kettlewell, A. G. Rankin, J. A. Renwick, H. G. Ronson, C. R. Silversides, W. R. Stringer, T. W. Sullivan and W. B. Reid, Secretary.

LIBRARY COMMITTEE

The library in Hart House is recognized as one of the most beautiful rooms in the whole building.

In accordance with the idea of the Founders, the Library Committee has for the past ten years been engaged in the building up of a collection of books such as might be found in a good private library and the room has always been a popular resort for all who like to spend their leisure hours reading the casual book.

At present there are about five thousand volumes on the shelves about half of which are fiction, while the rest are composed chiefly of biography, history, languages and general literature. Additions to the library are made at regular intervals and the activities of the committee are mainly centred around the selection of new books for purchase. This year two library evenings were held at which the speakers were Mr. W. H. Clarke of the Oxford University Press and Mr. William Arthur Deacon of "The Globe and Mail".

The Library Committee is also responsible for the selection of periodicals for use in the reading-room and in this department of the House a wide range of weekly journals may be found.

The members of the Library Committee for 1937-1938 are: Professor C. Lewis, Chairman, the Warden, Professor N. J. Endicott, Mr. D. C. Wells, graduate representative, W. B. Wood, curator, P. J. Ambrose, G. H. Bayly, W. T. Boddy, H. H. Carter, W. A .Harris, W. J. Shea, I. Sussman, H. A. Sutton, E. W. Wallace, Jr., and S. McClatchie, Secretary.

MUSIC COMMITTEE

The Sunday Evening Concerts this year were given by the following artists: Wilma Stevenson Dohler, pianist, Albert Pratz, violinist and Leo Barkin, pianist, George Lambert, baritone, and Maude Watterworth Craig, harpist, Viggo Kihl, pianist, Emmy Heim, mezzo-soprano, the Hart House String Quartet, the Hart House Glee Club and Margaret Oliver, pianist, and the Conservatory String Quartet, viols and modern instruments, and Alberto Guerrero, harpischordist.

In honour of the Hart House String Quartet on their return from an absence of a year and a half on a European tour, the Board of Stewards and the Music Committee were hosts at a tea in the Great Hall on the afternoon of their Sunday Evening Concert appearance.

The usual series of Friday Afternoon Recitals took place from October to the end of February. Songsters were again held on certain Sunday evenings during the present year in the music room and continued to be directed by J. Campbell-McInnes. A particular effort was made this year by members of the committee to interest freshmen in these informal Sunday evenings.

The Friday midday sing songs have become one of the interesting features of the musical life of the House, owing to the valued services of G. Ross Workman. On these occasions men gather after lunch in the east common-room to sing under Mr. Workman's direction.

The members of the Music Committee for 1937-1938 are: Professor M. D. C. Tait, Chairman, the Warden, Dr. A. M. Wynne, Sir Ernest Macmillan, Mr. F. R. MacKelcan, graduate representative, T. K. Cragg, R. A. Greig, W. R. Grinnell, J. C. Knewstub, M. H. M. MacKinnon, J. R. Maybee, C. G. Sanderson, N. J. M. Simpson, G. H. Southam and G. J. Millar, Secretary.

GLEE CLUB COMMITTEE

The Glee Club Committee, by authority of the Board of Stewards, became a special committee of Hart House with the beginning of the present academic year. Under the enthusiastic direction of Dr. Charles Peaker, the club had a very successful year. They assisted at the Eaton Auditorium mid-week organ recitals given by Dr. Peaker before Christmas, at the special convocation for the Hon. Cordell Hull and at the Armistice Day service. They gave a carol programme at dinner in the Great Hall just before the close of the first term, assisted at the S.C.M. carol service, and gave one of the regular Sunday Evening Concerts in the second term. Alumni Night of 18th March, at which the club were invited to sing, provided a most satisfactory close to the year's activities.

The members of the Glee Club Committee for 1937-1938 are: Professor H. R. Kemp, Chairman, the Warden, M. E. A. Ricker, graduate representative, Dr. Charles Peaker, Conductor, the Secretary of Hart House, G. J. Millar, C. B. Campbell, A. E. A. Ongley, P. J. Sandiford, L. H. Turl and E. L. Roy, Secretary.

ART COMMITTEE

The activities of the art committee include the holding of exhibitions in the gallery and the print room, the administration of the arts and crafts room, the management of art classes under an artist and the occasional purchase of pictures. The committee have this year been most energetic in arranging noon hour reviews of current exhibitions by the artists concerned. Mr. Arthur Lismer of the Art Gallery gave most interesting reviews of the exhibition of Children's Art and of the annual display of work by undergraduate members, and André Bieler and Dr. Gordon Pearson spoke on their own pictures. Concerning new pictures the graduating year of 1937 presented "Draped Head" by Jack Humphrey.

The exhibitions during 1937-1938 have included the work of A. Y. Jackson and E. H. Holgate, F. S. Panabaker, Bertram Brooker, L. F. Casey, André Bieler, Dr. Gordon Pearson and Louis Muhlstock as well as an exhibition of children's work, the annual exhibition of photographs arranged by the Camera Committee, the work of undergraduate members and the work of senior members and faculty.

The art classes held in the art gallery during the winter under the direction of Mr. H. S. Palmer again proved very popular. The crafts room, now called the arts and crafts room, has this year attracted a small group of keen students who have as instructor Mr. Carl Schaefer. An exhibition of their work was held in conjunction with the exhibition of work by undergraduate members in February. The most interesting part of their year's work was a large scale mural depicting various activities in the life of the House.

The committee in exercising supervision over the pictures in their care have continued the work of cleaning and repair by the staff of the National Gallery which was begun last year.

The members of the Art Committee for 1937-1938 are: Professor H. R. MacCallum, Chairman, the Warden, Mr. R. G. Riddell, Dr. D. M. Tanner, graduate representative, D. J. Van Wyck, Keeper of the Prints, N. R. Bowles, T. C. Daly, F. J. Hinds, E. F. Hurst, C. G. Kehler, J. L. McFarland, J. R. Millar, J. A. Powell, R. A. Sim and A. H. Armstrong, Secretary.

CAMERA COMMITTEE

The Camera Committee which is a special committee of Hart House is responsible for the management of the dark rooms, the care of photographic equipment and the general encouragement of photography among the members of the House. The annual exhibition of photographic work by members of the House is arranged by this committee.

Each fall the committee makes an effort to encourage beginners in the use of club equipment and instruction classes are given by various members. This year a further effort was made to build up a collection of photographic journals for the use of club members. Each year the committee selects from its annual exhibition a few outstanding prints for a permanent collection owned by Hart House.

The members of the Camera Committee for 1937-1938 are: Professor A. F. Coventry, Chairman, the Warden, Mr. B. C. Matson, graduate representative, the Assistant Comptroller, E. S. W. Belyea, J. J. Brown, F. R. Kemp, L. M. Hampson, M. McMurray and H. J. Nott, Secretary.

SQUASH RACQUETS COMMITTEE

The Squash Racquets Committee which is a special committee of Hart House is responsible to the Board of Stewards for the general control of the squash courts and the arrangement of tournaments with outside clubs. Besides the two tournaments for members—the Inter-Faculty and the Individual—Hart House was represented in the Toronto City Squash Championship Tournament in December, the Canadian Squash Racquets Championship at Quebec in February and in the Ontario Squash Racquets Championship at Toronto. In the course of the year team matches were played at Hart House with the Buffalo Downtown Y.M.C.A., the Hamilton Squash Club, the Toronto Racquet Club, the Badminton and Racquet Club, the Carlton Club and the Thistle Club of Hamilton.

The classes for beginners and the team practices were continued this year and have resulted in more enthusiasm for the game and a higher standard of play.

The members of the Squash Racquets Committee for 1937-1938 are: Mr. A. B. Fennell, Chairman, the Warden, W. S. Noyes, graduate representative, G. B. Donaldson, J. F. Moeser, C. J. Seagram, A. A. Steiner and J. A. Mullin, Secretary.

DEBATES COMMITTEE

On 31st January, 1924, the first debate ever held in Hart House took place. This debate was on the open parliamentary system, special Rules of Procedure being drawn up by the committee. The debates room in Hart House was arranged as far as possible similar to the Provincial or Federal House. After the four speakers "on the paper" had finished their speeches the debate was open to any member who having caught the Speaker's eye might then rise and address the House. At 10.30 p.m. the House divided on the motion. The aim of Hart House debates is to encourage real debating in contrast to the competitive system by which speeches are carefully prepared for weeks beforehand and also to encourage among undergraduates an interest in public affairs.

Resolutions discussed during the past year were "That the rearmament of Great Britain is a contribution to peace", "That the expansion of Japanese foreign trade is the best hope for peace in the Far East", "That the study of science tends to narrow the mind", "That Canada is the final manifestation of a decadent civilization" and "That this House would rather fight for Eden than go fascist with Chamberlain".

Among visitors who have spoken "on the paper" or from the floor of the House are the Hon. E. C. Drury, G. S. Ewart, K.C., the Rt. Hon. W. L. Mackenzie King, the Hon. J. W. Nickle, K.C., the Hon. Hugh Guthrie, the Hon. Manning Doherty, the Hon. G. Howard Ferguson, Miss Agnes Macphail, M.P., E. J. Garland, M.P., the Hon. G. S. Henry, the Hon. Ernest Lapointe, J. S. Woodsworth, M.P., the Rt. Hon. R. B. Bennett, the Hon. H. H. Stevens, Professor Stephen Leacock and the Hon. Major C. G. Power.

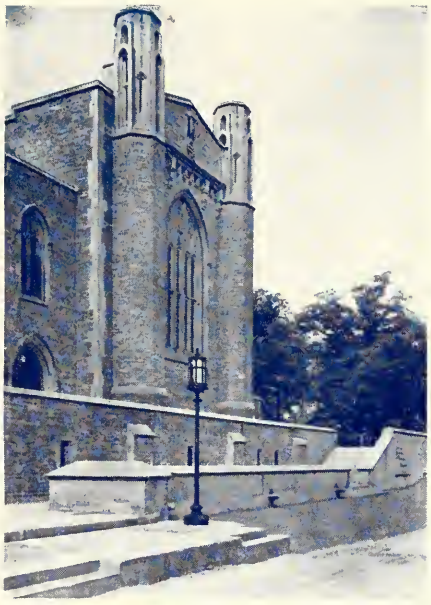
The members of the Debates Committee for 1937-1938 are: Professor C. A. Ashley, Chairman, the Warden, Professor A. F. W. Plumptre, Mr. G. A. McGillivray and Mr. J. L. Stewart, graduate representatives, A. R. Hicks, P. S. Millar, W. C. D. Pacey, A. Rose, J. A. Seed, W. C. Smith, G. W. W. Stoddart and A. A. Shaberman, Secretary.

GRADUATE COMMITTEE

The Graduate Committee which is a Special Committee of Hart House is responsible for the activities of the senior members. Dinners held at certain intervals throughout the year and the Graduates Ball which takes place on New Year's Eve are organized by this committee. It has a general supervision over the graduate athletic activities as well as the graduate dining-room and sitting-room. The committee is elected at the annual meeting of senior members of Hart House in March of each year.

The Graduate Committee this year has been active in extending exercise and swimming classes for senior members, in expanding the activities of the Revolver Club and in keeping the billiard room and tuck shop open on Monday evenings for the convenience of members. The thirteenth annual Graduates Ball held on New Year's Eve was particularly noteworthy by reason of the main gymnasium decorations which had been designed and executed by a group of senior members under the direction of Gordon Webber. The Graduate Committee was also asked by the Alumni Federation to assist in the arrangements for the Alumni Night held on Friday 18th March in Hart House.

The members of the Graduate Committee for 1937-1938 are: Mr. A. B. Ward, Chairman, the Warden, A. M. Bell, A. E. S. Bolton, Dr. H. J. Bright, C. A. Farewell, J. L. Grogan, R. H. Hillery, J. A. McLaren, C. H. Vinnels, the Comptroller, the Assistant Secretary and C. R. Delafield, Secretary.



BOARD OF STEWARDS

The Board of Stewards is the governing body of Hart House and is so constituted as to include among its numbers the secretaries of the six Standing Committees and representatives of the chief organizations in Hart House. Subject to the superior authority of the Board of Governors of the University the direction, management and administration of Hart House, including matters of discipline, are entrusted to the Board of Stewards. The Board is assisted by a Finance Committee which makes recommendations with regard to financial matters. The general supervision of the whole House is entrusted to the Warden who is appointed by the Board of Governors of the University and is ex-officio chairman of the Board of Stewards. He is assisted by the Comptroller of Hart House, J. R. Gilley, S.P.S. '21; the Assistant Comptroller, W. R. Cowan, S.P.S. '24, the Secretary of Hart House, C. R. Delafield, U.C. '30, and the Assistant Secretary, D. L. Emond.

The members of the Board of Stewards for 1937-1938 are: the Warden, Chairman ex-officio, the Rev. Dr. H. J. Cody, the Hon. Vincent Massey, representative of the Board of Governors, Professor H. Wasteneys and Professor K. B. Jackson, representatives of the President, Mr. T. A. Reed, Financial Secretary of the Athletic Association, A. G. Burns, Faculty Union, A. B. Ward, Graduate Committee, W. C. Smith, Student Christian Movement, H. B. Shipman , Athletic Directorate, G. E. Abraham, Students' Administrative Council, W. B. Reid, House Committee, S. McClatchie, Library Committee, G. J. Millar, Music Committee, A. H. Armstrong, Art Committee, A. A. Shaberman, Debates Committee, and J. R. Gilley the Comptroller, Secretary.

THE STUDENT CHRISTIAN MOVEMENT

The religious life of Hart House is under the guidance of the men's Secretary of the Student Christian Movement, the Rev. Dr. W. C. Lockhart, who has his offices in Hart House. The Chapel is always open for private prayer and meditation and there are weekly services during term and a monthly celebration of Holy Communion.

A series of addresses are arranged in the music room after lunch and this year the speakers were Shoran Singha of India, Woo Da Ling, Dr. Stanley Russell, the Rev. T. W. Isherwood, the Rev. Earl Lautenslager, the Rev. J. D. Parks, the Rev. Lyndon Smith, Archdeacon Fotheringham, Dean Riley, Dr. J. R. P. Sclater, Professor G. Wilson Knight, Dr. Gordon Sisco, Dr. Richard Roberts, the Rev. Gerald Cragg, the Rev. E. J. McCorkell and the Rev. Crossley Hunter. Under the auspices of the S.C.M. a number of visitors have given addresses in the university including Max Yergan, Dr. T. Z. Koo and Mlle. Suzanne de Dietrich.

The Students' Administrative Council

THE work of the Students' Administrative Council for the past year has progressed smoothly and all Committees have functioned in a most satisfactory way. Dr. Frank McInnis was re-elected as the President and the Council greatly benefitted by his experience and tact as well as the valuable advice of Professors Cockburn and Chant who once more acted as the Staff representatives. Mr. A. G. Rankin and Miss Frances Evans proved most capable as Vice-Presidents with Mr. Rankin acting as N.F.C.U.S. representative.

Matter in connection with the various publications of the Council was dealt with efficiently by the Committee under the Commissioner, Mr. W. R. Grinnell. The Finance Committee, under its Commissioner, Mr. G. F. Beard, had a most satisfactory year in spite of some increased costs and several unexpected grants such as that of $150 given to the Committee organizing the Winnipeg Conference of Canadian University Students. The Debates Committee, under Mr. E. W. Wallace, Jr., sponsored several interesting debates as well as sending a representative on the N. F. C. U. S. team to Great Britain. The work of the Committee on Sporting Activities under its Commismissioner, Mr. E. B. Tovee, has been greatly increased this year, due to the introduction of the new and most successful Athletic Privileges fee and the various problems which it raised. The appointment of a marshal to supervise admission to games, installation of a Public Address System at the Stadium, half-time skits, cheerleading, out-of-town trips, etc., were all worked out in co-operation with the Athletic Association, as well as the necessary discipline in connection with misuse of the privileges provided by the fee. A complete set of new and effective uniforms was also designed and purchased for the Band.

The Council members were the guests of Dr. and Mrs. Cody at a delightful dinner at the U.C. Women's Union in October and themselves acted as hosts at a dinner in the Royal York Hotel in honour of the masthead of *The Varsity* as well as at teas for the visiting Australian and Laval debaters, the Finnish Chorus from Helsinki University and the N.F.C.U.S. Exchange students at Toronto. For the first time a University of Toronto Hospitality Committee was appointed this year to entertain visitors to the campus. On the invitation of the President, the Council as a body attended the Remembrance Day Service at the Memorial Tower along with the College Heads, Deans and members of the Board of Governors.

The Council financed and sponsored the University of Toronto Symphony Orchestra in its most successful concert, and assisted the University Drama Committee with a loan. Half the cost of publishing the University Directory was again born by the Council and it is expected that the two Convocation Garden Parties, which last year were financed and arranged entirely by the Council, will again be held.

The various services maintained by the Council in the interest of the student body seem to increase in scope each year. A further amount of $1,000 was added to the Undergraduates' Loan Fund, to bring it up to $8,500. Repayments and the additional grant made it possible to loan approximately $3,500 again this year. The Rooming service for men was again maintained and the Book Exchange for women, both of which proved of much assistance to the students. The Employment Bureau continues to grow and both part-time, summer and permanent positions have been found for a large number of students. In addition to these specific services, the Council offices served as a clearing house for innumerable other activities and an effort has been made to assist in all worthwhile undergraduate activities which are not otherwise provided for.

The Debates Committee

DURING the last few years the cause of debating has been advanced more and more at the University of Toronto. Hart House, College and Faculty debates have all combined to make the life of an orator a very busy one indeed. The Debates Committee of the Students' Administrative Council has sought in the past to sponsor intercollegiate and international debates on vital topics. This year's activities of the Debates Committee have resulted in three notable events.

On Friday, November 19, Mr. R. W. Wilmott arrived in Toronto as a representative from Melbourne University, Australia. Unfortunately his team-mate, Mr. Benjamin, was prevented by a serious illness from visiting Toronto until December. From November 19-24, the Students' Administrative Council was the host of Mr. Wilmott, giving a tea on Sunday in his honour, and arranging for him to meet as many different student groups as possible. On Wednesday evening a special Hart House debate was held, preceded by a dinner. Mr. Wilmott very successfully acted as an ambassador of good will from Australia to the University of Toronto.

An event of great interest and importance took place on Thursday, January 27, when two debaters from Laval University, Quebec, debated in Trinity College under the auspices of the Students' Administrative Council and the Osgoode Hall Legal and Literary Society. The presence of M. Jean Fournier and M. Raymond Lesage marked the first time that debaters from that venerable French Canadian University had taken part in a debate at the University of Toronto. On Saturday the S.A.C. gave a tea in honour of the debaters, from Laval, Osgoode Hall, and the University of Toronto. It is to be hoped that that visit will result in closer relations between these two great Canadian universities.

In co-operation with the Debates Committee of Hart House, the Students' Administrative Council sent Mr. A. A. Shaberman and Mr. D. J. Proctor to participate in a debate at McGill University on Thursday, March 3. Their reception was most cordial and the debate of real interest. Such exchanges between the universities of Canada are invaluable in drawing them closer together.

In conclusion, we would like to express our sincere thanks to Hart House for its kind reception of the various debaters who have visited the University, as guests of the House.

THE UNIVERSITY SYMPHONY ORCHESTRA

The University Symphony Orchestra

THE UNIVERSITY SYMPHONY ORCHESTRA entered the second phase of its existence this year, when the conductorship passed from Jack Weinzweig to Brock McElheran. Weinzweig was the founder of the orchestra, and guided its activities during its first three seasons.

The organization showed a very gratifying development in the course of the year, and was able to play perhaps the most ambitious program it has yet attempted, featuring the Eighth Symphony of Beethoven, the overture to *La Gazza Ladra* by Rossini, and several shorter works by Brahms, Mozart, Delibes and Johann Strauss.

For the first time in its history, the orchestra played a composition by one of its own members—*Valse Triste*, by E. D. Stuart, first horn, who conducted his own work.

An audience of almost one thousand attended the concert, which is tangible proof that there is a constantly increasing interest in the orchestra among the students.

The University Symphony Orchestra is sponsored by the Students Administrative Council, and owes much of its success to the constant personal encouragement of Mr. E. A. Macdonald, Secretary-Treasurer of the Council. The orchestra is grateful also to the Women's Union, for allowing us the use of the theatre for rehearsals, and to *The Varsity* for the support given in its columns.

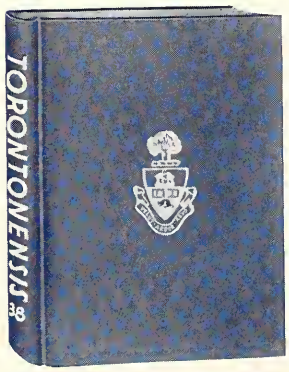
Torontonensis

LIKE all other editors, the Editor of this year's *Torontonensis* has made it his foremost aim to profit from experience. It is, as a consequence, not as a mere coincidence that the editorial policy he pursued has been to consolidate and continue, rather than controvert, the changes in style and general design introduced by his predecessor.



This year the Faculty and College Representatives in addition to seeing that all the material reached the Editor on time,—itself no mean achievement—undertook to edit all biographies and write all copy where necessary. This action on the part of the Representatives was typical of their spirit of willing—and gracious—co-operation. It is their work which, extending over a period of six months, constitutes the heart of *Torontonensis*.

The Board of Editors evinced a similar spirit. Their devotion to, and their efficient discharge of, the duties they had assumed, their over-generous sacrifice of time, their readiness to help in any way — particularly in proof-reading — however far it might technically be from their own particular department of activity on the book, were responsible for making those mad March days at all endurable. The photographic art work—all the title pages (save that for Seniors), and most of Campus Life has been brilliantly executed by Mr. F. Roy Kemp, Photographic Editor, who this year terminates his long association with *Torontonensis,* leaving a vacancy difficult adequately to fill. To Mr. E. A. Macdonald, Business Manager, and perennial support to *Torontonensis* Editors, it is impossible for this year's Editor to express fully his deep sense of gratitude for his sympathetic assistance and experienced editorial advice.

It is patent that a volume wrought by the co-operation of many may fail to attain the sculptured form, the final unity of an individual's creating; but, however, only by the co-operative method that the production of such a work as *Torontonensis* is made possible. In the final analysis this merit must—and will—outweigh all the system's defects.

The Varsity

THE aim of *The Varsity* this year has been to be progressive, yet not radical; readable, but not sensational. The paper has endeavoured to serve the best interests of the students, and provide adequate news coverage of all student activities. It has suggested reforms, but has been sincere in a desire to offend no person unnecessarily. In the broader field of politics, both national and international, a programme of peace and social justice has been advocated.

As in the previous two years, there have been no disputes between the paper and the Students' Administrative Council, or with the students at large. The work of the reporters on the paper is heavy, and the editors give them whatever credit there may be for this year.

The firm establishment of the Canadian University Press this year has enabled the paper to publish more news from other Canadian colleges, and has led to better understanding between the universities. It is yet in the experimental stage, but its founders hope it is to become, soon, a leading factor in creating a greater university-consciousness among students and graduates.

THE UNIVERSITY OF TORONTO BAND

The University of Toronto Band

DESPITE a late start due to the delayed registration, the University of Toronto Band has completed another successful season. Under the expert guidance of Captain John Slatter, Canada's senior bandmaster, the Band has taken second place to none in the Intercollegiate circuit.

This year marked the arrival of the long-desired new uniforms, supplied through the kindness of the Students' Administrative Council. The appearance of the Band drew many favourable comments both at home and away.

The Band was present at all Varsity rugby games at home and abroad, as well as attending two hockey games at the Arena.

The officers for the past year were:
Bandmaster—Captain Slatter.
Drum-Major—Bernie Laski.
President—Clifford Parks.
Secretary—Jack Richmond.

The success of the Band is in no small measure due to the unceasing support of the Students' Administrative Council, which has always evidenced a keen interest in the affairs of this organization.

The year's activities were brought to a fitting conclusion by the Annual Dinner held in Hart House during March.

While many Band members will be lost next year, due to graduation, a sufficient number of experienced men will be on hand in September to assure a Band worthy of the reputation held by its predecessors, and of receiving a place in the thirty-second chapter of Captain Slatter's reminiscences.

The Flying Club

THE Flying Club was organized this year by a group of students who believed that there should be an organization on the campus which would encourage the undergraduate to fly. The immediate response put our first year membership at 156, which illustrated that a Flying Club would be a popular extra-curricular activity.

The primary aim of the Flying Club is to encourage the undergraduate to fly. Behind this is the desire to establish intercollegiate competition and eventually to compete in air meets with the National Intercollegiate Flying Club in the U.S.A.

Regular evening meetings are held, at which guest speakers talk on various aspects of aviation. To date we have had the pleasure of hearing from Professor Loudon and Mr. Ken MacTaggart, and also have viewed moving pictures of recent transatlantic crossings. Another Club activity is the ground course under the direction of Professor Loudon, at which the members are learning the principles of theory of flight, air regulations, navigation.

Negotiations are being carried on for flying instruction, and it is expected that arrangements will be made which will be suitable to the undergraduate pocket-book. Our ambition, of course, is to own a light aeroplane on which students may put in flying time at a minimum of cost.

We hope that steady expansion will follow this very gratifying beginning, and that the Flying Club will take its place among the important University organizations.

The Commerce Club

THE year 1938 saw another triumphant page written in the history of the Commerce Club as the largest voluntary organization on the campus concluded its seventeenth year of activity.

The club was formed for the purpose of welding together students in Commerce and Finance and to give them the opportunity of discussing current problems with a view to supplementing the theoretical work of the classroom with a more practical knowledge of present-day business conditions.

Several prominent business men addressed the club at a series of smokers which were held during the year in the Music Room in Hart House.

The Annual At-Home was held in the Alexandra Room in the King Edward Hotel and proved as gay a social event as ever.

Mr. G. B. Donaldson was successful in winning the Crocombe Trophy, emblematic of the squash championship of the club. As in former years the club was well represented on the various athletic teams in the University.

The highlight of the year was the annual banquet which was addressed by the Hon. T. L. Ilsley, Minister of National Revenue. Over two hundred undergraduates, graduates, faculty members and guests were in attendance.

The University of Toronto Chemical Club

THE University Chemical Club first saw the light of day with the opening of the *NEW* Chemical Building in 1895. For some years the membership was confined to graduates, but in 1919 the Club was thrown open to undergraduates as well. Since that time its management has passed entirely into their hands.

The major part of the annual programme consists of a series of trips through various chemical plants, with an eye to studying industrial methods and opportunities. This year the brewing, cyanamid, paper and soap industries were investigated. In addition to this, interesting lectures were heard from such distinguished scientists as Dr. Westman of the Ontario Research Foundation, Dr. McLaughlin of the Department of Chemical Engineering, and Dr. Ellworthy of the Canadian Institute of Chemistry.

The club's activities for the year are always concluded with a large banquet, which is consistently well attended by graduates. The dinner is followed by the presentation of an original sketch, written and produced by the undergraduates. This year it took the form of a humorous exposition of the crying need for a really new Chemical Building, but was replete with the usual libels on the permanent staff.

The Mathematics and Physics Society

THE Society again enjoyed this year a program of varied activity. Outside speakers, as well as members of the staff in M. and P., addressed the bi-weekly meetings held in the McLennan Laboratory. Among these were: Dean Althouse, of O.C.E.; Dr. J. N. Goodier, of the Ontario Research Foundation, and Professor Coventry of the Biology Department. The practice, revived a year ago, of inviting an undergraduate to speak at each meeting, was continued this year. Some eight members of the junior and senior years presented papers.

Two very enjoyable dances were held during the course of the term, in conjunction with the Honour Science Club. They took place at the King Edward Hotel on December 10th and on February 25th; both were very well attended.

During December and January a "Problem and Essay" Contest was sponsored by the Society. Features of this year's contest were the establishment of two divisions, an increased prize list and the basing of awards primarily on the *quality* of the solutions entered. Great satisfaction was expressed with the large selection of problems made available through the kindness of Dean Beatty, Dr. Synge and our Honorary President.

During the fall term a Committee, appointed by the President, investigated the conditions of the course and recommended possible improvements. The findings of the Committee were discussed at a later meeting.

Thursday, January 27th, marked the fifty-sixth anniversary of the founding of the Society. Greetings were received from the first president, Professor Emeritus W. J. Loudon of the year 8T1, who regretted his inability to address the meeting.

The English and History Club

THE English and History Club is made up primarily of those students for whom English and History are major subjects, although its membership is open to all those who are interested. The club meets once a month and usually a professor delivers a paper or an address on a literary or historical subject, after which the members informally discuss the topic. Academic dullness is avoided as far as possible and refreshments are served at the conclusion of the meeting.

This year the meetings began with a tea at the Women's Union when a number of new members were welcomed and representatives of the various colleges elected. During the term, the club has been very fortunate in securing for its meetings such outstanding and interesting speakers as Mr. Morley Callaghan, Mr. Northrup Frye, Mr. Wilson Knight, Dr. E. J. Pratt, Mr. W. C. D. Pacey and Dr. R. Preston. To complete the year, a banquet and dance was held in March and the executive for the forthcoming year was elected.

The German Club

DURING the course of the year the German Club endeavours to offer its undergraduate and graduate members a taste of everything German—except German beer. In addition to special features at each of the six meetings held at various colleges on the campus, the singing of German songs and the partaking of German refreshments, with the above-noted exception, form regular parts of each programme.

An exceedingly interesting address on "Modern Germany", by Professor J. A. Surerus, Honorary President of the club, marked the opening meeting of this year. The program for the following meeting, in November, consisted of a description, in German, of "The New German Education," by Karl Weitkamp, the current Davis exchange student, and a delightful piano recital by Mr. Albert Fuchs. The December meeting took the form of a *Faschingabend,* a type of German masquerade, at which the music was provided by a native German orchestra. A demonstration of the *Rheinländertanz* was a feature of the evening, which saw also the introduction of the *Schnitzelbank,* a famous German folk song.

A musical programme under the direction of the eminent pianist, Dr. Balogh, constituted the January meeting, while in February Madame Emmy Heim, famous Viennese singer, offered a charming group of German and French folk songs. The final gathering of the year took place in March with the presentation of *Einer Muss Heiraten,* as directed by Prof. Surerus. An additional feature of this meeting was an informal talk by Father Florian, a Czechoslovakian priest, who has travelled widely.

ITALIAN-SPANISH CLUB

Second Row: Thomas N. Persico, *Business Manager;* Jiulio Molinaro, *Secretary;* Victor de Bonis, *Treasurer.*
First Row: Gladys D. Ashdown, *Vice-President*; J. Q. Fischette, *President;* A. Macri, *First Year Representative.*

The Italian-Spanish Club

THE ITALIAN-SPANISH CLUB has, since its formation, made great strides toward a better understanding and appreciation of the cultures of Spain, Italy and Latin America. The meetings, which have always had this great objective in view have this year been very successful and encouraging. Among the speakers who assisted were, the Italian Vice-Consul, Don Guido Colonna of the Princes of Paliano, whose family history can truly be said to be the history of Italy, and who spoke on "Sport in Italy", J. H. Parker, lecturer of the Department of Italian and Spanish of University College, whose talk "On Mexico" was very enlightening, and Prof. Surerus of Victoria College, who gave an illustrated lecture on his trip through Italy. The meetings are held at the Women's Union, 79 St. George Street, and include musical entertainment and refreshments.

The members of the Italian-Spanish Club include many prominent people from the Italian and Spanish-speaking colonies of Toronto.

To the members of the staff who have cooperated with the club, are due the sincere thanks of the executive and members.

WOMEN'S DEBATING UNION

Second Row: MARGARET CONLIN, *St. Michael's Junior Representative*; MIRIAM ANGLIN, *Treasurer, St. Michael's;* ELIZABETH BLAIR, *St. Hilda's Junior Representative;* MARGARET HESS, *University College Junior Representative.*
First Row: JESSIE JOHNSTONE, *Vice-President, Victoria;* MARGARET LARGE, *President, St. Hilda's;* EDITH LEHTO, *Secretary, University College.*
Absent: MISS IRENE BISS, *Honorary President and Coach;* AMY SCHAUFFLER, *Victoria Junior Representative.*

The Women's Debating Union

THE Women's Debating Union is comprised of representatives from the four colleges of the University of Toronto, and it is connected with the women's debating unions of Queen's, McMaster, and McGill Universities. Throughout this year the four University debating unions have kept in close touch with one another.

Their efforts culminate each year in the Intercollegiate Debate. This year it was held between the three Ontario Universities mentioned above, and resulted in a victory at home against Queen's, but in a loss for the Varsity team at McMaster.

During the year interfaculty debates are held on moot questions concerning current political issues, problems of interest to women, and university matters.

The Debating Union gives all university women the opportunity of expressing themselves clearly on subjects of primary concern to them by means of practical training in debate.

EXECUTIVE OF THE TEACHERS' COURSE ASSOCIATION

Second Row: H. H. MONKMAN, *Editor;* I. E. DAVEY, *Secretary-Treasurer;* G. J. BARRETT, *Assistant Secretary.*
First Row: J. E. LAUGHLIN, B.A., B.PAED., *Graduate Representative;* B. DICK, B.A., *President;* W. J. DUNLOP, B.A., B.PAED., *Director of University Extension;* F. A. SMITH, M.A., PH.D., *Staff Representative;* R. E. SMITH. B.A., *Past-President.*
Absent: R. H. CHAMPION, *Vice-President.*

The Teachers' Course Association

DURING the year social activities were organized by the Association for two sessions—the Summer Session, attended by approximately five hundred students, and the Winter Session in which there were nearly seven hundred.

Summer Session students enjoyed the reception at Whitney Hall, the dance at Hart House, the boat trip to Port Dalhousie, the summer dance at the Boulevard Club, the golf tournament, and the tennis tournament. Tennis was played every afternoon.

The Winter Session students were entertained at the reception and dance at the College of Education, the Ladies' Tea, the skating party at the Varsity Rink, and the dance at the Ontario College of Education, the men's stag night at the Duke of York School, and the dinner dance at the King Edward Hotel. Many of the students played badminton every Monday evening at the Duke of York School.

The Teachers Course Scholarship Awards were granted to Mr. G. A. Anderson of Toronto, and to Mr. A. D. Brain of Ottawa for outstanding ability in Third Year History.

PHYSICAL EDUCATION DIPLOMA ASSOCIATION

Second Row: Sarah Merrick, Ruth Thomas, Margaret Aitken.
First Row: Molly Moore, *First Year Representative;* Gladys Wagg, *President;* Miss I. Coventry, *Honorary President;* Yvonne Ford, *Secretary;* Eleanor Heatherington, *Treasurer.*

The Physical Education Diploma Association

PHYSICAL Education Diploma students only are eligible for membership in this association, and the enthusiasm and interest in its activities is noteworthy as they are all carrying a heavy course consisting, in the first three years, of a complete Pass Arts as well as from six to ten hours a week of Physical Education theory and practice, while the fourth year have Physical Education practice and subjects relating to Physical Education amounting to an average of twenty-five hours a week.

The Association organizes the various social activities for the course throughout the year, the first taking the form of a banquet to welcome the Freshies. A supper party was held in November, after which Miss Marie Lauder, a graduate of the course, showed very interesting moving pictures taken on her recent trip abroad. In December the fourth year entertained members of the Staff at a tea held at 44 Hoskin, and another event of December was a Christmas Tea at the home of Miss Forster. A feature of February was the badminton tournament in which each year of the course entered a singles and a doubles team.

Last year for the first time this Association entered a swimming team in the Interfaculty meet. They made a very good showing, losing out to University College only in the relay. Beth Currey and Marg Hall of the Physical Education Diploma Team were chosen among others to represent Varsity at the Intercollegiate meet held in Hamilton.

The Annual At-Home, previously held at a private residence, was this year held at Wymilwood, owing to the increased numbers enrolled in the course. A camping holiday at the end of May concluded the activities of the Association for the year.

Absent: Thelma Thompson, *Associate-President, University College;* Marie McDougall, *United Church Training School.*

The Student Christian Movement

THE STUDENT CHRISTIAN MOVEMENT is a fellowship of students who believe that unity in individual personality and community in human relationships is only possible through allegiance to Jesus Christ. They believe that He is the supreme revelation of God and hence the means to the full realization of life.

The Movement in the University of Toronto is part of the Student Christian Movement of Canada and also of the World's Student Christian Federation, an international fellowship of Christian students, which has its headquarters in Geneva.

In the University of Toronto the Student Christian Movement seeks to include in its fellowship the students of all colleges and faculties who are concerned to face the fundamental problems of life and to know the relevancy of Jesus Christ to their lives and to their world. This involves a programme of study groups, lectures, seminars, conferences, worship services and other gatherings which are planned and directed by a student executive greatly aided by two full-time secretaries.

Notable features of this year's programme have been the two series of noon-hour addresses, one in Hart House on the subject "Christianity Faces a New World" and in the Women's Union, "Women in a Changing World".

The Student Volunteer Movement Union and the Theological College Union, both of which have carried on an active programme during the year, are an integral part of the S.C.M.

The Movement has also played an active part this year in the promotion of the Chinese Student Relief drive and the National Conference of Canadian University Students at Winnipeg.

THE VARSITY CHRISTIAN FELLOWSHIP

Second Row: D. C. Hunt, *Publicity;* H. F. Newman, *General Secretary;* C. A. M. Edwards, *Secretary.*
First Row: Miss G. E. Julien, *Music;* Miss M. M. Becker, *Vice-President;* S. E. Smith, *President;* Miss H. M. Doey, *Missionary Secretary;* R. H. Williams, *Treasurer.*

The Varsity Christian Fellowship

THE Varsity Christian Fellowship is a branch of the Inter-Varsity Christian Fellowship which originated in the Universities of Great Britain in 1877. The organization now embraces groups of Christian students throughout the world. Closely affiliated with the I.V.C.F. in Canada is the Inter-School Christian Fellowship with branches in many of the secondary schools.

The Fellowship is founded on the conviction that personal relationship with God is realized only through faith in Jesus Christ, His Son. Its aim is to deepen and strengthen the spiritual lives of its members and to seek to lead others to a personal faith in Him, that they may share the life abundant which He gives to those who commit their lives entirely into His hands.

The activities of the group fall into two divisions. The study groups, dealing with important phases of Christianity, are designed to establish Christians in the faith. The Open Meetings aim to interest those who have not as yet identified themselves with Jesus Christ. Prayer Meetings are held daily from 1.40 to 2 p.m. in Room 38, University College and Jackson Hall, Victoria College.

Many students are finding that the program of the Fellowship fills a need in their lives, and we trust that in the coming years God may be pleased to increase further its effectiveness for Him.

East House

EVERY year brings East House a new record of activity and achievement, and it is no easy task to bring its history up to date. Our house, as always, has an amazingly cosmopolitan population this year with members from as far west as British Columbia and some even from the sister dominion of Australia, and although all these men have a wide range of interests yet we are firmly knit together by the friendly spirit of East House. It is this solidarity that has built for us a tradition that will go on long after this solid old red pile has fallen victim to the ravages of time, and it is this same feeling that has enabled us to maintain our usual high standard in every one of our activities. Even our freshmen became conscious of the fighting East House spirit and went out and won the Bed Race Cup for us bringing it back to its rightful place on the East House mantel along with the Athletic Shield. The interhouse athletic teams fought gallantly, and as usual, every man was a star. Our social activities have been more successful than ever—particularly the Residence At-Home. We have had a good year, and much of the credit goes to our genial and understanding Housemaster. But the success of this year creates no new standard for us; it only maintains a great tradition that is as old as East House itself!

North House

WELCOMED once more by our sympathetic and understanding Housemaster, Dr. Gilchrist, North Housemen faced 1937-38, a year which augured well for true companionship, diligent work, and clean fun, amidst a home-like atmosphere. To some the surroundings were new: to many, time-worn and beloved: to all welcome and awaited.

The characteristic initiation was carried on under the capable leadership of our genial House President, Don Burpee, assisted by the more than willing hands of the senior students—much to the enjoyment but also embarrassment of the bedraggled Frosh. The Freshmen of the House fared nobly in the traditional bed-race, and had they not been strangers to the city would have undoubtedly found College Street first.

North House is rapidly becoming a Toronto-home for students from all parts of the Dominion; this year more than ever, as we have students in the House representing all provinces except British Columbia and Prince Edward Island. The value of such an arrangement is priceless, as there is rapidly developing a keen understanding of Canadian inter-sectional problems by a gentlemanly fashion, discussion.

North House activities have been numerous and varied during the year. Our friendly inter-house athletic contests have been sportingly entered and thoroughly enjoyed. Although on the short end of many engagements we have met defeat in the typical North House manner—smiling! This year has seen keen debates within the House, on timely economic subjects; in fact, many of our "bull sessions" on Provincial-Dominion relations would put the "Rowell Royal Commission" to shame. Our Sunday evening siestas in Dr. Gilchrist's room, and the monthly house meetings have been enjoyable get-togethers. Our social functions have been well attended, capably managed, financial successes, and enjoyed by all.

South House

THE final year in South House for the members of 3T8 started auspiciously with the introduction of the Frosh to residence life under the capable handling of the Sophomores. This inaugurated a lively year in South House social life. The Residence dance and South House parties, and not least Dr. Hoskin's midnight treats, will long be remembered.

To Dr. Hoskin, indeed, we are deeply indebted for his many endeavours on our behalf.

The fine academic standing of the House set last May will doubtless be excelled this year. Moreover, the Inter-House shield lost last year to East House, bids fair to return to our mantel. Thus the House, guided by the iron hand of dictatorship under our Lilliputian Emperor, completes one of the best years in its history, despite the fact that, at times, anarchy threatened to raise its ugly head. Unfortunate are those who, from now on, will cease to pay *"for painter's time and material"*.

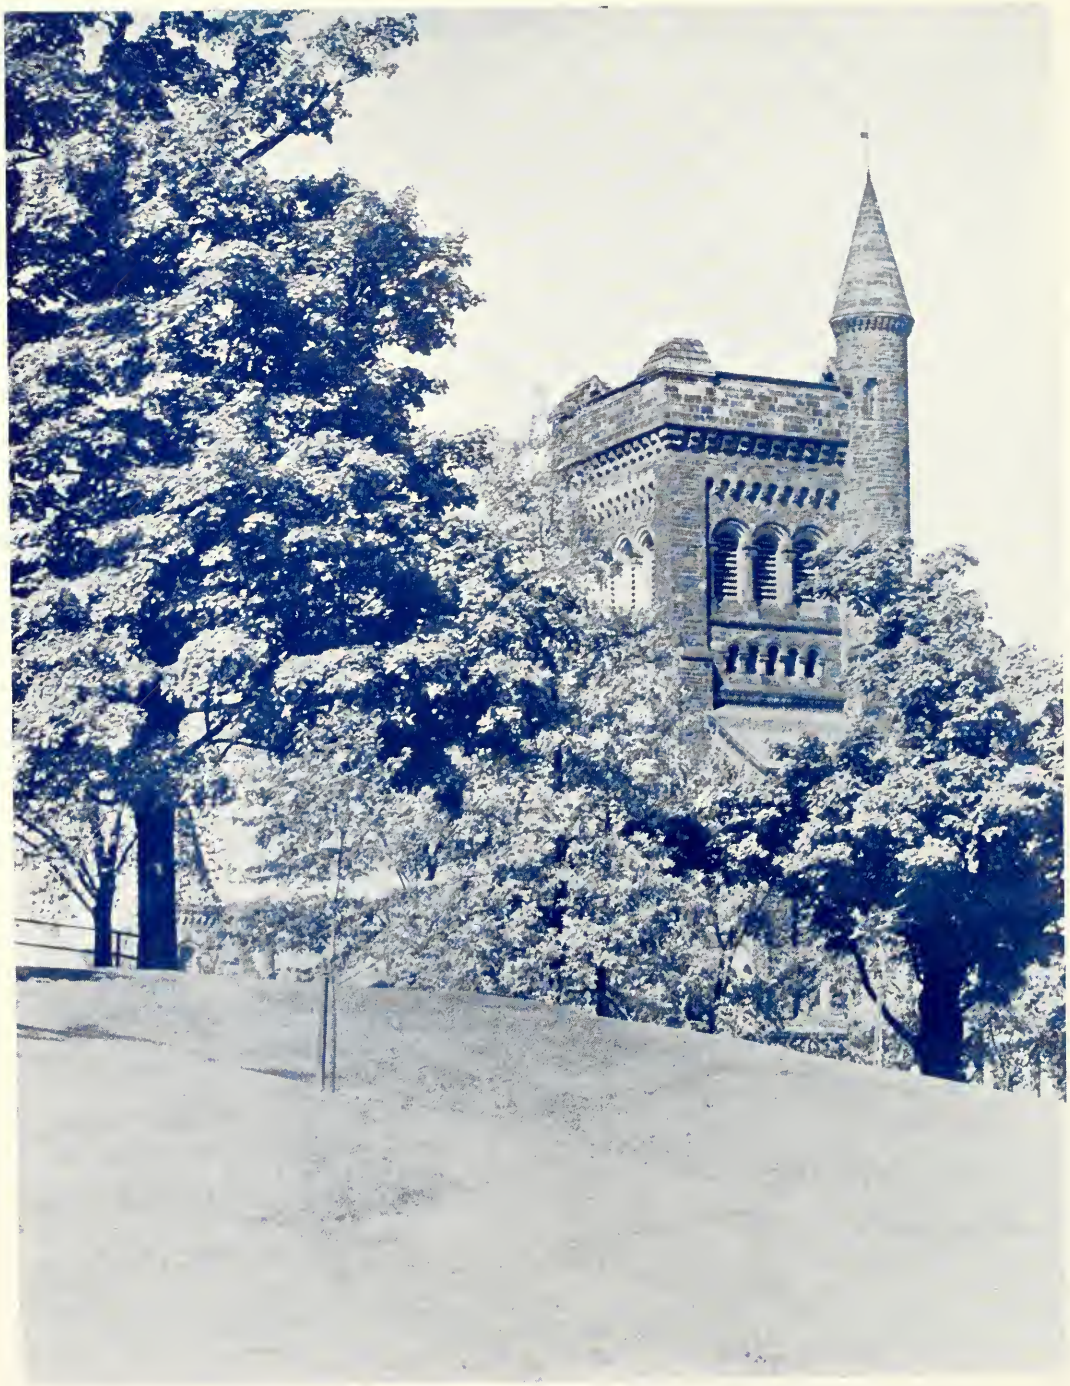
The Students' Co-operative Residence

As a result of the visit of the Japanese co-operator, Toyohiko Kagawa, to America in 1935, a group of Toronto students decided to put into practice the principles of co-operation. They established in 1936 a Co-operative Residence, with the purpose of providing the advantages of residence life at a cost no greater than boarding-house rates. The Residence has been able to give room and board at an average rate of less than $6.00 per week. Two facts account for this low rate. Each member does four hours' work a week for the Residence. And Victoria University has very kindly provided a building at cost of upkeep. If a student is particularly hard up, extra work may be arranged for him in the Residence, so that his expenses will be even less.

The purpose of the Residence is not merely the social and economic advantage of its members, but also definite adherence to the co-operative movement as a whole. It follows the Rochdale principles of consumer co-operation in its organization, which means that it is democratically controlled by its members; that its membership is unrestricted on political, social, racial or religious grounds; and that any surplus on operating expenses is refunded to members according to the amount each has paid in for services. In addition, contact with student co-operatives throughout Canada is maintained through the Canadian Student Co-operative Committee.

The Residence is an expanding institution, having shown an increase of 20% in membership in its second year. Five colleges and faculties are represented in the House. Interested students who are unable to become full members may join in the social, educational and other activities of the Residence as Associate Members.



CAMPUS LIFE

A little variation on a theme of "It's not for knowledge that we came to college."

By Roy Kemp.

Top: Hart House Choristers Rehearse. (Photo—Errol Cahoon). Special apologies to Mr. Charles Peaker, conductor *(left)* for amputation.

It was a red-letter occasion at the U.C. Lit. The gentlemen sang, Kaplansky played, and George Stoddart out-Cody-ed the President. All the ladies had to do was register appreciation.

You *can* take it with you. The annual bed-race gets under way—one of those traditions. No, that is not a Fascist salute. It is simply "Bon Soir, M'sieu photographer." (Photos—*Telegram*).

Circle: The Fall Sport, illustrating the end of a perfect pass.

What would a university be without Marx? (special attention *Globe 'n Mail*). Photo shows a student rapidly becoming a Communist. The strange part of it is that ever since Marx wrote his three fat volumes of unintelligible philosophy, intellectuals and pseudo-intellectuals have been quarrelling about what he really meant.

Top and Bottom: The class struggle goes on every year at Victoria College. The freshmen get just as red as tomatoes can make them. Anyway, they seem eager for the fray *(second from bottom)*.

Second from Top, Left: And here are some of those agitators we have been hearing about. Right outside Hart House, too! Looks like material for the Champus Cat.

What is it? It's the U.C. Follies of 1937, seen during rehearsal and during performance.

Top Right: Lou Applebaum and Perry Millar have a try at song composition. Or maybe they are only looking over the score. Anyway, it seems nice and chummy, whatever it is.

Top Left and Right Centre: The bird's-eye view was from the electrician's gallery, Hart House stage.

Pirates of Penzance. The Vic. Music Club is the only organization on the Campus that attempts anything as presumptuous as a light opera. Perhaps it's too ambitious. Anyway, it's very good fun, both for performers and audience.

Top Left: The pirate captain seems to be much in demand.

Below: Is it permissible to become lyrical about the Hart House Masquerade? Bonhomie, conviviality, and gallantry, were kings on that occasion. This was the state, this was the condition, as in Spenser's *Faerie Queene:*

Then our age was in its prime...
A very merry, dancing, drinking,
Laughing, quaffing, and unthinking
Time.

University College Literary and Athletic Society

AFTER a strenuous and exciting year, the "Lit" is still alive and flourishing. A combination of good speakers and delectable refreshments attracted large crowds to the open meetings. The two chief speakers were P. M. Richards, financial editor of *Saturday Night,* and the Hon. Leopold Macaulay, leader of the Conservative party in the provincial Legislature. Perhaps the most agreeable meeting was the festive occasion in December when the "Lit" entertained the W.U.A. with skits, refreshments, and dancing. When this gesture was returned by the W.U.A. in January, the joy of the men knew no bounds.

Under the editorship of our latest Rhodes scholar, Alan Jarvis, the *Undergraduate* bestirred itself and brought forth two remarkable issues instead of the customary one. The Parliamentary Club managed to have its constitution changed to open its membership to the ladies of the College. This feminine element helped considerably to brighten the task of the Speaker, Perry Millar.

In the realm of athletics, the College awakened from its slumbers with so much gusto that the Athletic Director found no difficulty in keeping in the best of condition. It is true to say that a new interest has been aroused in athletics, which augurs well for the "Red and White".

In the lighter things of life, the "Lit" has been equally successful. This year, the *Follies,* produced by Gibson Gray and directed by Lou Weingarten, fascinated three large audiences; and the Arts Ball was born anew in the shape of a cabaret dance in the Great Hall of Hart House. Lastly, the Junior-Senior Dance, taking place on the night of the highly successful co-educational graduation dinner, topped off the year's social activities in grand style.

Finally, it would be impossible to conclude without mentioning the great debt of gratitude that the "Lit" owes to its retiring Honorary President, Professor Underhill, for the fatherly interest he has shown in the affairs of the society.

University College Women's Undergraduate Association

THE Women's Undergraduate Association is the self-government organization of the women of University College, of which every woman registered in the College is a member. It supervises and finances the athletics, and looks after the other interests of the women of the College.

Due to the polio epidemic, the Senior-Freshman House Party for the year 1937-38 was cancelled, and a banquet for the Freshmen and Seniors was held somewhat later in the fall term. This was followed in the next week by the Freshman elections and initiation.

The usual subsidies were granted to the Players' Guild, the Debating Union, the S.C.M., and *The Undergraduate.* Further subsidies were granted to the committee in charge of the Arts Ball and to the four representatives of the W.U.A. at the Winnipeg Conference in December.

The Social Service Committee took part in the annual campaign of the Federation for Community Service, which achieved its objective. In January, Dr. Gwen Mulock again presented a series of five lectures on eugenics; but no Public-speaking Contest was held this year. The Social Programme included two highly-entertaining joint meetings held with the Literary and Athletic Society of University College. The Women's Glee Club continued under the leadership of Mr. E. S. Lewis. The Graduation Banquet, given to each Senior, was held jointly with the men on March the fourth, following the election of the 1938-39 executives for both the W.U.A. and the Men's Literary and Athletic Society; the banquet was followed by the annual University College Junior-Senior Dance.

With the election of the executive of the W.U.A. for the year 1938-39 on March the fourth, the official activities of the Association were terminated for the year.

UNIVERSITY COLLEGE PARLIAMENTARY

University College Parliamentary Club

TOLERANT, rowdy, and radical as ever, the Parliament has acted as clearing house for student opinion for a sixth glorious year, finest little debating club on the campus.

The Rt. Hon. Perry Millar brilliantly kept the peace as Speaker. Don Blackley and Armas Johnson profusely kept the minutes of the House as Clerk and Deputy-Clerk. The House learned to love its jovial Governor-General, Alex Rankin, although, as so often happens when the session is closed, some hot-heads attempted to assassinate him.

Professors Underhill, McInnis, and Plumptre began a popular innovation when they visited the House as guest debaters. Visitors from Victoria and from Osgoode Hall also matched wits with the students of U.C.

By a difficult process of constitutional amendment the co-eds of University College were made official members of the club and on many occasions proved their rhetorical worth.

Fascism, the Quebec Padlock Act, co-education at Varsity, foreign policy, divorce, provincial secession and student conferences were among the topics minutely examined and evaluated by a swift succession of liberal, popular front, more popular front and still more popular front governments. The House feels the lack of some stern reactionary opposition on which to expend its energies.

Sid. Dillick, Harold Beveridge, Harry W. Olch, Lloyd Francis, James D. Ross, Doug. Morton, Armas Johnson and A. Rose all served briefly as the Right Honourable, the Prime Minister.

With Sally Macdonald as leader of the opposition the House may start next year with a government of the ladies of U.C.

University College French Club

FIVE meetings out of six of the U.C. French Club have already been held this year. As usual, we have had a short talk by one of the professors of the French department, a play, singing, refreshments and dancing. The speakers this year have been Messieurs Assié, de Champ, Rouillard, Jeanneret, Houpert. The subjects they chose were either general or: "The Paris Exhibition" and "Fashions in France", or literary.

We have attempted this year to make the French Club rather more cultural than heretofore and have met, rather unexpectedly, with considerable success. For instance, at our December meeting Monsieur Rouillard spoke on La Fontaine, one of whose fables: "Le meunier, son fils et l'âne", was presented later in pantomime. In February, Monsieur Houpert lectured on Musset, the final scenes of whose "Un Caprice" were performed.

Our most ambitious venture, however, was a "Molière evening" when Monsieur Jeanneret was guest-speaker. The Trinity, Victoria and U.C. French Clubs all contributed in the presentation of scenes from: "Les Précieuses Ridicules", "Le Tartuffe", "Le Misanthrope", "Le Médecin Malgré Lui" and "Le Bourgeois Gentilhomme".

Besides holding monthly meetings, the French Club gave at Hart House on the 15th of February, a three-act play by René Fanchois, entitled "Prenez Garde a La Peinture". Under the direction of Monsieur Houpert and Miss Cole it achieved both an artistic and (most happily) a financial success.

The French Club is very grateful to all those who have taken part in her activities, to the students, to the professors for their unfailing interest and willingness to help us and above all to Miss M. MacDonald, our Honorary-President, to whose untiring devotion a very large measure of our success this year is due.

University College Players' Guild

ONCE more the Guild is able to look back on a very successful season's work. The weekly plays, on the whole, have maintained a very high standard both in acting and staging. The excellence of the acting arose partly from an abundance of talent in the Guild this year, and partly from more careful preparation by the individual directors. As regards staging, the Guild has continued to benefit from the improvements in technical equipment made last year, and from the skillful and faithful work of the stage crew.

The plays produced during the year have consisted almost entirely of comedy, although in many varied forms. A new departure was made when the Guild presented a series of four plays tracing the development of English sophisticated comedy. The series opened with Lyly's "Alexander and Campaspe", written in 1580, and probably not produced for the last two centuries. There followed scenes from Sheridan's "School for Scandal", and Oscar Wilde's "The Woman of No Importance", and the series was concluded with a brilliant play by Noel Coward, "Ways and Means".

Perhaps the two funniest shows of this season were a glorious farce called "Poison, Passion and Petrefaction" by G. B. Shaw and a brilliant experiment in impromptu drama, called "Burst of Glory". Both of these plays lived up to their names.

In the University Drama Festival this year the Guild entered a powerful tragedy called "Bath-Sheba of Saaremaa" by the Finnish writer, Aino Kallas. And the season was concluded by a very well acted production, on their own stage, of Emlyn Williams' "Night Must Fall".

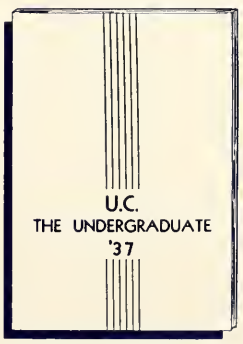
Absent: Margaret Howe, David Eisen.

The Undergraduate Magazine

IT was decided last year, in planning for the Undergraduate magazine, that the publishing of a single literary "year-book" did not adequately express the quantity or the variety of the undergraduate activity in University College. This year, therefore, the magazine has been issued once each term, the publications being only slightly smaller than the former single issue. It was decided, too, that as much should be done to encourage creative activity, on the part of all undergraduates, as possible. To this end the *Undergraduate* has offered a series of cash prizes for literary and art-work, a substantial part of which money has been subscribed by interested members of the Staff of the College. The work of the editors has also been greatly simplified this year in having a large room given to the magazine by the College for use as an office.

The response to the reorganized *Undergraduate* has been most gratifying and has convinced the staff of the magazine that there is room in University College for a purely literary publication and that there is enough fine work being done in the College to warrant publishing at least two, and possibly more, issues in future years.



The financial support of the Literary and Athletic Society, the Women's Undergraduate Association and the Alumni Association and the interest of the undergraduates and faculty alike has enabled the present editors to make the *Undergraduate* a real mirror of undergraduate activity in University College.

University College Men's Residence

IN recording the achievements of the residence for the past year there comes to mind the words of Plutarch, "If you live with a lame person you will learn to limp." Up to this year there has always been a sort of barrier between "73" and that mighty and intriguing cabal known as the "Executive" of the Literary Society of University College. But the old order changeth. Last autumn two members of the Executive announced their august presence to the house, claiming a share of our harmonious atmosphere. As sharpshooters of a new regime they tainted the freshmen with that dynamic and obtrusive thing known as politics and incited them to seek—and successfully, too—positions on their beloved executive. The residence and the Junior Common Room became a Damon and Pythias. But politics like to slide, not stand still, and now we find that more members have wormed their way into offices for next year. Mirabile dictu!

Politics, however, has not been our all-consuming passion. Our genial president has been hobnobbing with the Governor-General. Our Librarian, the affable gentleman from the north, has achieved the reputation of being the unofficial U.C. representative at every major social function of the Campus. And then there is that rosy-cheeked Englishman who receives letters from the Secretary of the W.U.A. with the heading, "Dear Harry".

The only sad note in our life is the departure of our "father-confessor" and tutor, Mr. Plumptre, who is breaking our celibacy for that noble institution, marriage. Our loss is her gain.

The Victoria College Union

THE Victoria College Union was developed in 1930 as a co-ordination of men's and women's existing student governments under one executive. Acting on the mandate of the students and as their official representatives to the College and University authorities, the Union has functioned smoothly and efficiently to promote the interests of its constituents.

By means of a special fee levied upon all students at Victoria College, the Union is able to finance the Debating Parliament, the Women's Literary Society, and *Acta Victoriana*, the official undergraduate publication. A very radical departure from custom was made this year, in the supervision of Class Fees by the Union, and a reduction to the uniform charge of $1.00. It has meant more careful budgeting by the Class Executives, and the Union thanks them for their co-operation.

This year's 'Bob', led by a Director appointed by the Union, was a great success, and gave the incoming freshmen a rousing welcome to Victoria College. The Scarlet and Gold, and Women's Tea Dances probably made all-time records, both in attendance and in unfulfilled demands for tickets. The Vic At-Home proved to be as popular as in the past, and marked the peak of our social season.

Interest in the conduct of our student government has run quite high this year, as evinced by the record attendances at two Open Meetings this Spring. A special Commission brought in a challenging report on the projected plans to renovate Alumni Hall. The social and financial policies of the Executive also received the necessary discussion.

In conclusion, the Executive of the Victoria College Union extends to the Graduating Class of 1938 its best wishes for a future of development, service and prosperity in the years to come—'Abeunt studia in mores'.

Annesley Student Government Association

THE Annesley Student Government Association is the result of a petition sent to the Senate of Victoria College in the year 1912. This petition expressed the feeling then prevalent among the students that it was highly advisable to assume individual and communal responsibility in the life and conduct of the Women's Residences. Such responsibility, it was thought, if given the students would make for the development of character and the promotion of loyalty to the best interests of the residences. It was founded upon an agreement between the authorities of Victoria College and the resident women students; which agreement entrusted to the latter the management of all non-academic matters pertaining to conduct while in residence. Annesley Hall was the first women's residence in Canada to adopt this system of self-government and with necessary modifications it has been functioning steadily since its introduction. Each woman student in the residences of Victoria College is subject to the legislation of the constitution of *A.S.G.A.* and is in consequence a member of the Association. Representation from each of the four years is a factor in realizing the individual responsibility which each girl owes to the party she herself has helped to elect. It is this spirit of active co-operation between executive and members which is one of 16 reasons for 16 successes attained since the inauguration of 16 systems. The other cause is the sympathetic support given to the Association by Dean Jessie Macpherson and the Dons as a body and as individuals. With such assistance *A.S.G.A.* may hope to accomplish even more in the future and show itself an even greater power in the life of Victoria College.

The Sixty-fifth Bob

TO Seniors the Bob comes as a cold draught of air in a cosy room. It is the first chilly herald of the day when we are to be tossed out into the world, away from the genial warmth of college. No longer do we feel that we belong in the expectant rows of yellow ties. Nor do we belong in the ranks of black-gowned, sophomoric self-assurance. It is for others to shout home-made doggerel at a rival class. Too soon the steam-roller logic of the calendar will push us out into the cold. The Bob makes us realize with a rude jolt that this really is our final year.

The Bob exists to welcome the freshmen into the life of the college. As in other years there were the skits holding up to ridicule the foibles of freshman and professor alike. In the traditional vein (or strain?) the Bob Quartette sang the glories of 4T1. But the sixty-fifth Bob found a link, too, with the past in J. M. Wilkinson. He recalled the "Bob party" of 1874, the third Bob, when he was welcomed by Robert Beare himself. Like 4T1, the class of '78 was "the best class that ever entered Victoria". In a clear, strong voice that belied his eighty-four years he told of old Victoria's early days.

After a frenzied two weeks of work the Bob Committee moves on to make room for another. We pass on the same traditional Bob, enhanced, we hope, to a sixty-sixth committee.

Acta Victoriana

IN September the prospects of *Acta Victoriana* for 1937-38 did not appear bright. Graduation had removed most of the literary lights of the college, Dr. Roy Daniells had left for Manitoba, and Miss G. M. Kippen, Women's Editor-elect, was not returning to college. In the face of these difficulties, however, the magazine this year has contrived to maintain its standards at a high level. The enthusiasm and energy of the staff have atoned for its lack of experience, and several new writers of real talent have been uncovered. In Mr. A. N. Bentley we have found a poet of distinct promise, and Mr. W. K. Howard has revealed a satiric verve which has given the Monocle a new lease of life.

The annual Literary Contest evoked a gratifyingly large number of entries. As was to be expected, the quality of the material was not especially high; but we can console ourselves with the knowledge that literary activity in the college is not at a standstill.

Changes in format and policy this year include an experiment with coloured covers, an extension of the Literary Contest, the final disappearance of Alumni Class Notes, and an expansion of the Book Department to give a cross-section of current literary production in the fields of poetry, fiction, and non-fiction.

The business manager has conducted his duties with uniform dispatch and efficiency.

Victoria College Music Club

THE Victoria College Music Club, for its thirteenth season of light opera, continued its Gilbert and Sullivan tradition and produced *The Pirates of Penzance.* The high standard of production which has been achieved under the capable direction of Mr. T. J. Crawford, Mus.Bac., F.R.C.O., F.T.C.L., was maintained. The capacity audiences which greeted the players at Margaret Eaton Hall, evidenced not only the ability of the Club, but also the popularity of Gilbert and Sullivan operettas.

It is the purpose of the Music Club to provide opportunity for its many members to participate in the musical activities of the College. In addition to the production of *The Pirates of Penzance*, the Club has given financial assistance to the Chapel Choir, and has provided talent for several of the Wymilwood musicales. The Club is pleased to think that whatever success it may have achieved, may serve as a basis for further development in the future.

The Trinity College Board of Stewards

UP until a few years ago all matters concerning the male students of Trinity College were dealt with by an assembly of the whole student body known as the College Meeting. But as a result of the increase in both the amount and the complexity of the business with which the students were faced, it became apparent that some form of executive structure would be necessary for efficient administration. Accordingly, in the fall of 1935 the College Meeting created an executive body known as the Board of Stewards.

The Board is composed of the Dean of Residence, the Head of College, the Trinity representative to the S.A.C., a representative from the Literary Institute, a representative from the Athletic Association, and a resident and a non-resident representative from each of the three senior years.

By its constitution, the Board must report to the College Meeting at least twice each term, thus affording the students an opportunity of discussing the problems with which the Board is faced.

In its brief history the Board has proven itself to be one of the indispensable bodies in Trinity College as a whole.

The Trinity College Literary Institute

THE Trinity College Literary Institute has completed its eighty-fifth year as one of Trinity's most integral and important societies. The motto of the Institute is 'Feros Cultus Voce Formare' and its objects are the encouragement of public speaking and the fostering of literary studies by a system of debates, and by the reading matter contributed to the Common Rooms. Debates are held on every Friday evening of the term, and include every conceivable type of subject. The debates are carried on under strict parliamentary rules, and a Government and an Opposition are elected by the men of college only to be ejected whenever the ire of the members of the Institute is aroused. During the year several open meetings are held when debates with other Canadian colleges and also with American colleges are held. The Institute is also responsible for the annual Conversazione Dance, one of the most important functions on the University Campus. The past year was remarkable for the number of outstanding Governments which assumed power and for the exceptional amount of constructive work accomplished by them.

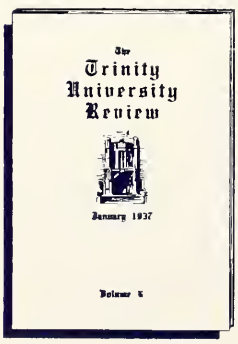
The Trinity University Review

THE *Trinity University Review* is published on the fifteenth of the month, eight times during the academic year, by the men of Trinity College. Its present circulation among graduates and students is eleven hundred. Founded as the "Rouge et Noir" fifty years ago, the name of the magazine was changed a few years later to the *Trinity University Review.* One of the first editors was Archibald Lampman, the Canadian Poet.

The *Review* has no definite policy with regard to contributions except in so far as to maintain as high a literary standard as possible. To this end the publications committee consisting of the Editor and two Assistant Editors exercise a rigorous control over the material presented for publication. The *Review* occupies an important place in the life of the College as a literary medium through which undergraduates may express themselves. In recent years the poetry appearing in the *Review* has received much favourable comment.



Besides the contributed work in the *Review* a number of pages are devoted to accounts of the major College activities, the Literary Institute debates, the Dramatic Society, the Athletic Association and a number of smaller organizations. Through its "Convocation Notes" and "Personals" columns the *Review* endeavours to keep Trinity graduates in touch with each other and with the College.

A special semi-centennial number of the *Review* was planned this year by the Editorial Staff to mark the fiftieth anniversary of its publication.

ST. HILDA'S HOUSE COMMITTEE

Second Row: Helen Worthington, Margaret Hume, Elizabeth Lindsay.
First Row: Miss Corrigan, *Warden;* Mrs. Kirkwood, *Dean;* Frances Evans, *Head of College.*

St. Hilda's House Committee

THE House Committee of St. Hilda's College consists of Mrs. Kirkwood, the Dean of Women and Principal of the College; Miss Corrigan, the Warden; the Head of College and the Heads of the three lower years.

This committee meets to discuss the agenda of the college meetings with the Warden, to arrange the dates of all student activities and to consider house rules and college discipline.

St. Hilda's is run on the year system, in which each year is a distinct unit within the college, with its own duties and privileges. The Heads of the years are chosen by the academic standing on which they enter college. The Head of the fourth year is Head of College and President of the College Meeting. The Head of the third year is Secretary, the Head of the second year, Treasurer. College meetings are held regularly to deal with all matters concerning the undergraduates as a whole.

The Heads of the various societies in the college are elected from the third and fourth years, and these two years, the Seniors particularly, are responsible for the general discipline and management of the college. The second year trains the Freshies who have certain house duties to perform.

The Literary Society sponsors inter-year dramatics and debating, and brings interesting speakers from outside the college.

The Women's Auxiliary organizes each year a bazaar and tea, the proceeds of which go to aid missionary work at several institutions.

Receptions are held periodically at St. Hilda's and are very popular. Each year has a formal dance, the second and third years give a dance for the graduating year and there is a residents' dance.

St. Hilda's Chronicle

THE St. Hilda's *Chronicle* bears the distinction of being the only women's undergraduate magazine flourishing on the campus at present. It has survived the vicissitudes of half a century of feminine enterprise and two editions a year still give witness to the literary and artistic ambitions of the Saints. It is greatly indebted to Mrs. Kirkwood whose "prizes" have been very successful in stimulating contribution.

The magazine was accorded a larger grant from the College this year which the staff have used to improve the appearance (?) of their issues and to add a candid camera page to its attractions, and which will probably permit a third edition in the future.

The Medical Society

THE Medical Society is in the main an undergraduate organization, being composed of representatives from each of the six years, and from committees concerned with the various activities of the students in the Faculty. The committees over which the Society has an indirect control include the Medical Athletic Association, Medical Women's Undergraduate Association, Medical At-Home Committee, Medical Journal, Daffydil Committee, Graduation Banquet, as well as the Annual Dinner and Dance which formally welcome the first year men. It is the endeavour of the Society to deal fairly and efficiently with all the problems of the student body and to provide a means of contact between the undergraduates and the staff.

The Society has been active for forty-three years, maintaining, except for a few improvements to keep step with the moving times, the same constitution approved at its inauguration.

There has been an impetus this year towards the coalition of Medical Societies to form a united body of medical students across Canada. This movement is of course only in its embryonic stage, but may have far-reaching results within the next few years.

The Medical Society will again this year continue the custom of setting aside a large percentage of its funds for bursaries.

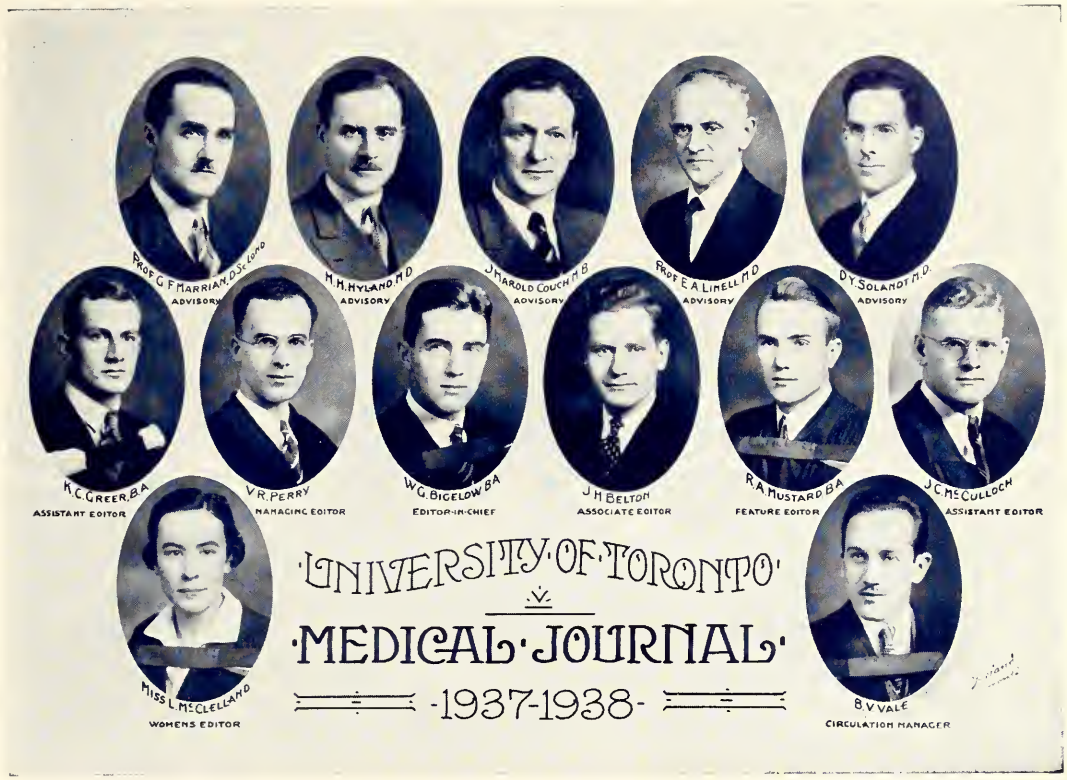
MEDICAL WOMEN'S UNDERGRADUATE ASSOCIATION

Second Row: Sue Adams, Margaret Smith, Beth Harrison.
First Row: Jean Lang, Doris Prowse, Dr. Anne Curtin, Mary Albertson, Laurella McClelland.

Medical Women's Undergraduate Association

THE M.W.U.A. is the official organization of women Medical students which was inaugurated in 1906 and since that time has led an active existence. The executive is composed of a President and *Torontonensis* representative from sixth year, a representative from each of the remaining years and a Daffydil representative. Its function is, by working in conjunction with the Medical Society, to further the interests of the Association and direct social activities.

Throughout the year open meetings are held, both social and business in nature. Daffydil is also represented by the presentation of the annual skit. The social event of the year is the Nabob Tea at which the members of the Faculty and their wives and the Women Graduates of the city are entertained.



University of Toronto Medical Journal

ESTABLISHED fifteen years ago "to serve as a medium for student expression and to bring to the student recent articles of scientific interest" the Journal has striven to live up to the ideals set for it.

The Journal is an undergraduate publication made possible by the spontaneous interest shown by the student, by his voluntary contributions, both literary and financial, and by the articles and criticism so kindly offered by the members of the staff.

The editors of the fifteenth volume of the pioneer undergraduate *Medical Journal* on this continent have been strongly supported by the Medical Society and the undergraduates in its policy of expansion. Each issue now includes besides many articles Abstract and Feature Sections and Medical Society and Athletic news.

To all who have contributed to the success of this volume the editorial staff offers its sincere thanks.

Medical At-Home

THE Medical At-Home, this year under the able leadership of Cam Gray, upheld the fine traditions of past years. The famous, distinctive music of Duke Ellington and his orchestra was enjoyed by everyone present. The party was the largest and most successful in the history of the Faculty of Medicine.

Daffydil

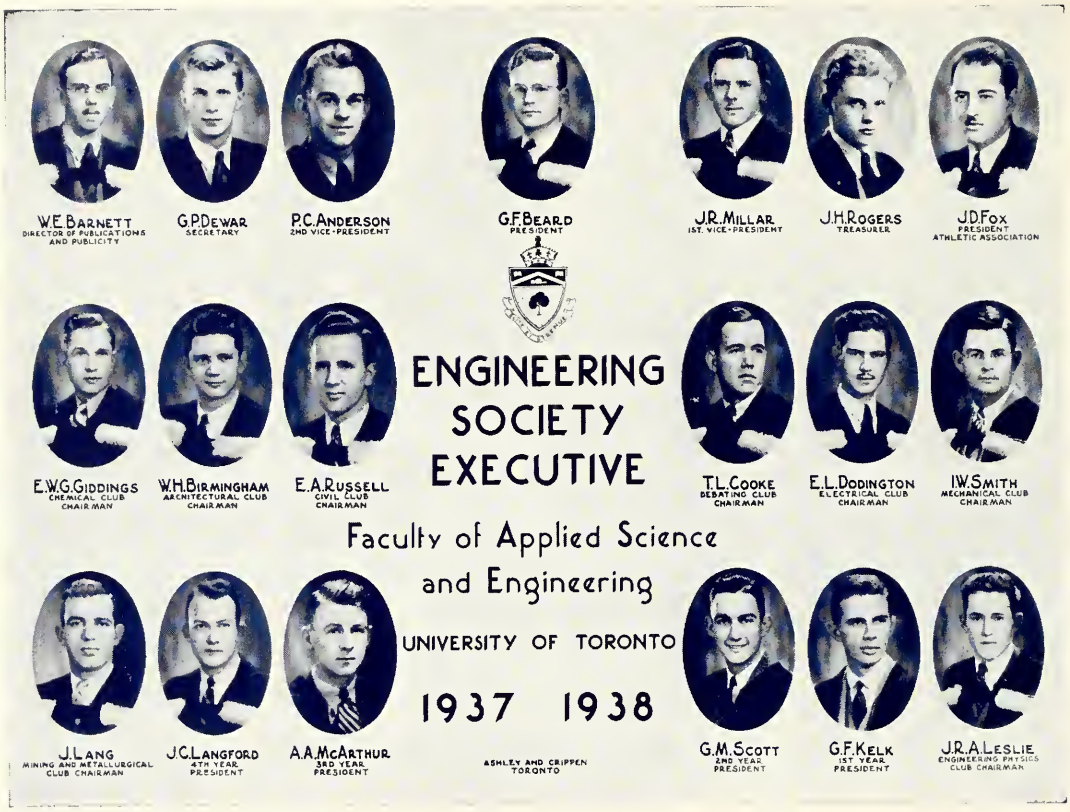
DAFFYDIL, the annual theatrical show of the Faculty of Medicine, was presented, by the Medical Society, on the evenings of February 23rd, 24th and 25th in Hart House Theatre.

The committee, under the leadership of Mr. J. H. Baillie and the direction of Mr. George Young, supervised one of the finest shows in the long history of Daffydil. The presentation of each year and the Medettes along with some excellent inter-acts, were very well received by the capacity audiences each night.

The cup for the best skit went to Fifth Year, who climaxed their five years of entertaining performances by winning this honour.

Mr. B. Laski of Fifth Year was awarded the Hutchison Trophy for the best individual performance. Much of the success of the show may be accredited to the Musical Director, Dr. West, and his Assistants, Dr. Hoffman and Dr. Northover.

The Daffydil Banquet was held at the King Edward Hotel on February 26th. Mr. P. A. Kinsey, the Banquet Manager, arranged a very enjoyable evening for the members of the cast and faculty who were present.



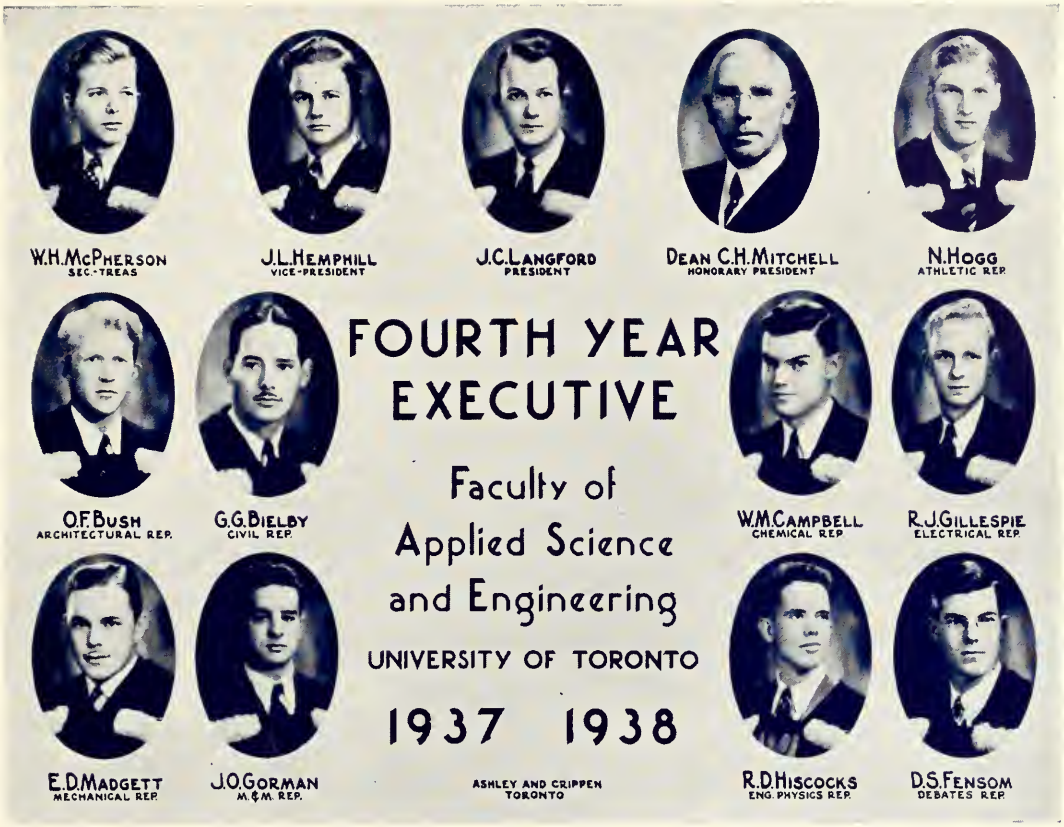
Engineering Society

THE ENGINEERING SOCIETY of the University of Toronto, founded in 1885 by Mr. T. Kennard Thomson, a student at that time, is the oldest engineering society in Canada, and we, as embryo engineers, regard it as the greatest. Mr. G. F. Beard, President during the past year, was the 50th student President of this organization, comprised of all the student body of the Faculty of Applied Science and Engineering. The object of the society has always been to create a brotherhood among the various departments in the faculty and to further such ideals of engineering, as honesty, initiative and prudence. This has not been an easy task, but year by year we have been progressing steadily towards our goal.

The advancements made this year under the leadership of Mr. Beard and his executive committee have been many and the set-backs few. The constitution revised in 1936-37 under the presidency of Mr. Potter, came into force this year with a resultant beneficial effect. Under the rules of the new constitution a new club was created for the Engineering Physics students. We are glad to say that this club under its first President, Mr. J. Leslie, has been one of the most active and most successful clubs this year. It had long been felt in the faculty that there was not enough encouragement given to student engineers to participate in public speaking. To remedy this Mr. Beard and his executive committee sponsored essay contests among the student body.

There have been improvements with regard to the control of the Engineering Society Supply Department. Legislation has just been passed for an audit to be made of the financial situation of each year and club.

On February 24 we climaxed our school year by a joint meeting with the Engineering Institute of Canada.



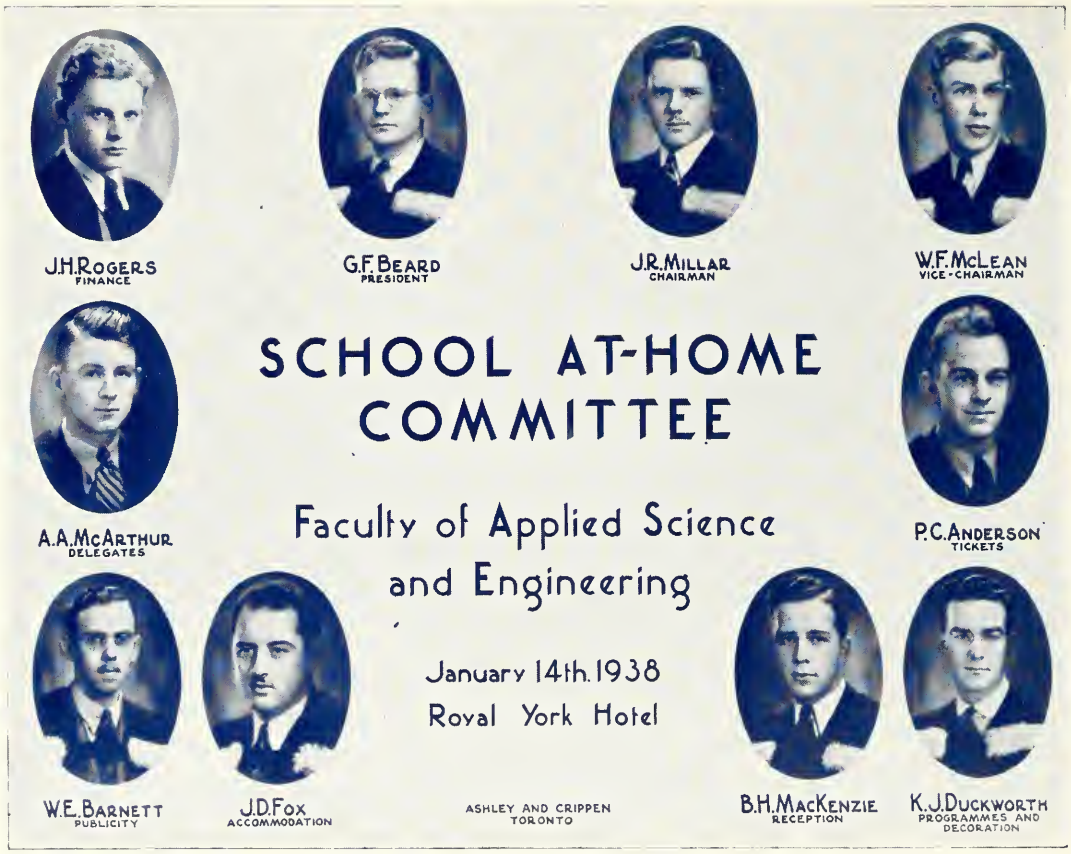
S.P.S. Fourth Year

THE first chapter is ended. The four years that such a short time ago seemed like a lifetime, have passed in a rush of mad activity. The awe of a freshman gave way to the confidence of a sophomore, to be followed by the uncertainty of a junior and last of all to be supplanted by the mature gravity of a senior, still too close to be seen in a clear perspective. Of one thing we are certain: this is that our last year will offer more than its share in the memories that will be recalled of our undergraduate days.

The new innovation of the Senior Fall Prom proved to be a raving success. In the brilliantly decorated Boulevard Club, many of the professors and their wives gazed in awe while some of the more sedate members of the class threw convention to the four winds and gave their own particular interpretation of the "Big Apple" as it should be done. The music which invoked such a demonstration was ably presented by Arch Crosley and his orchestra.

The loyal crew, which makes up 3T8, finally gathered for their final party as undergraduates in the Crystal Ballroom of the Royal York at the Graduation Ball. Bob Shuttleworth and his orchestra provided the music while the class of 3T8 dined and danced until the approach of the cold gray dawn threatened an end to the festivities. In all it was an occasion which served as a fitting end to our undergraduate social activities.

The loyalty and co-operation which has made 3T8 an outstanding class in the past will continue in the future and aid your newly-formed permanent executive in the planning of future reunions where we can re-live these grand years. This spirit will provide the impetus which will help make 3T8 a year to be remembered and a credit to School.



School At-Home

EXCLUSIVELY for Engineers, and woe to the Meds that tried to crash it, was the School At-Home on January 14th. For it was on that night that Schoolmen and their ladies danced and made merry till the wee small hours of the morning.

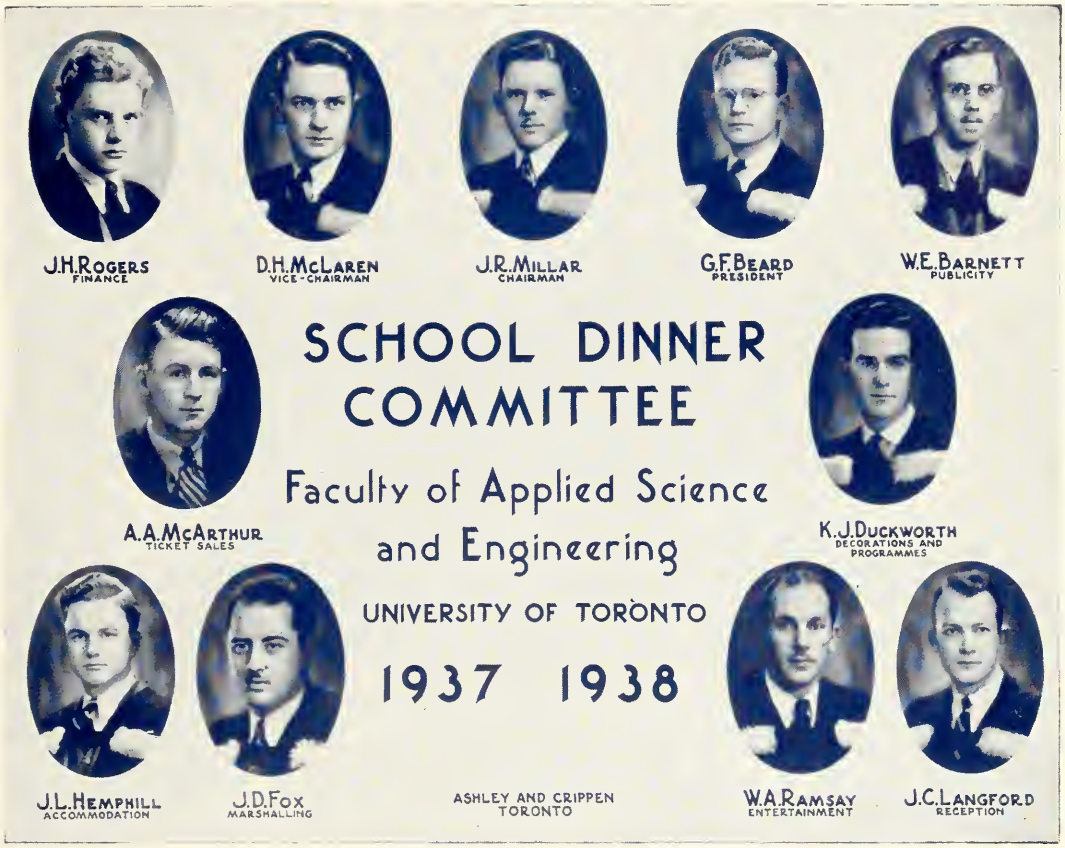
The Royal York was the setting for this gala annual affair. Slide rules and studies were forgotten as sounds of a merry clinking of glass and ice came from filled rooms, and greetings were sung across the halls. It was easy to see that there was going to be no rest that evening.

Sweet rhythms were sounded out by that popular young maestro, Frank Crowley. Throughout the evening, the engineers forgot their usual "dignity" and Big Appled in a carefree way. The Dean's eyes twinkled as he watched the boys, as if he wished to try it himself in some quiet corner.

As to the sumptuous repast served at midnight, accompanied by spontaneous bursts of school songs and yells, little need be said. The entertaining floor show that preceded it was just another of the many things that made the evening a successful one.

School was honoured by the distinguished patronage of Mrs. H. J. Cody, Mrs. C. H. Mitchell, Mrs. C. R. Young, Mrs. R. W. Angus, Mrs. H. H. Madill, Mrs. J. W. Bain, Mrs. A. R. Zimmer, and Mrs. G. A. Guess.

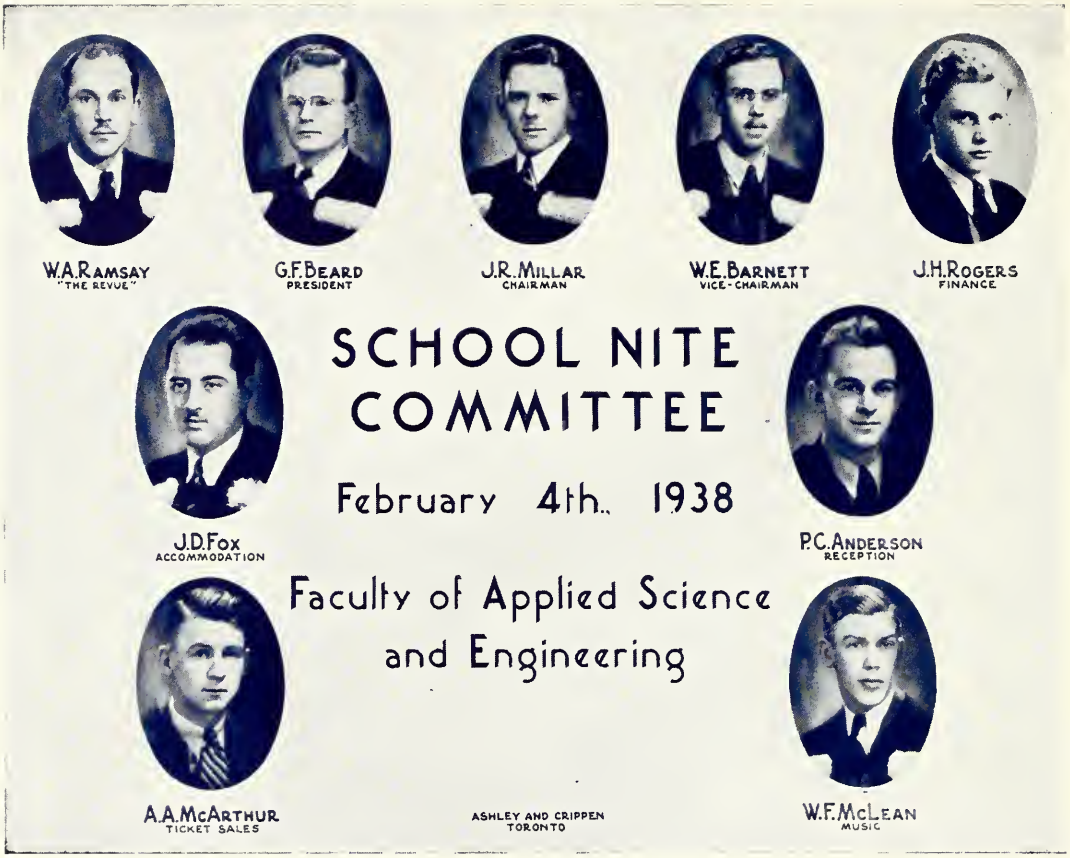
And so, with the last toast drunk (from the punch bowl) and the last pledge made, Schoolmen completed another eventful night in their traditional spirit.



School Dinner

AN army travels on its stomach and so, apparently, do Schoolmen, for after all the advance publicity for the forty-eighth annual School Dinner had gone echoing down the canyons of history (along with the fortunate soul who got the Medical Building for 5 yen in the Auction) a mighty throng of tried and true Engineers assembled in the Great Hall on the memorable night of November 25 to pay homage to His Majesty the Turkey, and to honour our esteemed guest, Sir James H. MacBrien, K.C.B., C.M.G., D.S.O., Commissioner of the Royal Canadian Mounted Police.

Sir James addressed us as speaker of the evening. His opening remark was that he considered it an honour for himself as Commissioner of the Royal Canadian Mounted Police and for Chief Draper of the Toronto Police Force (you see—everybody goes to a School Dinner), to meet the men at the Head Table "unofficially", not, of course, that he would insinuate anything. He gave a most interesting history of the famous Mounties, from the days when they were only one hundred and fifty strong at Fort Garry, up to the present, when they have become one of the most efficient crime-fighting forces in the world, and certainly the most widely known. His story of how the motto "Always Get Your Man" came to be applied to the Men in Scarlet was so good that it didn't take long to spread over the whole campus. However, the real motto, he pointed out, is "Maintain the Right". He concluded by saying that the force is by no means living on its past reputation, but is forging ahead with science in the latest methods of crime prevention and detection. He followed the address with a series of lantern slides, illustrating life in the North and West as it used to be and as it is today.



School Nite

THE "biggest event on the Campus" went over with a bang when School Nite was staged in Hart House. Over nine hundred couples took possession from basement to garret and gave the artistically decorated halls reason to remember the "Toike Oike" through another year.

First, on the program of most importance was the "Revue". This year, the pleasure-seeking Schoolmen and their friends were treated to a well-chosen program of short snappy numbers presented by an all-School cast. From Bruce Mackenzie and Mike Swick to Prof. Adam Nitwit, the acts were accorded an uproarious reception. The "Chorus" in particular deserves a special bouquet. That bevy of pulchritudinous beauties led by "Twinkle-Toes" Brisco almost stole the show in demonstrating the intricacies of the waltz. The whole performance was created and handled by Maestro Al Ramsay and to him should go the largest bunch of orchids.

Meanwhile, on the dance floors in various parts of the House, the remainder were swinging to the rhythms of five smart orchestras. Someone with an understanding of the engineer included a girl's orchestra among these and thereby earned the approval of all present. Eddie Stroud had charge of the Big Gym, and kept it filled all evening with couples dancing to his distinctive music.

What is a dance without refreshments? The committee knew the answer and arranged for a tasty lunch to be served in the Great Hall. Four hungry hordes surged into the hall within two hours, yet the Hart House culinary staff more than met the test and turned them away only when they were satisfied.

Toike Oike

THE writing of this article marks "finis" to another volume of that noble and autocratic little journal, *The Toike Oike*. For well nigh fifty years, it has been the official publication of the Engineering Society and now boasts a total of eight issues per year.

It first appears, filled with helpful and fatherly advice to the innocent frosh early each October, and then in rapid succession, Initiation, School Dinner, Christmas, School At-Home, School Nite, Graduation, and School Election issues roll off the press to mark the important events in School.

The new style of type added considerably to the appearance of the paper. The highlight of the issues was the School Nite issue which served as a programme. The inclusion of nothing but "stories" instead of a mixture of everything made quite a hit with everyone.

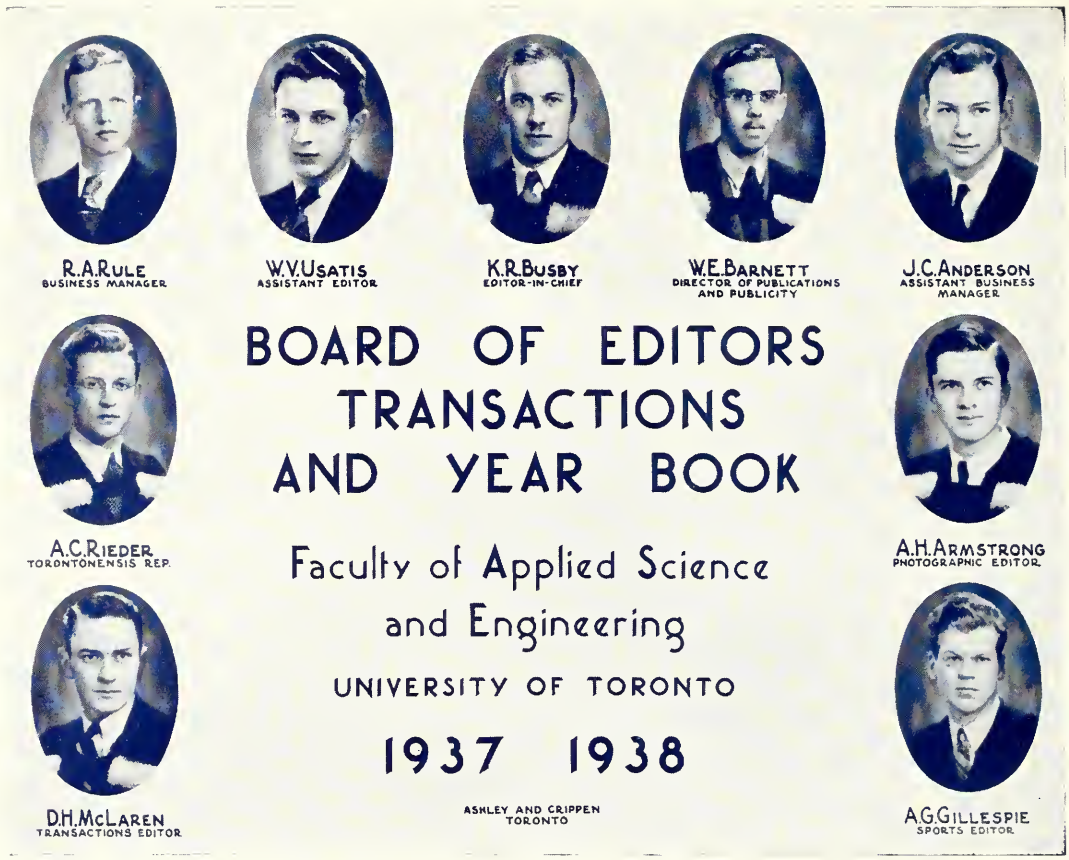
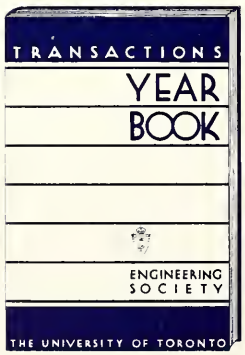
The staff take this opportunity to thank all those who have contributed to its success. To Dean Mitchell we extend our many thanks for the splendid manner in which he responded to the request for articles. To the new editorial staff we extend the best wishes for continued success.



Transactions and Year Book

THE TRANSACTIONS AND YEAR BOOK is the official annual publication of the Engineering Society. A man passing through "School" receives a copy of the previous edition in the fall of his freshman year, and one of each new edition when it comes off the press in April each year of his stay at "School", and for the first two years after graduation. Thus he obtains a permanent picture of the years enclosing his life at the "little red schoolhouse".

The Transactions section of the publication is devoted to articles and discussions on technical subjects. An attempt is made to keep every page of this section interesting for each of the varied courses that compose the Faculty of Applied Science and Engineering.



In the Year Book, a record is made of the school activities of the year. Social functions, club activities and athletic accomplishments all have their place. Where it is thought that constructive criticism might be beneficial to succeeding years, it is made with the hope that it will be taken in the spirit with which it is given.

The "Book" is made possible by the co-operation of the Engineering Society as a whole and by the unselfish and whole-hearted efforts of each member of the Board of Editors.

The Architectural Club

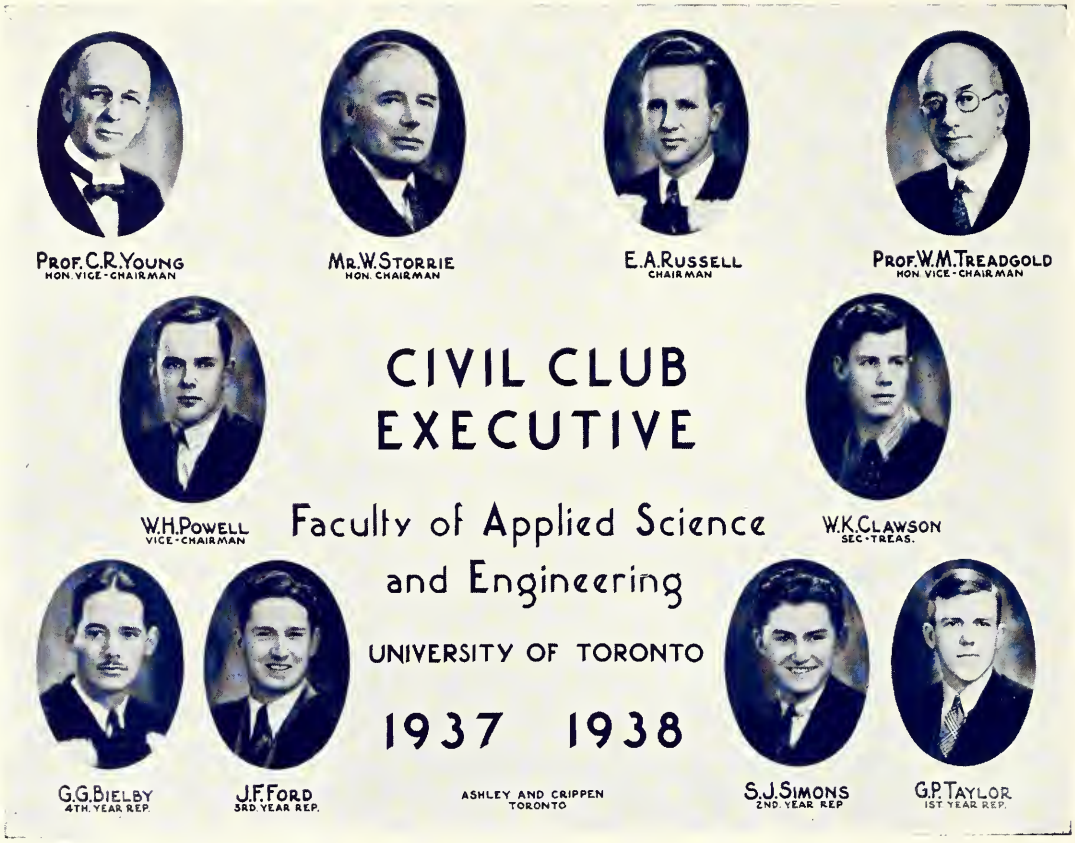
THE Architectural Club has enjoyed a very successful year. In all its activities the executive has had the generous co-operation of the staff and the students.

A large group of graduates turned out to the club dinner which was held at the Arts and Letter Club last fall. Mr. Dick Fisher, our Honorary Chairman, held our attention with a thoughtful talk on "The Practical Architectural Education". The evening was rounded off with some humorous skits by the various years.

The Mauvais Arts Ball featured some elaborate decorations. The evening was a very enjoyable one and will be remembered by all of us. Our speakers this year included Col. Mackenzie Waters, who gave the highlights of a recent trip to Europe; Mr. Allward, who offered some practical hints on the design of office buildings; and Mr. Guy Mitchell, who explained the benefits of a better understanding between the architect and the interior decorator.

We were fortunate in obtaining permission to inspect a number of buildings while under construction, and in having their special features explained for our benefit.

Because we were a small compact body, the various years have become better acquainted this year than has been the case in the past. As a result the meetings and other club activities have been supported in a manner very gratifying to the retiring executive.



The Civil Club

THE functions of the Civil Club are: to promote lasting acquaintanceship among the members of all years in Civil Engineering; and to bring to the members of the Club, men of wide Engineering experience in order that the latest developments in this field may be obtained and discussed.

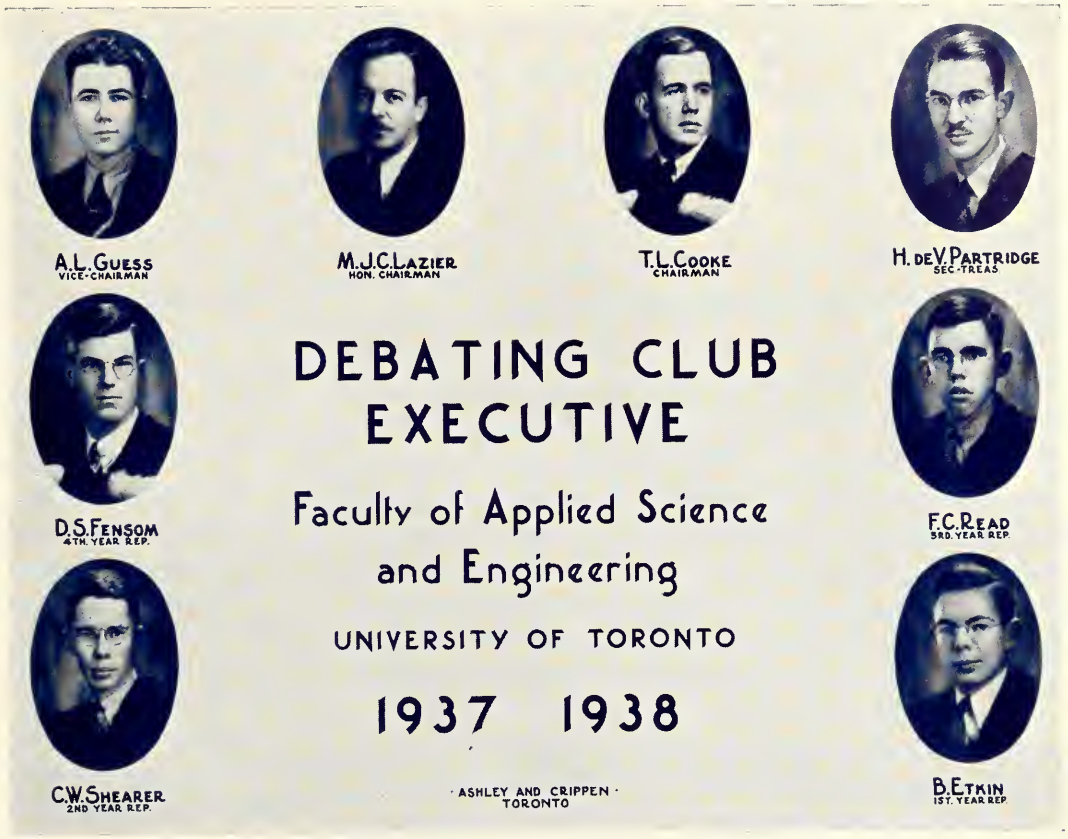
This year in selecting our Honorary-Chairman, with the object in view of linking the Club more closely with the profession, the Executive were more than fortunate in obtaining Mr. William Storrie, a very prominent Consulting Engineer. The justification of this new venture has been shown by the interest which Mr. Storrie has taken in the activities of the Club.

The year opened with a very successful trip to the plants of the Hamilton Bridge Company, and the Steel Company of Canada, in Hamilton, and then proceeding on to Buffalo. At the next get-together of the Club, a luncheon meeting in Hart House, the Freshmen were introduced to Professor C. R. Young, who gave a very instructive talk on "Engineering Traditions". At the final meeting of the Fall term, which took the form of a Smoker, Mr. W. Storrie, our Honorary-Chairman, presented an exceedingly interesting talk, illustrated with slides, on the new Toronto Water-Works System.

The apex of social events was reached on January 25, 1938, with a dance held jointly with the Mining and Metallurgical Club at the Boulevard Club.

On February 8th at a Hart House luncheon meeting, Mr. J. A. P. Marshall of the Department of Highways of Ontario, gave a very interesting illustrated talk on the Highways of Ontario, both present and future.

A joint Smoker with the Mechanical Club, a new departure in Club activities, and a final luncheon meeting in March topped off the year's activities.



Debates Club

THE past season, notable for the timeliness and interest of the topics debated, has been one of the most successful on record.

In the first debate Dick Hiscocks, aided by a huge majority of the House (74-6), defeated Garner Giddings' motion that "The present production of Engineers at S.P.S. is detrimental to the profession."

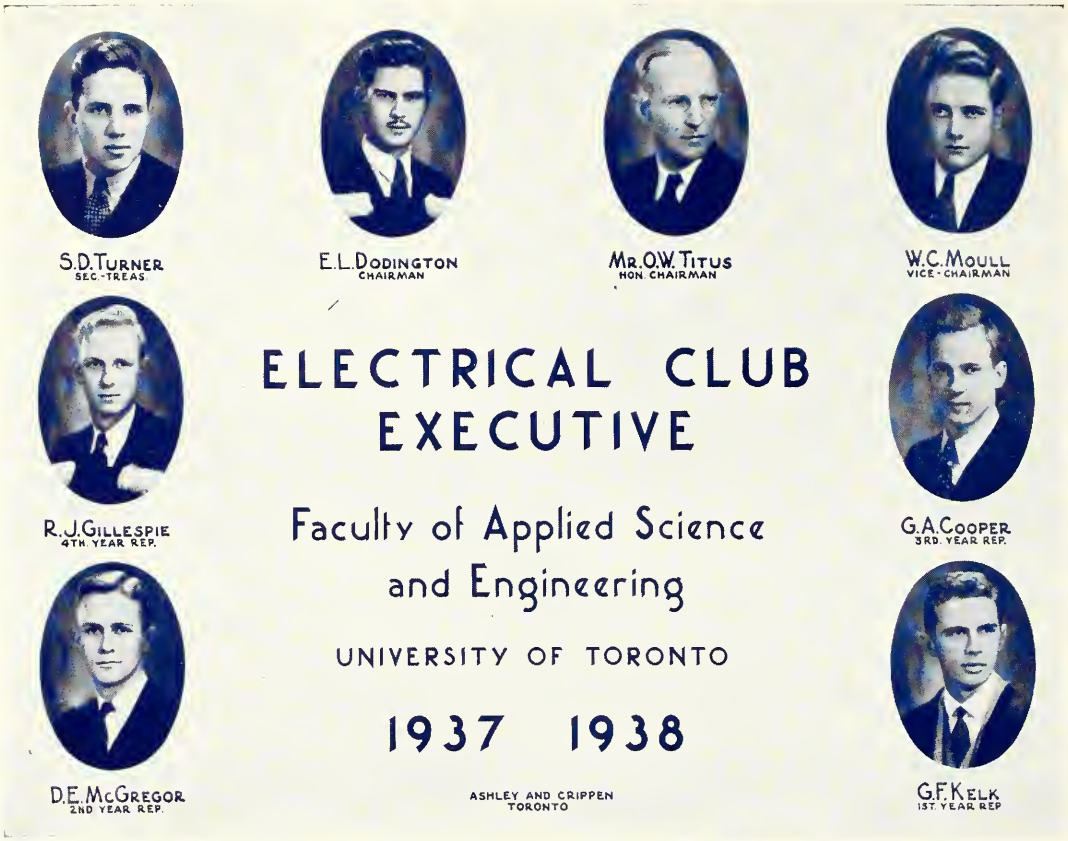
"We should have more debates" was moved at the second debate, and this motion was carried, due to the combined efforts of Jack Newton and Dr. McLaughlin, guest speaker; the two of them snowed under the opposition leader, Cy Reed, who could find only one other vote against the motion.

Trinity College sent two speakers to the next event, and the guests, E. Cranfield and A. H. Crosbie, obtained passage of the motion that "Canada should participate more actively in world affairs" in spite of the opposition of Lionel Train and Bill Shearer of School.

A filibuster from the floor by the self-styled manager of the first year team, Bernard Etkin, swayed the House to support the government control of radio in Canada, at the first Segsworth Trophy debate. However, the judges thought that the arguments of Cy Reed and Allan Wickett of third year had the edge on those of Ed Pashler and Norm Bennett of 4T1, so third year proceeded to the final.

In the second trophy debate, second year, represented by Yorke and Jack Williamson, went down to defeat before the onslaught of Bob Bales and Quentin Jackson of fourth year.

The result of the final debate between fourth and third is now history, (but it wasn't when this was written), and with the Impromptu Speaking Contest provided a fitting climax to a most noteworthy season.



Electrical Club

WITH the end of another year in view, we look back upon our activities, which, although not many in number, have been of top-notch quality, both in educational value and in entertainment.

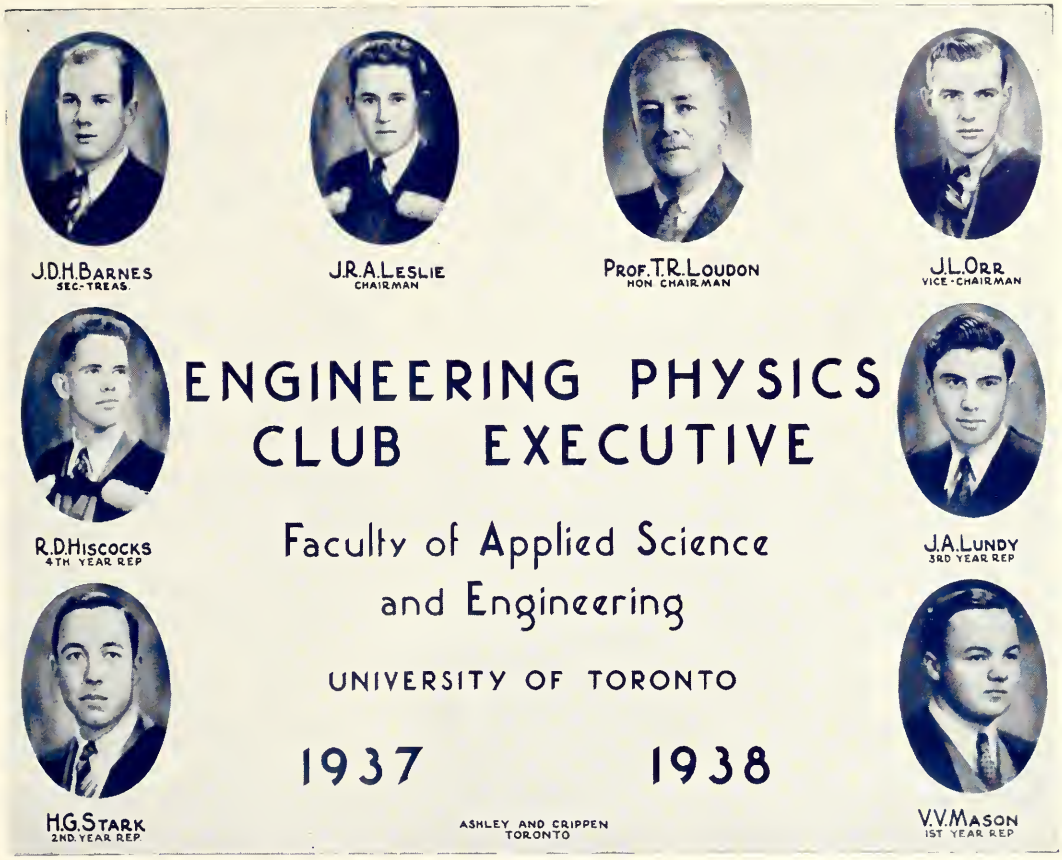
The first event of the season was the annual fourth year trip to Queenston and Buffalo where the Hydro-Electric Plant and the Huntley Steam Generating Plants were visited.

The official Club activities started with a most interesting talk by our Honorary Chairman, Mr. O. W. Titus, on "Boulder Dam". This was followed by another smoker in November, at which Mr. E. Cecil Budd recounted a few of his travelling experiences in Turkey.

The Electrical and Mechanical Clubs this year united in joint effort to put on one of the best dances of the year in the Royal York Roof Gardens.

In January, the Club visited the Leaside Sub-Station, and the members were conducted on a very extensive tour of the station, with very complete and competent explanations of all points of interest.

At the Annual Dinner, Mr. R. E. Jones spoke on "Power Distribution", and the club members spent the most enjoyable evening of the whole year.



Engineering Physics Club

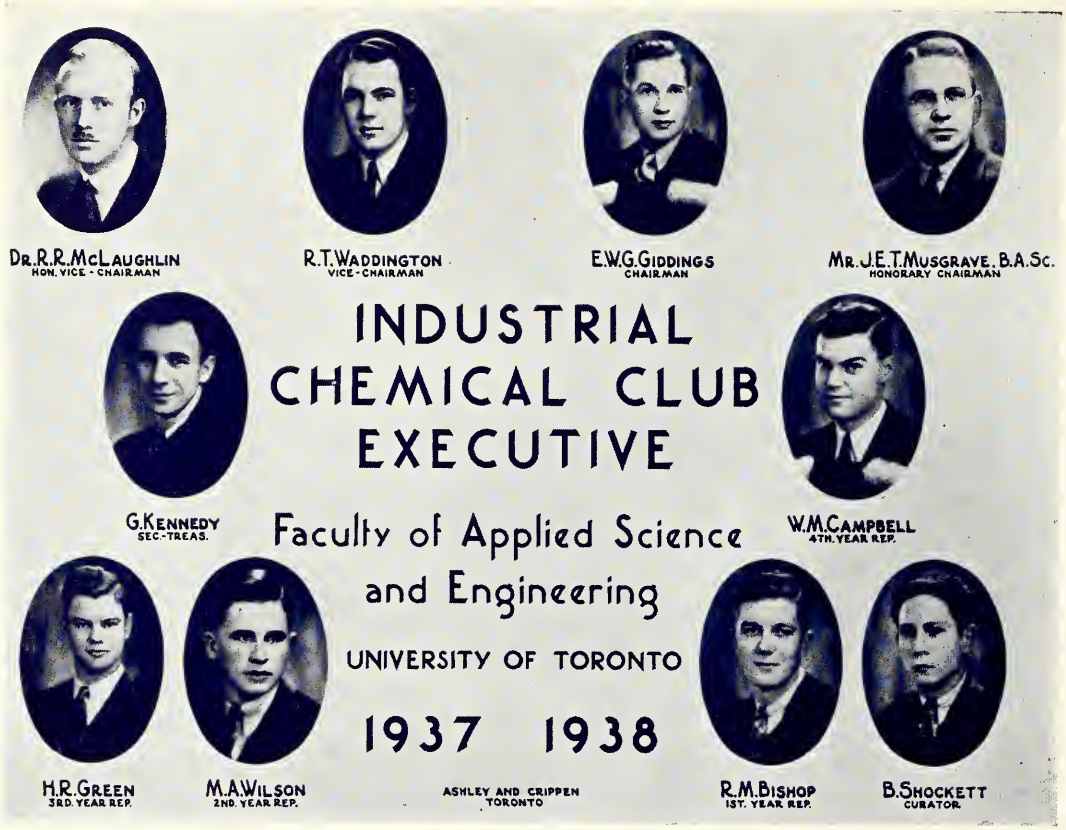
JUST four years ago the course in Engineering Physics was added to the Science calendar. The graduates were to be neither Engineers nor Physicists, they said, but something more learned than either. In fact, we soon became known as the Brain Trust.

One year ago, we convinced the powers that be of the necessity for our own club, and now we conclude with marked success. The opening dinner, with Dr. Speakman of the Ontario Research Foundation as guest, should be mentioned especially and the Frosh will long remember their special reception at that time.

The science of rhythm was added to the curricula early in November, when a number of us fully enjoyed ourselves at a dance in conjunction with the Electricals and Mechanicals at the Royal York.

Our Honorary Chairman, Professor Loudon, should be thanked for his advice and helping hand throughout the years. We have experienced lectures from the staffs in Mathematics, Physics and "Skule", and appreciate their interest in us.

May the lower years have courage for what is to come, and find time to continue their interest in School's newest organization.



Industrial Chemical Club

THE Club Executive were fortunate in bringing back to School a graduate of the early '20's as Honorary Chairman. Mr. Musgrave's talk on printing inks in January was very interesting.

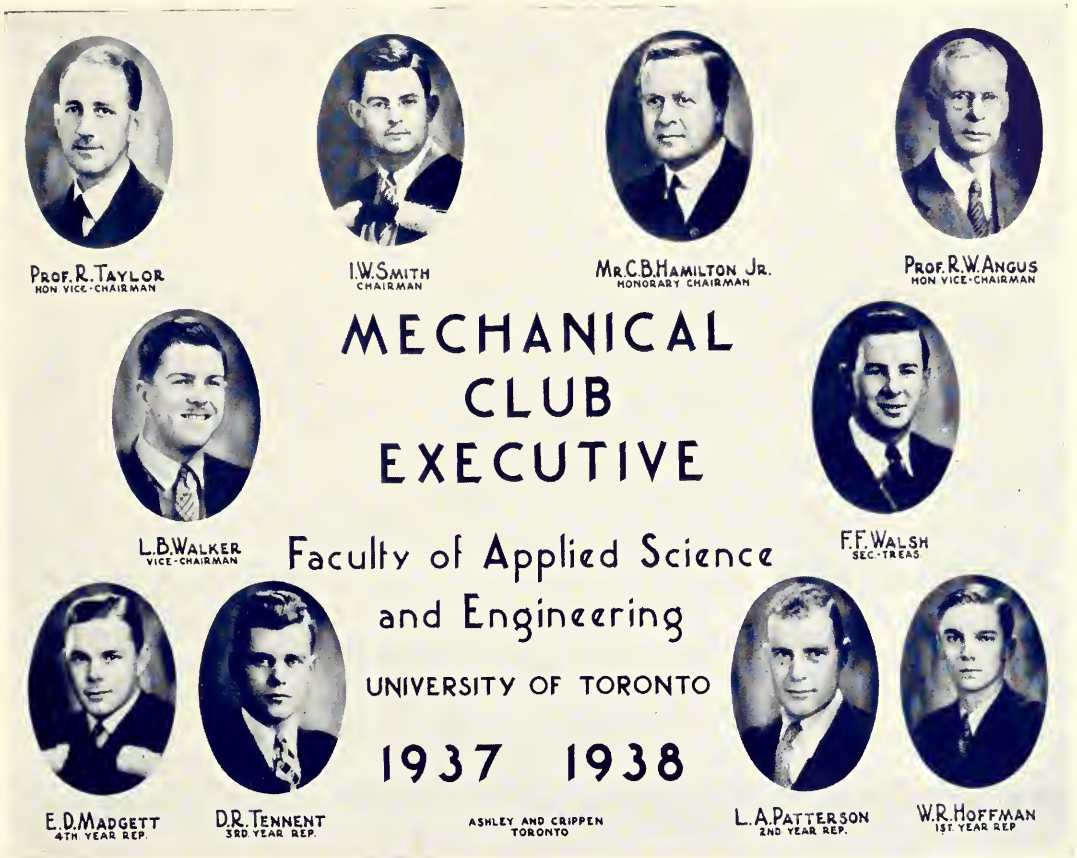
Several smokers were held in Hart House. Excellent papers were presented at each one.

The annual trip to Buffalo was conducted on October 29th. The Steel Company of Canada, Hamilton, and Proctor and Gamble of Hamilton were inspected. The members were royally received at Proctor and Gamble's and were banqueted at the company's expense.

On the evening of December 4, the girls of the Honour Science took a chance (?) on the boys of the Industrial Chemical Club on the occasion of a colossal blind date. The party was a novel one. History was made that night.

The final function was a dinner in March.

We wish to pay tribute to a swell fellow who graduated from this University last year (1937): Knox Beardmore, the hard-working Chairman of that session, who was an unfortunate victim of infantile paralysis last September. His sudden death is deeply felt, especially by those who worked close to him.



The Mechanical Club

THE Mechanical Club was originally constituted as a purely technical organization. But since the Student Branch of the A.S.M.E., capably led by Vernon M. Parrish, has fostered technical advancement for undergraduates in Mechanical Engineering, the Mechanical Club has deviated from the purely technical field and has sought to provide for its members greater opportunity of obtaining new contacts both within the School and without.

The programme by which this was accomplished included many varied activities. Three smokers were held in Hart House: the first being addressed by Professor R. W. Angus concerning his trip to Italy and Switzerland; the second one by Mr. D. McCrimmon of the C. A. Dunham Co.; and the third one, held in conjunction with the Civil Club, by Mr. Harkness, who is a prominent consulting engineer in the city.

The annual dance in the Royal York Hotel, along with the Electrical and Engineering Physics Club, was considered by those who attended to be a very successful function. A dinner was held in the Oak Room of the Union Station, followed by a talk on boilers by Mr. R. C. Wiren of the University staff, and an inspection trip of the Central Heating Plant on York Street.

Other inspection trips included: The Queenston Power Plant and Huntley Steam Station, in Buffalo; the Westinghouse Co. and Steel Co. of Canada in Hamilton; the Canada Wire and Cable Co., and the Goodyear Tire and Rubber Co., in the vicinity of Toronto.

The annual dinner was held in the Walker House Hotel with entertainment by members of the club, and an address by Mr. W. A. Osborne of Galt.

Mining and Metallurgical Club

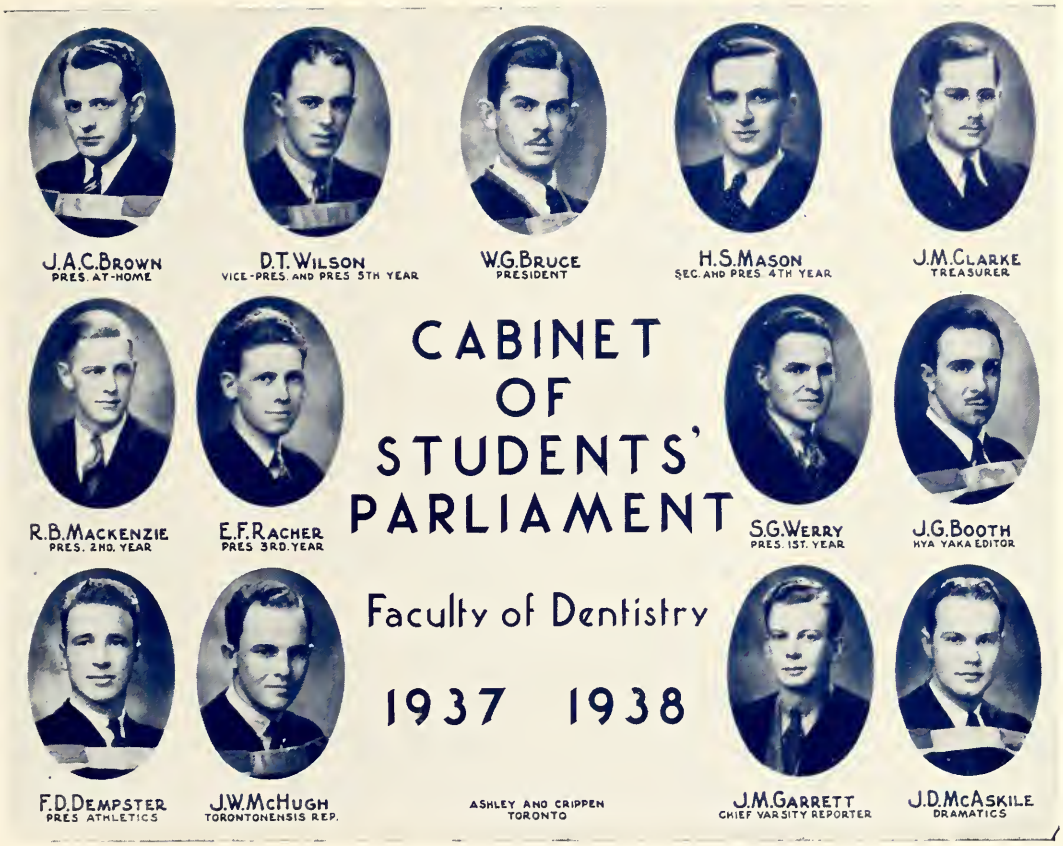
THIS year we welcome into our membership another group of undergraduates, namely, the members of the new Department of Mining Geology. May they help to maintain the Club in its present high position.

We are indeed fortunate this year to have as our Honorary Chairman, Hon. W. H. Gordon, a former Federal Minister of Mines. He took a real interest in the Club and proved himself to be of invaluable assistance. Mr. A. F. Brigham, a Mining Engineer of world-wide experience, acted as our Counsellor in connection with our association with the American Institute of Mining and Metallurgy, of which we are an affiliated student society.

Our activities this year included a Smoker at which the Freshmen were impressed with their position in the scheme of things. The first Dinner was a record-breaking one both for the excellence of the talk provided by the Hon. Wesley Gordon, and for the turnout which jammed the Engineers' Club to overflowing. The Club Dance was held jointly with the Civil Club at the Boulevard Club and was a decided success.

The second Dinner was held at the Military Institute, where Mr. C. C. Huston, a consulting engineer, gave an interesting illustrated talk on his travels in search of gold.

The Executive Committee, on behalf of the members of the Club, wishes to express sincere thanks and appreciation to our Honorary Chairman, to our Counsellor and to all our many friends who have co-operated in making this year such a success.



Dental Students' Parliament

THE STUDENTS' PARLIAMENT has a long history which dates from the year 1875. All undergraduates are members of the Students' Parliament and all student affairs are conducted by this body through an executive known as the Cabinet. The Cabinet is composed of a President, Secretary, Treasurer, Presidents of each year, and the Presidents of the different committees in charge of varied student activities.

The constitution of the Students' Parliament has been amended at various times to conform to the growth and various changes which have taken place since the founding of the Royal College of Dental Surgeons of Ontario and its change to the Faculty of Dentistry in 1925.

The Students' Parliament provides representative administration of all undergraduate activities and provides an official contact between the student body and the faculty executive.

This year has been a very successful one and it is hoped that many more like it are in store for succeeding parliaments.

Dental Dramatics

THE students of the Faculty of Dentistry this year showed more interest than ever before in dramatics. This is a notable achievement for those with so little extra-curricular time.

Until this year the productions were not considered to be of superior quality. However, the major production of Dentantics, the one-act play "Heaven On Earth", was this year entered in the University Drama Festival.

Dentantics of 1938 was a truly crowd-pleasing show with never a dull moment. A large number of students took part and were admirably cast and directed. The production included three one-act plays and three original skits.

Hya Yaka

THE HYA YAKA, year book of the Faculty of Dentistry makes its appearance this year bigger and better than ever before.

This book containing articles by both staff and students is quite a large production for such a small faculty and is one of the most original and interesting works in the University.

The articles range from scientific treatises to student humour and athletics. The staff hopes that it will be a source of fond memories to the graduate and inspiration to the undergraduate.

The Editor and staff wish to thank all those who helped to make the annual a possibility and hope that this year it will be as successful as its predecessors.

Wycliffe College Literary Society

FOR the Wycliffe College Literary Society this year has been one of important changes in constitution and administration. From the beginning of the year until December the Cannon Party held office under the successive leadership of S. E. Richards and C. D. Cross, while E. L. Simmonds, B.A., headed the Opposition forces. In December the Parliamentary Club was instituted as the program for alternate weeks, and, due to the enthusiastic support of the two party leaders—C. D. Cross and W. R. Symons, B.A.—and the co-operation of all the members, it has proven to be a most successful venture.

The program of the Society has been full and the meetings interesting throughout the entire year. The social program included such memorable events as the Annual Hike, the Sleigh Ride, and Open Evenings. The great highlight of the year was the Annual Dinner and Musicale which was an outstanding success.

The S.C.M., which works as an integral part of the Society, has made an invaluable contribution to the development of the spiritual life of the members. Missionary Night, when several of the students related their experiences on the mission fields across Canada, was again one of the most thrilling and interesting evenings of the year.

It is a great pleasure to report a most profitable year and to congratulate the members on the fine spirit of co-operation which they have shown.

MEN IN RESIDENCE, KNOX COLLEGE, 1937-38

Knox College Association

THE Knox College Association is a responsible and democratic government, representative of the students residing within the College and of all students registered at Knox. As the official organization, it administers the affairs and directs the activities of the residence life of its members.

The House Committee maintains discipline within the residence and provides many added privileges and services designed to meet the needs and pleasures of the men. The Worship Committee supervises the spiritual life of the College and provides Chapel Services, Worship Periods and special Communion. The Athletic Committee arranges interhouse and interfaculty sports, and the Knox College teams have always been regarded as strong contenders in many branches of University athletics. The Social Committee is active in providing and directing the social life of the residence, arranging for frequent entertainments which are always of a high quality.

The meetings of the Association provide opportunities for live debate and are featured with much show of oratory. The cosmopolitan representation of the residents and the willing co-operation of all the men have made Knox one of the finest residences on the Campus. The high standard of its life and the warm spirit of its fellowship have established an enviable tradition in Knox College, a tradition of which every man is proud.

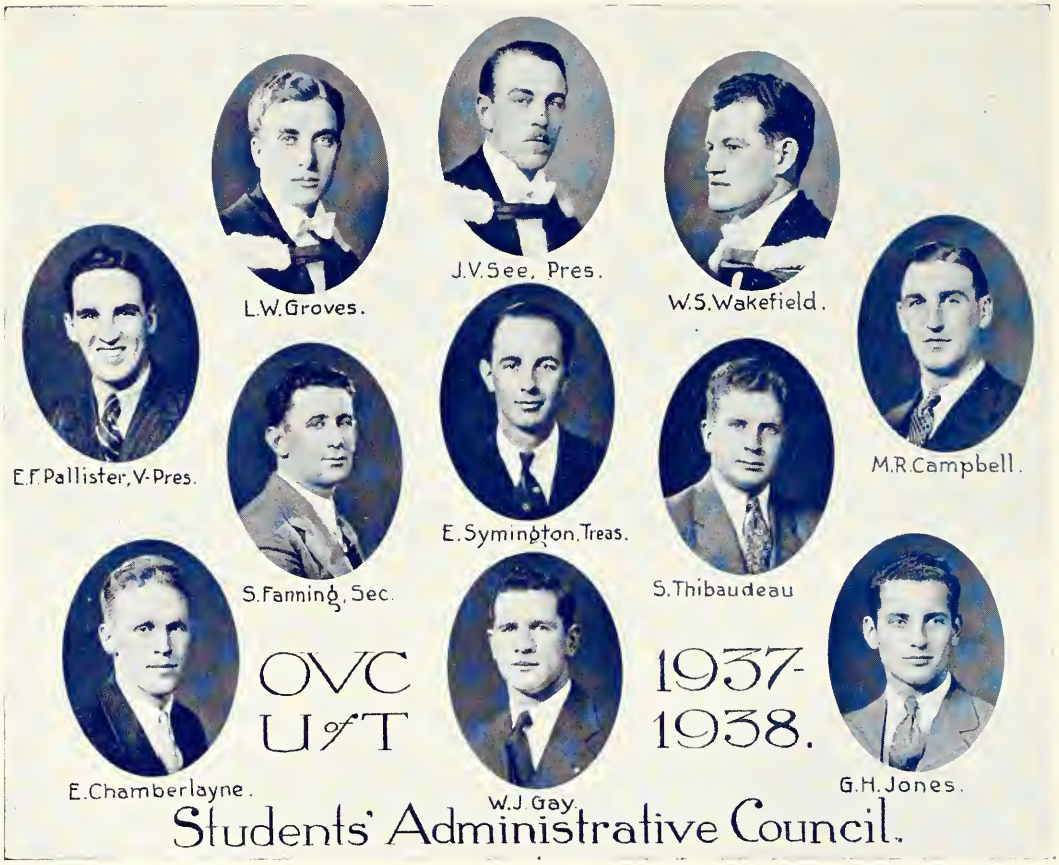
Emmanuel College Students' Society

THE EMMANUEL COLLEGE STUDENTS' SOCIETY is the organization which controls the extra-curricular activities of the students of Emmanuel and is the official body through which student opinion on matters pertaining to College and Church life may be expressed.

A number of committees direct the different phases of college life. The Vice-President's Committee promotes contacts between church students in Arts and the men in Theology. The Worship Committee plans for regular chapel services in the college each morning and for house worship in the residence in the evenings. This year the committee has also held Communion services at the first of each month. The Residence Committee is the body through which the Emmanuel College musicales are arranged and which gives student government to the life of the residences. The Missionary Committee promotes missionary education and organizes the raising of funds for the purpose of bringing a student from the Orient to the College. The committee also contributes to the work of the S.C.M. Through the Athletic Committee College Sports have been organized. This year Emmanuel has had volleyball, basketball, baseball and hockey teams. Tennis and badminton tournaments have also been played.

The Theological Society is affiliated with the E.C.S.S. Through its meetings in the College and in joint session with the Theological College Union of the S.C.M. greater understanding of the teachings of our Faith have been achieved.

The student body expresses to the members of the staff of the College very hearty appreciation for the co-operation and aid so generously given. Those who graduate will not soon forget the friendships they have made with the Professors of Emmanuel.



Veterinary Students' Administrative Council

THE Students' Administrative Council is composed of three seniors, three juniors, three sophomores, and two freshmen, making a total of eleven members, elected by a majority vote.

The Students' Council promotes student activities, oversees student functions, and acts as a means of communication between the faculty and the student body.

The Council gratefully acknowledges the co-operation given them by Dr. McGilvray, the faculty, the student body, and the Students' Council at Toronto.

MEN'S INTERCOLLEGIATE ATHLETICS

Intercollegiate Athletics

THE University of Toronto athletes have again given a very good account of themselves in all types and branches of athletic endeavour. Although they relinquished the senior rugby and senior basketball championships to Queen's and Western respectively they have retained all the other senior trophies they held last year and added the senior track title to their list of accomplishments. Thus we find Toronto holding seven senior championships, McGill four, Western two and Queen's one.

The senior rugby championship was the most difficult of all to part with. This year it took twenty minutes overtime before Queen's could wrest the Yates Cup from the Blue team. However, the splendid victory of the senior track team over McGill, McMaster, Western and Queen's more than atoned for this loss. Varsity men placed first in nine events breaking three Intercollegiate records and tying one. Larry O'Connor set new marks in both the 120 yds. high hurdles and the 220 yds. dash. Dave Crichton set a new mark in the one mile run and Gord McHenry equalled the record for the 100 yds. dash. The senior soccer team was again entered in the Senior A grouping in which Western again finished first. The tennis team defeated McGill again to win the team title. Bruce Hall of Toronto was Intercollegiate singles champion. The golf team also were successful in their annual competition by winning the team title. Bob Reid made it a clean sweep for Varsity by winning the individual championship. The rugger team completed a successful season by defeating McGill for the Intercollegiate title for the fifth consecutive year. McGill University was successful in retaining the Harrier championship although Dave Crichton of Toronto was individual champion. McGill also garnered another victory before the Christmas holidays by winning the water polo championship. Queen's were entered in this series for the first time this year. In rowing, although McGill has withdrawn from Intercollegiate competition, we held a race with Syracuse University last fall which we hope will become an annual fixture.

The Boxing and Wrestling championship was retained after a close meet in Kingston. Fencing, which was held as a separate championship this year, was won by McGill, A. F. Garcia of Toronto being individual champion. Our Athletic Association this year presented two beautiful trophies, a team trophy and an individual trophy, for annual competition in this sport. They were named the Charles Walters trophies in honour of our fencing coach who has given so generously of his services for the past 15 years. In hockey Varsity finished fourth behind Queen's and Dartmouth but are looking forward to next year with high hopes. In senior basketball University of Western Ontario were successful in removing the Wilson Cup from Hart House, thereby winning their first senior basketball championship in ten years. In gymnastics, University of Toronto again defeated McGill, W. J. Lester of Toronto winning the individual championship. The swimming team completed the season in a blaze of glory by dominating the annual meet in every race. They also won four dual meets with United States college teams.

In Intermediate competition our athletes were again highly successful. They managed to annex titles in Tennis, Soccer, Hockey, Basketball, Swimming and Fencing.

However, more gratifying than titles is the underlying fact that nearly everyone is striving earnestly to perpetuate the athletic honour and ideals of this University. The personal sacrifices made by each and every man to produce the best that is in him do much to develop gentlemen and sportsmen. We, the Athletic Directorate, feel this is far more desirable than the mere winning of a game.

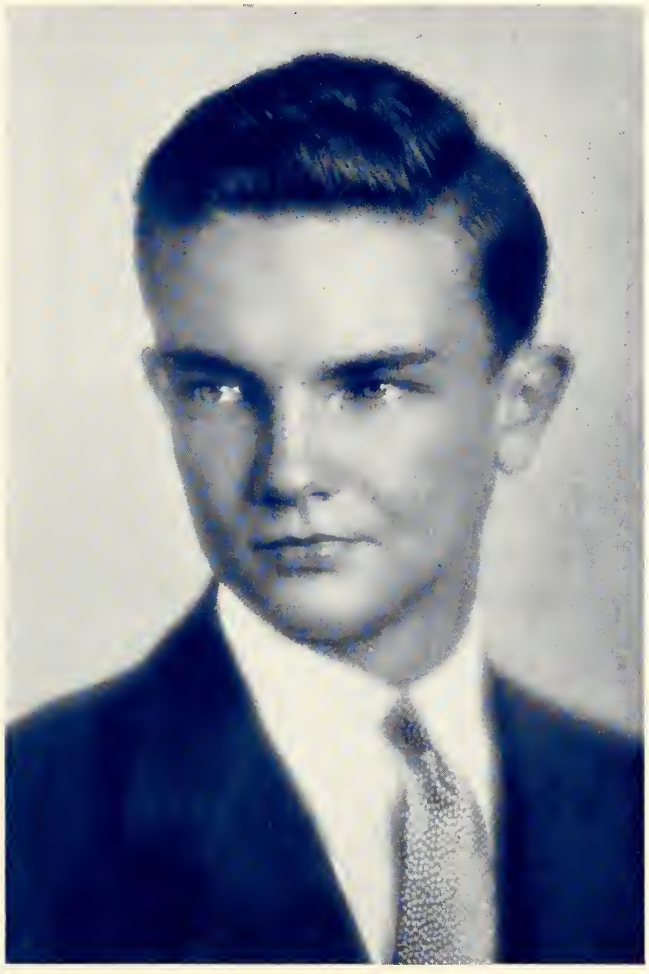
In Memory of "T.H."



Last summer Varsity lost one of her outstanding athletes. A gentleman, a sportsman and grand competitor, Thomas H. Bickle, Trinity, class of '38, leaves a vacancy that cannot be filled.

The T. H. Bickle Memorial Bursary, established by his parents, is a splendid way of keeping him with us. Let us hope each succeeding winner can measure up to those attributes "T.H." possessed in such a high degree.

This year the committee has selected a former team-mate and close friend of "T.H." as the first winner. An outstanding member of the Senior Swimming Team, Maurice W. Murphy of Wycliffe is a most worthy recipient of this high honour.

The Johnny Copp Memorial Trophy

THIS trophy, donated to the University of Toronto Athletic Association by graduates and undergraduates, is awarded annually to the member of the senior rugby team who, in that season by his sportsmanship, character and playing ability, is adjudged the most valuable member of the team.

This year the players selected Cam. Gray, who exemplifies most highly those qualifications as set out by the donors of the trophy. He is truly qualified to take his place with Al. Williams, Gus Greco and Bobby Coulter who have won it in other years.

Senior Intercollegiate Rugby

WITH only a skeleton of last year's championship team, Warren Stevens was confronted with a rebuilding campaign having on hand much promising but untried material from previous junior and intermediate teams. Therefore it was not until they decisively defeated Balmy Beach in the City Series that it was well proven that Varsity had a first class club for Intercollegiate competition.

The Intercollegiate season opened in Toronto against the Tricolour, Varsity winning by a score of 9 to 3. McGill was next in Montreal. Varsity held a sizeable lead in this dazzling game until the last second of play when the Redmen threw a pass for a touchdown picking up a 6-5 win. In a snowstorm, Varsity and Western fought to a 4-all draw in London, but in the return engagement the Mustangs went down before the Blues by a wide margin. The McGill game in Toronto was a very closely contested affair, a 40 yard placement by Cam Gray providing the winning touch. The final scheduled contest was played in Kingston in the perennial sea of mud. This was a crucial game, as a win or a tie would have closed the season then and there, taking another championship. But all high hopes were drowned when Queen's won. This loss necessitated a play-off to break a second-place tie with Western, the winner having the right to play Queen's in the finals. Again Varsity took Western in a one-sided game and were thus in line to meet Queen's The final game between these two evenly matched clubs was indeed an epic. At the end of full time the score was tied. In the overtime period Queen's gained the upper hand and went on to victory and the championship. Toronto had the doubtful distinction of being the first team to lose the Intercollegiate title in over-time.

Intermediate Intercollegiate Rugby

THE past season of the intermediate football team was marked by a change in policy. In previous years freshmen have always played on the junior team and only those not experienced enough to make the senior team were placed on the intermediates. This year, in an effort to bolster the intermediates and weaken the juniors and hence provide closer competition in both leagues, outstanding freshmen were placed on the intermediate team.

The results this year were not as marked as expected but the continued improvement of the team as the season advanced indicated that the new system had merit. The team lost the first four games of the season: O.A.C. defeated them 19-1; Western eked out a victory by an 8-5 score; MacMaster defeated them on two successive week-ends by 15-7 and 16-13. Hard luck featured all of these contests and it was only in the two remaining games of the season that they really showed their ability with well-earned victories: Western was beaten in London, 6-2, and they crowned the season's efforts and reversed the decision of a similar situation of two years previous when they eliminated O.A.C. from the league race by defeating them 8-7 in the last game of the year.

This year marked the return of Bobby Coulter to Varsity football. The improvement of the intermediates was a direct result of his good coaching and it is our hope that he will remain as a permanent member of the coaching staff.

Junior Rugby

THIS year the Intermediates took most of the star freshmen from the Juniors, but those who remained were moulded into a good rugby team by the expert coaching of Don Graham.

Although he is responsible for the teaching of the fundamentals of the game, the will to win, and the fine team spirit, which characterizes Varsity team sports, were also responsible for the fine showing of the team.

The Juniors playing in the Interprovincial Football Union, finished second, losing only two games against heavier and more experienced players.

Next year, with a nucleus of some of this year's players, the Juniors should give a good account of themselves, and it is hoped that more students will support this excellent training team for the Seniors.

Senior Intercollegiate Track Meet

SEVEN years of famine for the University of Toronto's track and field team were brought to an end with the holding of the thirty-fifth annual senior intercollegiate meet at Toronto, October 22, 1937. A strong and versatile Toronto team brought to an end the long domination of McGill and captured the title for Varsity for the first time since 1929. In the final accounting of the meet Toronto with 71 points was well in the lead. Next came McGill with 50 points, followed by Queen's with 22, Western with 17, and McMaster with five.

Pacing Toronto to victory and responsible for a great portion of the team's 71-point total were Larry O'Connor, Dave Crichton and Gord McHenry. O'Connor smashed two records, winning the 120-yard high hurdles in 14.6, and in the 220-yard dash he stepped home in 22.1 seconds. O'Connor also won the 220-yard low hurdles.

McHenry flashed over the line in the 100-yard dash in 10 seconds to equal the record. He also won the quarter-mile in a rousing sprint down the stretch that sent him across the finish line a foot ahead of McGill's Mason.

Crichton won the mile in 4:30.6 to break the record established in 1936 by C. A. Conway of the University of Toronto. He also won the half-mile in 2:00.6

Other winners were Trusler of the University of Toronto in the pole vault; Detweiler of the University of Toronto in the broad jump; Frankton of McGill in the three-mile run; Morgan of McGill in the discus throw and Peck of McGill in the high jump. The Toronto team of Delaney, Cassels, Armstrong and O'Connor won the mile relay.

Intermediate Intercollegiate Track Meet

A POWERFUL Ontario Agricultural College team dominated the Intermediate Intercollegiate Track and Field Meet and won the championship by a decisive margin. The O.A.C. team piled up a top-heavy score of 100½ points to lift the crown worn by the University of Toronto during the past two years. Toronto was runner-up with 41 points. McMaster, with 9½ points, was third and the University of Western Ontario, with 6½ points, was fourth. The meet was held at Hamilton, October 29th, 1937.

A biting wind that swept the track and numbed the competitors prevented the establishment of any new records. Only one record was equalled and that achievement was made by C. McEwen of the University of Toronto in the high jump, with five feet eight inches.

Only two other events were won by the University of Toronto. Stan Thompson won the half-mile with a time of 2:10.8 minutes, and Johnny Edwards won the pole vault with ten feet eleven inches.

Every other event was won by O.A.C. Leading the Guelph contingent in a concentrated attack on the events of the day were Young and Smith. The former placed first in the high hurdles, low hurdles and shot put, while Smith won the 100 yard and 220 yard races. Summers won the quarter-mile, Fletcher won the mile, Howitt the three-mile, McKay the discus, Holmes the javelin and McGowan won the broad jump. The O.A.C. team won the relay.

THE University of Toronto Harrier Club held the annual Interfaculty race over the High Park course on November 6th. Dave Crichton of S.P.S. won, with D. G. Huether of Wycliffe second. Wycliffe took the team championship with 24 points, S.P.S. being a close second with 26.

The senior Intercollegiate race was held in Montreal over the rugged McGill course. Dave Crichton of Toronto again established his superiority over Frankton of McGill. Crichton finished the 5 miles, first, in the good time of 31 min. 26 sec. However, the team championship was taken by McGill when they finished four men in the first six. After Crichton, the next Toronto man was Goodwin in tenth place. O.A.C. made a fine showing by finishing second. Their first man to finish was Eccles in fifth place. O.A.C. scored 31 points, Toronto was third with 41 and R.M.C. last with 51 points.

Intermediate Intercollegiate Harrier Team

The Intermediate Intercollegiate Harrier race was held at Hamilton on November 13th. H. Johnston of Western was individual winner. The first Toronto man to finish was J. E. DeWolf in sixth place. The team championship was won by O.A.C. with 16 points, Western was second with 23 and Toronto third with 39.

Senior Tennis

THE University of Toronto Senior Tennis Team successfully defended its intercollegiate title won last year. The team this year was made up of three of last year's team, Bill Piggott, Bruce Hall, Jack Tomlinson, and a newcomer, Paul Snyder of badminton fame.

Varsity placed two men, Bruce Hall and Bill Piggott, in the singles final with the former winning out. This is the first time that this honour has been held by a Toronto man since the days of Walter Martin and Dr. Arthur Ham.

Jack Tomlinson lost out in the second round of play to Pierre Dusseaules, the number one man of McGill, and Paul Snyder lost to Geo. Leclerc, the number one player of the University of Montreal.

In the doubles competition both teams lost out in the second round. Snyder and Piggott losing to Leclerc and Dusson, while Tomlinson and Hall were defeated by Pierre Dusseaules and Bill O'Brien, of McGill.

And so for another year the intercollegiate championship rests with the University of Toronto.

Intermediate Collegiate Tennis

THIS year Toronto acted as host for the Intermediate Tennis Tournament, the matches being played on the courts of the Toronto Cricket Club and for the third consecutive year we were successful in carrying off the championship.

The team was composed of two veterans, H. A. Phillips and K. Campbell, and two newcomers, C. J. Seagram and R. Campbell. At the conclusion of the first day's play Varsity had gained a commanding lead by capturing all its first round matches and dropping only one in the second round.

The outstanding player of the tournament was Jack Judge of Western, who annexed the singles title by turning back a fine effort on the part of Charles Seagram, Varsity's dark horse. The doubles title went to Phillips and Seagram, who defeated a strong team from O.A.C.

Unfortunately, inclement weather delayed the tournament and made playing difficult but, in spite of this, some excellent tennis was produced and every victory was well-merited.

Senior Intercollegiate Soccer

THE most important boost the game of soccer has enjoyed since the Great War took place this year when the Athletic Directorate raised the status of soccer to Division I. Having gained this recognition, soccermen are looking forward to steady progress for this branch of University athletics during the coming years.

Varsity was indeed fortunate in securing the services of Mr. E. R. Slade, Toronto high school teacher and popular mentor of many championship soccer clubs in Toronto and Ontario, to coach the blue and white teams. Under his guidance the Senior team just failed to capture the Blackwood Trophy when they dropped the final game of the season to O.A.C. by a 1-0 count. Lacking the individual outstanding players of former years, Varsity fielded a more balanced aggregation, strong defensively and in team play. Only weakness around their opponents' nets was responsible for their not taking the title.

This year's graduates will include such fine players as Alex Sim, Captain; Shamandurov, Harvey Ward, John Evers, Dick Simpson and R. F. Thomson, Manager.

Intermediate Intercollegiate Soccer

THIS year's team brought to Varsity her first intermediate intercollegiate soccer title. Tied with O.A.C. at the close of the season in points, the blue and white team were awarded the championship by virtue of a higher goal average. Much credit must go to Mr. Slade for this team's fine display. Outstanding all year was the playing of Mason and Simmonds, a pair of hefty backs; the half-line of Johnson, Longworth and Townsend, and the attacking brigade of Thompson, McAdam, Bush and Menzies. R. McAdam captained the team with R. F. Thomson, manager.

The Soccer Club executive consisted of D. Pacey, President; A. Menzies, Vice-president, and E. L. Simmonds, Secretary.

English Rugby

ON the whole a successful season was enjoyed. It was, however, marred by the lack of competition. Local teams in the city which are usually depended upon for competition remained unorganized this year. Twice an All-Star aggregation met the Varsity Team and twice it was defeated. Progress, too, was interrupted by the postponement of the opening date of the University.

However, the Intercollegiate title again came to Toronto by virtue of a victory over McGill in a very closely contested struggle. It is unfortunate that Queens for two years past have been unable to field a team. We wish them better fortune in the future. An outstanding feature of the season was a match with the Chicago Rugby Club. While smarting under a 10-0 defeat at home, the team was disappointed to learn that, owing to circumstances beyond the control of the University authorities, a return match could not be arranged. The international tone introduced by the match is highly commendable.

This year the largest island in the world again came to our aid. Christensson and Gengos from Australia followed worthily in the footsteps of their great predecessor Vincent. Their help proved valuable to the team as a whole.

Once again we doff our hats to the unfailing energy and great love for the game which is personified in that "little fatman" Jimmy, as he is fondly known to the team. Mr. Bowles' contribution to rugger at Varsity is immeasurable. We hope he will stay with us for many years—his spirit and coaching ability have won many tough battles. Five years we have reigned as Intercollegiate Champions under him, and received our first defeat in as many years at the hands of the Chicago Club this year. Truly a worthy record.

University Golf Club

DUE to the delayed opening of the fall term this year, the qualifying round for selecting the University Golf Team was forced to be deferred also, in spite of the increasing uncertainty of the weather for golf. The men who qualified to make the trip to Montreal were Ken Williams, Bill Laird, Bill Belfry, Lee Symmes, Sonny Morse and Bob Reid, accompanied by Jack Boechk, who was Secretary of the club. The Individual Intercollegiate Tournament was held at the Summerlea Golf Club in Montreal on October 15th, over a 36-hole route, with an entry of six men from McGill, four from R.M.C. and the above Toronto team. The low-scoring honours for the day went to Bob Reid of Varsity, who turned in a score of 158 under the most unfavourable weather conditions, to bring the individual championship cup to Toronto after it seemed to have found an almost permanent resting place at McGill. At the same time the Toronto team played match play against the team from McGill, continuing the next day in the form of an eighteen-hole two-ball foursome. Varsity again came through here to make it a double victory for Toronto and capture both cups for the 1937-38 season.

On February 11th, the University Golf Club met to elect its 1938-39 officers. The Captain, Ken Williams, who is the only graduating member of the present team, was replaced by Bob Reid, and Jack Boechk was re-elected Secretary. With the team almost intact, they will form strong opposition for the McGill team, who will be entertained here next October, and will look forward to the continuance of a most successful golfing year.

Senior Intercollegiate Hockey

ANOTHER winter is past, and another hockey season. The cheers for our football team had hardly died in Varsity Stadium when, in the middle of November, the candidates for the hockey team had their first practice.

On December 27th—hardly time for our Christmas dinners to digest—we left Toronto for the annual trip to the States, our immediate destination being Minneapolis. Here two games were played with the University of Minnesota, with whom we shared the victories. From there the team entrained for New York, which was to be the headquarters for our remaining games with McGill and Montreal at Rye, with Princeton and Yale. The heart-break of the trip was the game with Yale, from whom we managed to eke out only a draw.

From that time till the end of February we were engaged entirely with Intercollegiate games. The following teams, Dartmouth, Harvard, Montreal, Queen's and McGill, played in Toronto—and McGill gave us our only defeat on home ice. We visited the three Canadian Universities in February, but of these, Montreal was the only team we managed to beat.

The season officially ended on March 5th with a game with the University of Michigan at Ann Arbor. When one considers the season fully, one realizes that the University of Toronto has no reason to be scornful of its hockey team —especially when allowance is made for the inexperience of some of its players—men, however, who improved rapidly and will continue to do so. Of the nineteen games played, we won eleven, lost seven and tied one.

We shall not single out players for honourable mention. That seems unfair in a team whose success depends on the proper co-operation of its individuals. It is sufficient to say that they always came up to the mark, when there was need—none of the team's defeats was dishonourable.

Junior-Intermediate Hockey

THE Intermediate Hockey Team terminated a seventeen-game schedule by bringing to the U. of T. its first Intercollegiate Hockey Championship in years. They began the long grind as Varsity's entry in the O.H.A. Junior "A" Series. As is well known, Varsity is at once handicapped when entering competition with these hand-picked city teams. However, with apparently mediocre material, Coach Jimmie MacPherson succeeded in rounding into shape a willing-to-learn team that emphasized team work and fight.

Although their Junior O.H.A. record showed only two victories, the Juniors, captained by Jack "Pest" Maynard, caused many a gray hair to sprout on the heads of the opposing coaches. Marlboros, who romped through to twelve consecutive victories in group games found themselves behind in the score during the regular schedule only once. In their second encounter with Marlboros, Varsity stubbornly overcame a three goal handicap to lead 4-3 until the final three minutes of the game. The ending is now history, but Marlboros won, 5-4.

Five victories in their five-game series with Western, McMaster and O.A.C. brought to the Intermediates the I.I.H.U. Cup. Although the competition was not on the whole as strong as in the O.H.A. series, their scoring record of 35 goals compared with 10 scored against them stands out impressively.

Senior Boxing, Wrestling and Fencing

FOR the second year in succession, the Boxing and Wrestling teams won the Tom Gibson trophy, emblematic of the senior Intercollegiate championship. This year the fencers competed for a separate championship. The Charles Walters Trophies were presented for competition in this sport by our Athletic Association, a fine tribute to Varsity's fencing coach.

After the Christmas vacation, training began in earnest and all three teams had several outside engagements. On January 29 the University of Buffalo wrestling and fencing squads visited Toronto. The boxing team went to New London, Conn., where they fought the U.S. Coast Guard Academy. The wrestlers and fencers played host to teams from St. Lawrence and Wayne Universities respectively on February 5. The next week-end the boxers and wrestlers travelled south, the former visiting Cornell and the latter Rochester and Alfred. A return engagement with the University of Buffalo wrestling and fencing teams took place on February 19. The Senior Interfaculty Assault was held on the 14th and 15th of February.

The senior Intercollegiate championships were held in Kingston on the 25th and 26th of February. Toronto, although not too optimistic beforehand, emerged victorious. The boxing team won three final bouts, Dillon, 118 lbs., Parker, 135 lbs., and Pigott, 165 lbs. The wrestlers won four, Brunet, 118 lbs., Keefe, 125 lbs., Schwenger, 165 lbs., and Lathrop, heavyweight. The fencers lost the Chas. Walters team trophy to a powerful McGill team by a slight margin, but Garcia of Toronto won the Charles Walters individual.

Senior Intercollegiate Swimming

THE Senior Intercollegiate Swimming meet held in Hart House this year saw the University of Toronto team decisively retain its championship by a score of 50-14-13.

One record fell during the evening as John Girvan completed the 200-yard breast stroke in beautiful style to lower the old mark by a full four seconds. Hicks of Toronto came just behind managing to equal the former best time.

Murphy again displayed outstanding form in winning both the 50-yard and 100-yard free style races. The latter win retains for him the Neil Buckley Trophy which he won last year. Second place in the 50-yard fell to George Otter of Toronto while Ged. Clawson captured second place in the 100-yard free style in a dash which almost caught Murphy. Dobson of Varsity won the diving from Ivan, last year's champion. Murphy, Otter, Clawson and Earl formed the winning 200-yard relay team and missed a record only through a mistake in timing an underwater finish.

This victory marked the climax of Varsity's most successful swimming season for in addition to defeating McGill and McMaster they won 4 out of 6 meets with U.S. college teams.

Intermediate Intercollegiate Swimming

THE Intermediate swimming championship will be held by Toronto for another year. In the meet held in the Hart House Pool on March 4, Toronto took an early lead which they were easily able to maintain. The final score gave Toronto 45, O.A.C. 4, Western 2 and McMaster 1.

The breaking of three Intermediate Intercollegiate records, two by Varsity, featured the meet. In the medley relay, D. Jennings, Hampson and Johnston took 4.6 secs. off the old record. Lloyd Hampson took 1/5 sec. off the old record for the 300 yds. free style. Knowles of O.A.C. broke the third record in the 100 yds. sprint by reducing the old time of 60 secs. to 58 secs.

Hampson proved the best man on the Varsity team carrying off first place in the 300 yds. free style, the 200 yds. breast stroke and swimming on the winning medley relay team. D. Jennings made good time in the medley relay and won first in the 100 yds. back stroke. In the diving Clarkson carried off first with ease.

Captain Gage Love took second in the 50 yds. sprint and was a member of the winning 200 yds. relay team which was composed of Love, Axon, Harvey and Harkness.

This is our second swimming championship this year which can be attributed to Coach Wince McCatty's good work. He has now brought the boys to four championships in two years.

Intercollegiate Gymnastic Team

THE Gymnastic Club closed another very successful season in February at Montreal, winning the Intercollegiate Gymnastic title, Team and Individual, for the sixth successive year.

Bill Lester, of S.P.S., winner of the Don Barton trophy last year, annexed the Individual Championship this year, as well as third place in the Senior Provincial Competition. L. A. Patterson, also of School, rejoined the team after a year's lapse and by his good work and good fellowship won the Don Barton trophy for 1938. W. H. Powell, also an engineer, was a bulwark on the squad, winning the Intercollegiate Tumbling Championship. J. M. Toye, Victoria II, continued his last year's good work and won fourth place at Montreal. E. S. Macdonald, captain of the team, by virtue of being the "oldest resident", was tied for second place in Montreal and was awarded a Bronze "T" for having won colours three times.

The team will be back next year, as a whole, and should continue to prosper and keep thin under the guidance of Mr. Charles Zwygard, who has turned gymnastics at Varsity into a popular and productive sport, and who is chiefly responsible for these six consecutive wins over Montreal.

Alan Keith, class of '08, has also given much of his time for years in assisting in the coaching of the team and his help has been greatly appreciated.

Intercollegiate Water Polo Team

AFTER overwhelming Queen's, newly entered in the Intercollegiate League, by a 10-1 count at the Knights of Columbus pool in Montreal in the annual Intercollegiate water polo series last December, the Blue team was forced to bow to McGill to the tune of 4-1, and to relinquish their hopes for an Intercollegiate championship for another year.

The team this year was composed of only three veterans, G. Otter, T. Statten and Nels Earl; all the rest were new men: B. McGill, N. Brown, S. Lipin, R. Taylor, W. Laari and J. Adams. Despite this dearth of experienced men, Coach Winst McCatty welded together a team that in ideal water polo conditions probably could have beaten even the Redmen.

In the game against Queen's, Toronto displayed plenty of scoring punch and staying powers, running up 10 goals on a hard-fighting but rather inexperienced Tricolor squad. J. Adams accounted for two of the ten goals, W. Laari one, N. Earl one, and S. Lipin six. Against the stonewall defence presented by the Varsity defence, G. Otter and T. Statten, Queen's were able to score only a single tally.

Against McGill it was a different story. Although Varsity played a great game they lost by a score of 4-1.

Senior Intercollegiate Basketball

UNIVERSITY OF TORONTO'S senior entry surrendered their basketball crown to University of Western Ontario after a close and exciting race which saw Western win six straight games and Toronto bow to the new champions for her only defeats of the Intercollegiate year.

Varsity's representatives were conceded little chance of being troublesome in this year's race. Coach Warren Stevens was faced with the problem of rebuilding, as most of his regulars of last season were lost to the team by graduation. Only Captain Johnny Powers and Frank Dougherty remained from last year's starting five. This pair with the addition of Nels Hogg, Frank Dempster, Tom Sullivan, Walter McGregor and D. A. Gordon, carried the brunt of the season's battles. With the exception of Walter McGregor these men will be lost this year by graduation.

Four games, two with McGill and two with Queen's were all won by comfortable margins and the first encounter against Western was only lost by two points. The last game of the year was played in London and a win for Toronto was needed to tie the standing. Western's representatives, older and more experienced, had been knocking at the championship door several seasons and were not to be denied.

Intermediate Intercollegiate Basketball

VARSITY Seconds retained the Intercollegiate championship which has been in their possession for the past five seasons. Despite the winning of the championship this year's team was not successful in keeping intact the record of consecutive wins which started in 1933 and was broken on February 18th, 1938, when McMaster won in Toronto by a 24-20 score.

The season opened in the usual manner with the Blue and White winning their first three games by large scores. McMaster were defeated 56-23 in Hamilton and Western were easily outscored on their Toronto visit.

Then came the slump unaccountable and unexpected. The next two games were lost to McMaster and O.A.C. and the winning streak was stopped at 26 games.

The Varsity representatives were faced with one more game, Western in London. A win was necessary to take the championship. At the end of the first half Varsity was leading by a scant 3 points but in the last period shook off the slump and emerged with a 31 to 15 victory.

Coach John McCutcheon had almost an even number of veterans and newcomers. Captain John Mathews, Bob Rouland, Ned Green, John Flynn and Jack Brown were all members of last year's championship team while Leo McLaughlin was a member the year before. Eugene Humeniuk who was outstanding all season was a member of last year's Junior championship squad. Harold Axon came to the squad from Simpson Juniors, Toronto, while Hubert Gaynor, Frank Minehan and Roger Sheehan came *via* St. Michael's College.

University of Toronto Rowing Club

PROFESSOR T. R. LOUDON'S resignation as coach, last year, made the future of Varsity rowing look pretty black.

Rowing was started here in 1920 by Professor Loudon and he coached many championship crews which attained records held by no other club. He started Canadian Intercollegiate rowing and coached Varsity crews that won eight annual races—out of ten—from McGill, who have now given up rowing through lack of finances.

In June we were fortunate in getting Dave Soper to take over the megaphone. There is no more experienced or enthusiastic oarsman in Canada. Despite a shortage of men, due to our late start, a Varsity four made a very good showing at the Canadian Henley.

At the end of September we moved our equipment from John Street to the Argonaut Club. Training starting on September 28th, Varsity raced Syracuse University Varsity eight on the Onondaga River (1⅛-mile course) on October 23rd in a Syracuse shell. Our men were outweighed on an average of 25 lbs. per man, yet finished only one-half length of open water behind Syracuse, winning their first colours.

On October 15th the First Annual Loudon Regatta proved a success and a good crowd was entertained with an afternoon of amateur racing. Next fall the regatta will be included in the intramural activities.

This year Varsity is rowing from the Argonaut Club. The Athletic Association has purchased four work boat singles to stimulate recreational rowing. With this ahead we are looking forward to a most successful season.

University of Toronto Ski Club

THE Varsity Ski Club has been in existence for some years as a competitive club but this year was the first that recreational skiing has been sponsored. All undergraduates entitled to athletic privileges (some 5,000 men and women) were automatically members of the Varsity Ski Club.

The introduction of an athletic fee by the Board of Governors last fall provided them with the opportunity to develop a real club spirit. Skiing privileges were secured on Newton's farm a mile west of Sir William Mulock's property just north of Aurora. A cabin was built and several new trails were cut.

From the first snowfall of the winter the Club was a success. The practice slopes and cross-country trails were used by hundreds of students each week-end until the early thaw in February. This prevented any championships from taking place but the optimists still counted on being able to ski in March.

Instructional ski movies were shown early in January which were very successful judging from the large audience that attended.

A bus was run on two week-ends so those who did not have cars could reach the Ski Club and enjoy the skiing along with their more fortunate fellow-students.

Looking forward to next year we expect to see student interest reach a new peak of enthusiasm.

Intramural Activities

ATHLETICS and sports for all are rapidly becoming a reality at the University of Toronto. In this, the second year since its inception, the Department of Intramural Activities will again show a substantial increase in student participation and general interest. With the increase of this year following that of 30% last year, we are running almost to the capacity of our present facilities.

The race for the T. A. Reed Trophy, emblematic of the Intramural High Point Championship, has been exceptionally close this year. At the time of publication, School of Science has a scant 24 point margin over Wycliffe College. Trinity College, last year's winner, is a close third. The two leading colleges, despite the great difference in registration, have to date amassed a total of 3,234 and 3,211 points. Designed to give the smaller colleges an equal chance with the larger ones, the High Point Championship has more than served its purpose. The race for the trophy lasts throughout the University year and the standing at all times shows the smaller colleges having an even chance with the larger.

The interest is general throughout the University. This is shown by some of the following high lights of the year. Statistics from University College show a 71% increase in Intramural competition and the college is increasing its athletic grant to take care of the rising demand for sports.

Wycliffe, one of our smallest colleges, has held the lead in the trophy race for the greater part of the year. At the preliminary swimming races 30 Wycliffe men participated while 20 cheered them on, this from a total registration of about 60. The Faculty of Dentistry reports the greatest amount of participation on record.

Twenty-one fraternities were organized into a Fraternity Athletic Association and operated leagues in baseball, basketball, squash and badminton. Residence, Year and Course activities were supervised by the department and showed a marked increase.

The Intramural Sports Committee, composed of the athletic representatives of each of the thirteen faculties and colleges, met weekly. This committee handled the general organization of the programme and were of great assistance to the Athletic Directorate of the University. W. M. Sprules, Trinity, was the chairman, and John E. McCutcheon, Supervisor of Intramural Activities, acted as secretary.

University of Toronto Jiu-Jitsu Club

THE "Judo" Club this year carried a capacity membership of twenty-five men. The work of the two previous pioneer years has shown to great advantage and seven men now are privileged to wear the "Brown Belt". Art Menzies, George B. Donaldson and Pat Cavanaugh hold the highest rank in this division and are now ready to be examined for their "Black Belt" which is the highest award in Jiu-Jitsu and may only be attained in two places on this continent, New York and Vancouver.

The Club was capably instructed by Rev. T. Matsumoto, assisted by Mr. Art. Menzies, Mr. George Donaldson and Mr. Pat Cavanaugh. These men, who are students at the University, deserve great praise for their efforts throughout the year.

The Judo Club has become famous throughout the province and has given exhibitions of Japanese Fencing and Jiu-Jitsu at the Midland Winter Carnival, the Children's Ice Carnival at Maple Leaf Gardens, the Alumni Night at Hart House, as well as other places too numerous to mention.

The Club meets three times weekly and monthly tournaments are held where promotions are made when deserved. Rev. Mr. Matsumoto, a native Japanese who is a divinity student at Trinity College, and Mr. Menzies are the only two who had any knowledge of Jiu-Jitsu prior to the formation of the University Club. It speaks well for the coaching and for the general interest of the club members that seven men now hold their "Brown Belt" and sixteen men are holders of degrees or "Kius" in the "White Belt" division.

Rev. Mr. Matsumoto is returning to his native home and will carry with him the appreciation and good wishes of all members of the Jiu-Jitsu Club.

Trinity College Amateur Athletic Association

IN the field of Sport, Trinity has enjoyed a good year. Although no Inter-faculty championships have been won so far, Trinity has gained a fair number of points in each competition. With the graduation of the last two years, many prominent names in sport have vanished from the Anglican halls. We recall, with a sigh, such names as Conway, McCatty, Ripley, Buck. However, we hope to survive the lean years (hoping they are not seven) and blossom forth once more into Athletic splendour. It may be that we can, without too many twinges of conscience, rest easy upon our oars and bask in the glory of last year's effort. At the beginning of the current term we had hoped for a repetition of last year's victory. Fate decreed otherwise. We can heartily endorse the opinion of the College as a whole, and join in congratulating each and every athlete who enabled Trinity to emerge victorious in the initial struggle for the T. A. Reed Trophy. And to the efforts of the men of College in this year's competition we would direct congratulations every bit as hearty.

This year the Athletic and the Old Boys' dances were combined. It was a very successful function and was thoroughly enjoyed by all. It is to be hoped that serious consideration will be given to the advisability of a permanent combination, although a precedent was not intended.

The Medical Athletic Association

THE Medical Athletic Association is comprised of every undergraduate in the Faculty of Medicine with the exception of the ladies. The governing body is elected annually by the student body. The Executive controls all athletics of the Faculty.

The members of the Executive include the following: an Honorary President, chosen from the Faculty; a President, Vice-President and Secretary-Treasurer, chosen from the Sixth, Fifth and Fourth Years, respectively, and elected by all the undergraduates, and a representative from each of the first three years. The purchasing and preservation of equipment is the sole duty of a Quartermaster, who is chosen by the members-elect on a basis of experience in this particular field.

This past year has been a very successful one for the Medical Faculty, not so much from a view of competitive success but rather from the more important viewpoint of total number of men engaged in competition. The latter aim is the primary one of the Executive, and this year marked the beginning of a new annual competition for the James Kinnear Memorial Trophy, donated by Fourth Year, emblematic of the Medical Undergraduate Squash Championship. An entry list of nearly a hundred men was the encouraging response to our effort to encourage and foster sports calling for individual endeavour with an eye to the post-graduate welfare of the athletes.

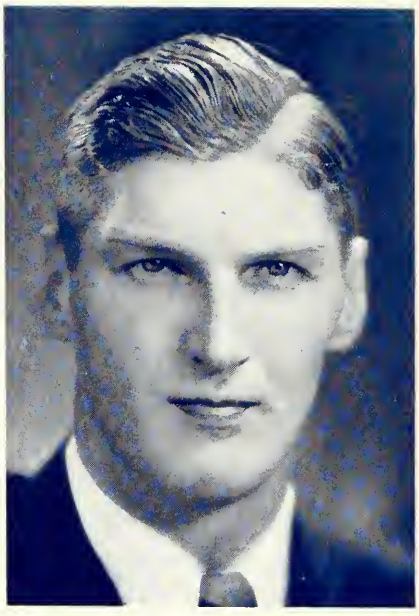
S.P.S. Athletic Association

IN the past years "School' has been noted for its high caliberd spirited teams and this year has not been the exception to the rule. Not only has "School" fielded outstanding teams of her own this year, she has also supplied a large number of players to the University teams.

The new Intramural Sports Committee is now functioning smoothly and "School" is in the thick of the fight for the coveted "T. A. Reed Trophy," symbolic of Intramural Sports supremacy.

In capturing and retaining championships, Schoolmen have had their share of success. School has captured to date, Outdoor Track, Boxing, Wrestling and Fencing, Swimming, Gymnastics and Lacrosse and are still in the running for a few of the other championships.

Our hope for the incoming executive is that they regain a few more championships.



NELSON HOGG

The Bronze "S"

THIS year the graduating class awarded the highest athletic honour that is within its power to Nels Hogg and few disputed the decision of the majority. Nels has been one of the really outstanding athletes in the whole of Varsity, not only because of his versatility but also for his sportsmanship and team play.

The "Star" has probably been best known for his achievements on the basketball floor. Starting with the Junior Varsity team as a freshman, he has risen through the Intermediate ranks in second year to the Senior team for the last two years. This year he was one of the leading scorers of the Varsity squad playing centre on the first string team.

However, that is only part of the story. Between taking in the odd lecture in class and riding the T.T.C. to and from East York, Nels found time to play rugby, lacrosse, baseball and water polo for School in the Interfaculty groups. On these teams, he could be counted on to do his part as efficiently and thoroughly as any man on the team in both practices and games. The standing he holds with his team-mates is probably even higher than with the spectators.

Still that is not the whole story. He vehemently denies it but facts show that Nels is one of those living proofs that athletics and studies will mix. An honour man, he is just as much a leader in class affairs as in sports.

The graduating class is proud of Nels' record and sincerely wishes him every success in the future. Judging by his life at School, they will be many.

Absent: J. J. Pigott, W. C. Schwenger, A. B. Scott, W. D. Ramore, G. S. Wilson, G. K. Dymond.

S.P.S. Boxing, Wrestling and Fencing Teams

FOR the second consecutive year, School has succeeded in pounding and squirming its way to victory in both the Junior and Senior Assaults.

In the Junior, although not winning by quite as wide a margin as last year, still there were enough enthusiastic engineers on hand to overcome the ambitions of the fighting ministers from Wycliffe who placed second. The Junior champions from School were: in the boxing, Carmichael at 118 lbs., and Ramore at 145 lbs.; and in the wrestling, Mustard at 125 lbs., Grasley at 155 lbs., and Ford at 165 lbs.

When the Intercollegiate teams were chosen, S.P.S. was well represented in both branches of the mitt and mat sport. The successful engineers were: Hood, 125 lbs.; Barnes, 135 lbs.; and Pigott, 165 lbs. in the boxing; and Schwenger, 165 lbs.; Scott, 175 lbs.; and Lathrop in the heavyweight division for wrestling.

In February, the Senior Assault was contested and School rose nobly to the occasion to defend the Davidson Cup, won last year in a manner which left no doubt as to the proper trophy cabinet for that emblem of supremacy in the manly art of self-defence. The Interfaculty champions wearing the Blue and Gold in the boxing were: Carmichael, 118 lbs., Hood, 125 lbs., Barnes, 135 lbs., Ramore, 145 lbs., and Pigott, 165 lbs. In the westling, Mustard, 118 lbs., Archer, 155 lbs., Schwenger, 165 lbs., Scott, 175 lbs., and Lathrop, heavyweight, were the championship winners.

Schoolmen dominated Varsity fencing this year with Bob Wilson and Al Garcia occupying two of the three berths on the Senior Intercollegiate Team and Garcia again capturing the Individual Intercollegiate Championship. In the Senior Assault, Garcia won the sabre competition and Wilson, the epee, while both placed in the foil tournament, ranking second and third respectively. Dave Fensom was runner-up in the sabre competition and captained this year's successful Intermediate Intercollegiate Team.

S.P.S. GYMNASTIC TEAM

S.P.S. Gymnastic Team

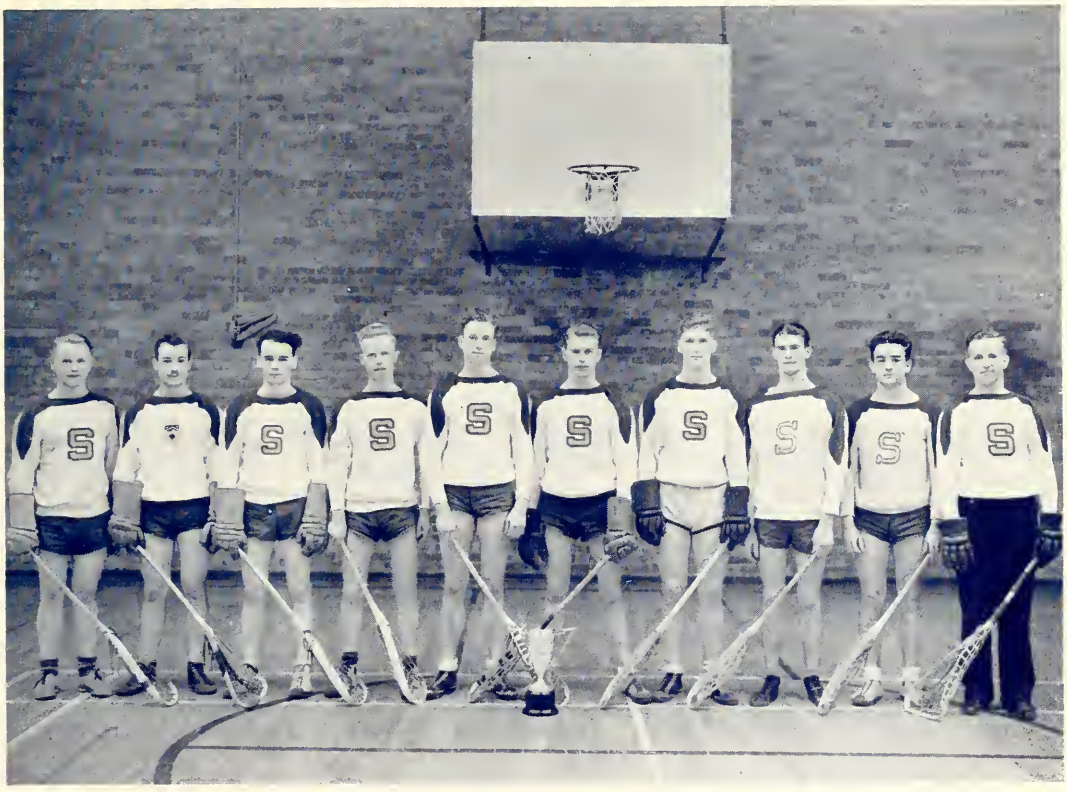
SCHOOL for the second year in succession, has lived up to expectations in winning the Wilson Trophy, symbolic of the Interfaculty Gymnastic Championship, with a team made up of W. Lester, L. Patterson, H. Powell, F. Dobson and J. Ames, four of whom were on the Intercollegiate Team. School was hard to beat and came through by a wide margin.

This year our team was somewhat enlarged, two new men, Ames and Dobson securing places. Both these men made fine showings in the Junior meet, and next year with a little luck, should be near the top of the lists.

The individual honours this year go to Bill Lester, who, although he did not do very well in the Interfaculty meet, won the individual honours in the Intercollegiate meet. Bill also placed third in the Ontario Championships.

Willie Mark, the "grape nuts boy" of the team, performed outstandingly at the Ontario Championships to win individual honours on the rings. Willie is to be credited for this as the rings were only installed in the gym this year.

School at the present time has quite a strong team, but this will not last. New men are needed. Freshmen especially are urged to turn out, to help fill in and retain the cup another year.



S.P.S. SENIOR LACROSSE TEAM
DAFOE CUP WINNERS

M. Robinson, S. Murray, B. Ballagh, R. Rule, C. Archibald, W. Atkinson, N. Hogg, A. Graham, J. Gorman, E. Russell.

S.P.S. Senior Lacrosse Team

ONCE again the Dafoe Cup rests for another year at "School", landed there for the third time since 1935 by the same gang of fellows.

The team experienced little difficulty in winning the group. made up of University College, Pharmacy and Senior School. Then a round robin series was played off with the winners of the other two groups: Junior School and Victoria. Owing to the fact that the manager was out of the game, due to illness, Senior School won easily, completing the season without a defeat.

Ballagh and Murray are without doubt the best two lacrosse players in the league. Bill Atkinson on defence starred in every game as did Earl Russell in goal. These four along with the so-called coach made up the first or "scoring line".

The other, known as the "fighting line", was composed of Archibald, Gorman, Hogg, Robinson and Graham.

Every fellow on the team could go both ways breaking into the scoring column in some games at least. Hogg, Gorman and Archibald were much improved over last year, as were Robinson and Graham.

If this gang, that won the first lacrosse championship back in 1934-35 can hang together until next year, you can safely bet on School keeping the Dafoe Cup.

S.P.S. SWIMMING TEAM
INTERFACULTY CHAMPIONS

Second Row: W. Veal, W. Laari, D. Jennings.
First Row: J. Girvan, I. Jennings, G. Otter, F. Dobson.

S.P.S. Swimming Team

THIS year has been the most successful enjoyed by the School swimmers in many seasons, and their efforts have been rewarded by the return of the Fitzgerald Trophy to S.P.S. Both the Junior and Senior Interfaculty Championships were captured, and also School contributed generously to the University's Senior and Intermediate Intercollegiate Championship Teams.

In the Junior Interfaculty meet held in November, S.P.S. amassed a total of 26 points to lead the field. D. Jennings, Girvan, and Walsh won the medley relay, and other firsts were registered by Dobson in the diving, D. Jennings in the back stroke and Girvan in the breast stroke. Veal got a third in the 50-yard free style, and the School relay squad, Veal, Laari, Walsh and McLean, took third place in the 200-yard relay.

The Senior meet in February was one of the best ever staged in the Hart House pool, with School coming from behind to nose out the U.C. team by 6 points, with a total of 28. The medley relay team, I. Jennings, Girvan and Laari, came second, and another second was registered by Dobson in the diving. School's backstrokers stole the show in their race with I. Jennings winning and D. Jennings third. Otter took third in the 100-yard free style. The stand-out performance of the evening was Girvan's win in the breast stroke, which set a new record by nearly 6 seconds. To clinch the meet for School, the 200-yard relay team, Laari, I. Jennings, Veal and Otter came in first.

Four Schoolmen swam on the Varsity Senior Team and counted for nearly half the total points in the Intercollegiate meet. I. Jennings and Girvan were on the winning medley squad. Dobson won the diving, and Girvan won the breast stroke, here also in record form, to break the old Intercollegiate mark by nearly 4 seconds. I. Jennings and Otter got seconds in the back stroke and 50-yard free style respectively, Otter also swimming on the winning 200-yard relay.

In the Intermediate Intercollegiate meet, School was represented by Harkness and D. Jennings. The latter was on the winning medley, which set a new record and won the back stroke.

Absent: D. Critchton.

S.P.S. Outdoor Track Team

FOR the first time in three years S.P.S. came through strongly to win a decisive victory in the Interfaculty Outdoor Track meet and once more acquire the Rowell Memorial Cup. It was a team that depended for the main part on two strong runners but also one which needed and did receive the support of the entire team.

In the sprints Gord McHenry displayed great form to place first in the 100-yard, 400-yard sprints and second to Larry O'Connor, Intercollegiate record holder, in the 220-yard run. In the distance events, Dave Crichton came through with three firsts, the half mile, mile and three mile. His performance in the mile set a new Interfaculty record, one of the few broken at the meet.

It remained for the relay team to take the winning points when they warded off a last effort on the part of Victoria, our nearest competitors. Much credit also must be given to the supporting members of the team, who by placing in the events paced by these two stars, kept S.P.S. in the running.

In the Intercollegiate meet a week later, McHenry and Crichton were important factors in Varsity's victory over McGill. Gord came through with two firsts and a second and Dave with two firsts and a third, one of his firsts being a new Intercollegiate mile record.

The outlook for the next few years for S.P.S. seems bright and we can look forward confidently to a prominent spot in the track sun.

Dental Athletic Committee

ATHLETICS at the Faculty of Dentistry are controlled by the Athletic Committee. This committee consists of a representative of every branch of interfaculty sport and these representatives are elected annually by the students' vote. The President of Athletics is elected from this committee and holds a seat in the Students' Parliament.

This year the Dental interfaculty teams have enjoyed very good success. They have won the volleyball championship and at the time of writing were leading the league in hockey and did creditably in lacrosse and basketball. Dents were close to the top in the interfaculty point standing.

Besides interfaculty athletics, Dentistry is well represented on the various intercollegiate teams.

Dental Sports

THE past year has been a very successful one in sports for those teams representing the Faculty of Dentistry. In the early part of the year both the Volleyball and Lacrosse Teams qualified for playoffs with the Volleyball Team going on to win the championship. The Hockey Club led their league from the very start of the season, but hit a snag in the playoffs and were eliminated in the semi-finals. The baseball season has not yet finished at the time of writing, but Dents have a powerful team and may win this championship. As a Faculty, Dentistry finished high in the running for the Reed Trophy.

Ontario Veterinary College Athletic Association

THE Ontario Veterinary College Athletic Association is proud of its progress. Although hampered by the lack of athletic facilities on the campus, the association has two fighting teams, a basketball and a hockey team, entered in inter-city and intra-city competitions. Both teams have in the past turned in very creditable records and this year are sure to better themselves—with the basketball team under the coaching of Doctor Potter, an ex-star himself, and the hockey team under the sincere tutoring of Doug. Burley, an active fourth year student.

Last year a new award sweater and crest was inaugurated which is very desirable to the graduating athlete. This award is difficult to obtain, requiring three years of competition with fifty per cent. of the playing time.

Inter-year sports had the enthusiasm of those students less talented in the individual activities and these games are not lacking in pep.

The O.V.C.A.A. looks forward to a bright future.

Women's Intercollegiate Athletics

THE programme of the various sports sponsored by the Women's Athletic Association, with the exception of bowling, was completed by March 14th and it may safely be said that competition was never keener than it has been this year nor have the participants had more enjoyment. Intercollegiate championships were well divided, Western retaining the basketball and Toronto the swimming, while Queen's won the tennis, with McGill providing the individual champion, and McMaster winning its first intercollegiate championship in the badminton tournament which was started only this year. The interfaculty championships were also much more evenly distributed than last year, with Victoria retaining the tennis and baseball and U.C. the swimming. St. Hilda's won back the hockey cup after a number of years' absence and U.C. for the first time won the badminton. Most popular of all was St. Michael's first winning of the basketball cup which was most generously applauded by all teams in the series.

Unfortunately the weather offered for the interfaculty golf tournament at the Ladies' Golf Club in October was as unfavourable as it could well have been and only a small entry braved the elements.

The college and interfaculty tennis tournaments had large entry lists and Claire Walsh once more won the University championship. The intercollegiate meet in Montreal provided an upset when Claire was beaten in the final by Barbara Barnard of McGill. Queen's won the doubles and the championship with 11 points, while McGill and Toronto tied for second place with 10 points each.

Once more only three teams were entered in the indoor baseball series, two from Victoria and one from St. Michael's, but the players had great enjoyment from the games. Victoria retained the cup.

Eleven teams entered the interfaculty basketball series, Physiotherapy, Junior Victoria and St. Michael's winning their respective groups. The latter team finally won a most popular verdict under the capable coaching for the second year of Miss Margery Rean and the captaincy of Gerry Ryan. Miss Rean also coached the Senior Intercollegiate Team, with Kay Mayes as Manager and Jean Miller as Captain. The team made a splendid showing, defeating McGill in the first game and bowing to Western by a small margin

in the final. Ill-luck was again the fate of the Seniors when two first-string guards were prevented from playing by doctor's orders. The Intermediates had a most enjoyable year playing a regular schedule which included trips to Guelph and Hamilton and even boasting a victory over the Senior team. Miss Erna Laing acted as Coach and Molly Moore and Margaret Pickering shared the Manager's duties.

The interfaculty hockey series was interesting and very hard fought. Victoria as usual entered two teams, and St. Michael's, U.C. and St. Hilda's one each. The latter two colleges provided the finalists and after tieing two games, St. Hilda's finally won the third by a 1-0 score.

Swimming retained its place as one of the most popular sports and the college meets, held as preliminaries to the interfaculty meet, uncovered some excellent new material. University College again won the championship, having the best balanced entry, although the individual and the diving trophies were again won by Peggy Bailey of Victoria. The intercollegiate meet was held in Hart House this year on the same programme as the men's intermediate intercollegiate meet. Toronto won a sweeping victory, coming first in all events and second in every one except the ornamental swimming where only one entry was permitted. New records were set in the 50 yard Free Style by Gertrude Evans, in the Relay by a team composed of Peggy Bailey, Margaret Hall, Mary Casson and Bobbie McDonald, and in the 100 yard Free Style and the 50 yard Back Stroke by Bobbie McDonald, who was the high point scorer of the meet and has the distinction of winning her Senior Colours twice in her first year as she was also an outstanding player on the Senior Basketball Team.

Another sport which was taken up with great enthusiasm was bowling, which was made possible by the new athletic fee. Nine teams were entered, bowling an hour a week for ten weeks, when champions will be declared on the basis of gross and handicap scores.

Badminton for the first time became an intercollegiate sport this year and much interest was aroused for this reason. Each college held its own tournament and sent six players to the interfaculty meet. From these the four finalists were chosen as the University team, two singles players and one doubles pair. Unfortunately one singles player was taken ill just before the meet and a substitute was sent in her place. McMaster won the meet due to their outstanding singles players, with McGill second, but the Toronto doubles team of Pat Downey and Rosemary Annesley won the championship in this event in convincing style and gave us third place in the tournament.

The thanks of the women athletes are gratefully extended to the many coaches who so kindly gave of their time and skill in the various sports and also to the officials of the men's Athletic Association for their co-operation and generous assistance in so many undertakings, particularly in the use of the Hart House facilities.

WOMEN'S INTERFACULTY ATHLETICS

University College Women's Athletics

THE year 1937-38 started off with the open golf tournament arranged by Phyllis Poyntz and Bunty Lang. Owing to the lateness of the tournament few were present, but those who were termed it a success. U.C. won their share of the prizes but failed to retain the cup for the low gross.

The tennis tournament was played in October under the management of Polly Shaw. U.C. were runners-up to Victoria College in the interfaculty intercollegiate team which unfortunately lost to Queens.

U.C. was represented by three basketball teams in the interfaculty competition: Seniors, Juniors and Freshies, coached by Gladys Wagg, Ruth Thomas and Erna Laing, had a strenuous season. The teams were managed by Margaret Glass, Helen Scott and Catherine Bryans respectively. On the senior intercollegiate team U.C. was represented by Margaret Glass, Bobby MacDonald and Jane Church, who unfortunately was forced to retire when injured in the badminton doubles finals. On the intermediate intercollegiate team U.C. was represented by Helen Gurney, Peggy McLaren, Betty Stephens and Anne MacDonald.

Swimming again has been very popular and Mary Davidson, the President of the University Swimming Club and Manager of the U.C. team, was very capable. Gertrude Evans, first year, won the individual honours in the U.C. meet, followed closely by Helen Scott and Mary Davidson. U.C. retained the interfaculty swimming title by a substantial margin due to the great swimming of Bobby MacDonald and Mary Davidson. Three of the members made the Intercollegiate Swimming Team.

Hockey has been more successful this year due to the continuous cold weather. Cay Robertson as Manager and "Grenny" Henderson as Coach have been very efficient. So far we have won three games and lost one, which should put us into the finals against St. Hilda's who as yet are undefeated.

The badminton tournament was very well handled by Patricia Downey, who also succeeded in winning the singles tournament and paired with Margaret Glover to win the doubles. U.C. won its first interfaculty badminton tournament with Johnny Marshall carrying off the individual honours. This year badminton had been made an intercollegiate sport and we are proud to have Johnny Marshall and Pat Downey on the University of Toronto team which went to London.

On the whole U.C. has had a very successful year in athletics, winning two interfaculty titles and being runners-up in two other interfaculty competitions besides being represented on every University team.

Senior "T's" are held by the following members of the college: Margaret Glass, Bunty Lang, Jocelyn Rea, Polly Shaw and Joyce Tenenbaum.

St. Hilda's Athletic Association

THE athletic season started off with the selection of the tennis team which was engineered with a good deal of difficulty as the new residence was rising where the tennis courts used to be. With the games being played in a hurry at the Vic courts, a team was finally chosen consisting of J. McMaster, K. Hilder, G. Mann, E. Kirk, G. Carvolth and H. Macmorine. Their efforts in the interfaculty tourney were creditable but not startling. Joan McMaster won the Saint's championship with Kay Hilder runner-up.

Even with the loss of most of last year's stars the Saints managed to put two basketball teams into the league with a good deal of help from the first year. "Gin" Lander for the Seniors and Rosemary Annesley and Joan Griffith for the Juniors turned in fine performances. Unfortunately Joan McMaster was unable to finish the season through illness.

The hockey season got under way in January, with the Saints having the best team for some years and hoping to bring back the interfaculty trophy after four years' absence. All the players are worthy of mention here but space does not permit.

In the interfaculty swimming meet our only points were won by "Chrissie" Gilchrist in the long plunge and Joan Griffith in the style events. The rest of the team must be commended for their performances.

This year is the first time that there has been an intercollegiate badminton tournament and two of the Saints have won their laurels by taking two of the four positions on the team. Mary Becker was runner-up for the University championship and Rosemary Annesley reached the semi-finals. However, we lost the interfaculty championship to U.C. Rosemary Annesley defeated Mary Becker in the college tournament to take the badminton cup.

Well, here's hoping you have good luck in the new residence, Saints.

THE girls on the basketball team were very enthusiastic this year with Miss Dockter as their coach. Although they did not succeed in scoring sufficient points to win a game they put up a good defence.

Miss Marjorie Mosbaugh brought honour to our Athletic Association by winning the University of Toronto Women's Golf Championship.

The Athletic "M's" were presented to Doris Prowse, Margaret McFarlane and Lily Sugarman at the girls' Daffydil banquet.

Our Executive: Isobel Wright, President; Barbara Watts, Vice-President; Doris Prowse, Secretary-Treasurer; Margaret McFarlane, Basketball Manager.

TOMORROW'S MAN

. . . faces a very different world from that of fifty years ago into which his father was born. Then it was a novelty to hear a voice through the telephone . . . There were few electric cars, no electric ranges or refrigerators, no sound pictures . . . The family wash was done by hand and a lantern lighted his way instead of a flashlight . . . The buggy and sleigh were his conveyances. There was no radio, and the organ was a cumbersome instrument blown by hand bellows.

Today's youth studies music on the Northern-Hammond Organ which uses no pipes or reeds and cannot get out of tune . . . A new instrument that is revolutionizing music. More than 4,000 have been sold throughout the world;—over 1,000 of them for religious buildings of many denominations. A Northern-Hammond Organ is an ideal gift for **your** church or home.

Any boy can make a motor!

For a thing so important to modern life, an electric motor is an amazingly simple device. Just a few pieces of steel and iron, wound with coils of wire. Any bright boy can follow instructions and make one that will run.

Yet the most romantic story ever told could be written about the electric motor. It runs practically every mechanical device in use today. It turns the wheels of industry—carries people to work from the suburbs to the topmost floors of tall buildings. The daily lives—even the livelihood—of most of us depend in some way upon it. The job of fitting electric motors to the world's work is an exacting one. What makes it complicated is that every task, to be done efficiently, requires a certain kind of motor. Westinghouse, for example, offers over 20,000 different types, sizes and ratings. If none of these is exactly what is needed, a special model will be built to order. These same standards of electrical efficiency are applied to the manufacture of EVERY Westinghouse product, whether it is a Westinghouse refrigerator, range, radio or one of the many other electrical servants for the home. Westinghouse research is constantly at work developing new and better applications of electricity in the home.
